CLEARING CUCUMBER & COCONUT GIMLET

Rejuvenation, Calm, New Beginnings

Relax and refresh your energy with this simple cucumber, mint, and coconut no-alcohol gimlet. Mint and cucumber refresh and uplift the mind in this tasty concoction, while lime and coconut clear and soothe your senses. With a choice of simple syrup, this is the perfect sip to dispel negative energy and rejuvenate. Imbibe when you need some rest and renewal—it's hard to go wrong with a cucumber gimlet.

SERVES 1

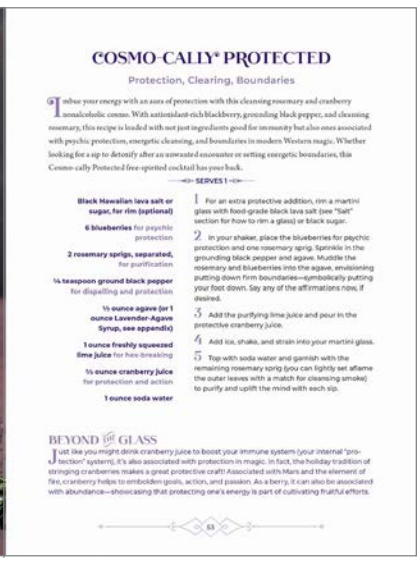

- **4 mint leaves** for refreshing the mind
- **2 thin slices cucumber**
- **¼ ounce Lemongrass Simple Syrup or classic Simple Syrup (page 199 in the appendix)** for clearing energy
- **1 ounce freshly squeezed lime juice**
- **1½ ounces coconut water** for inner purification
- **Cucumber peel and mint sprig, for garnish**

1. In your shaker, place the mint and cucumber to refresh and rejuvenate. Add the lemongrass syrup and muddle the cucumber and mint so that their flavors better integrate into the recipe.
2. Add the lime juice, using the hex-breaking energy of the citrus and the kinetic motion of having squeezed the fruit to "squeeze" out any frustrations or blockages.
3. Add the coconut water for spirituality and purification. Add ice and shake.
4. Strain into a martini glass or coupe and garnish to add a renewing scent of mint with each sip.

BEYOND THE GLASS

The new moon (when the moon is absent from the sky, positioned between the Earth and the sun) is a symbolic time of renewal. While the waxing crescent will soon show in the sky, its momentary absence is a reminder of how we all need renewal before being able to start fresh or begin something new. With coconut water and cucumber, this drink is also attuned to the energy of the new moon. Like the moon, allow yourself time to refresh without expectations and know that your energy (and inner light) will naturally replenish with rest.

COSMO-CALLY* PROTECTED

Protection, Clearing, Boundaries

Imbue your energy with an aura of protection with this cleansing rosemary and cranberry nonalcoholic cosmo. With antioxidant-rich blackberry, grounding black pepper, and cleansing rosemary, this recipe is loaded with not just ingredients good for immunity but also ones associated with psychic protection, energetic cleansing, and boundaries in modern Western magic. Whether looking for a sip to detoxify after an unwanted encounter or setting energetic boundaries, this Cosmo-cally Protected free-spirited cocktail has your back.

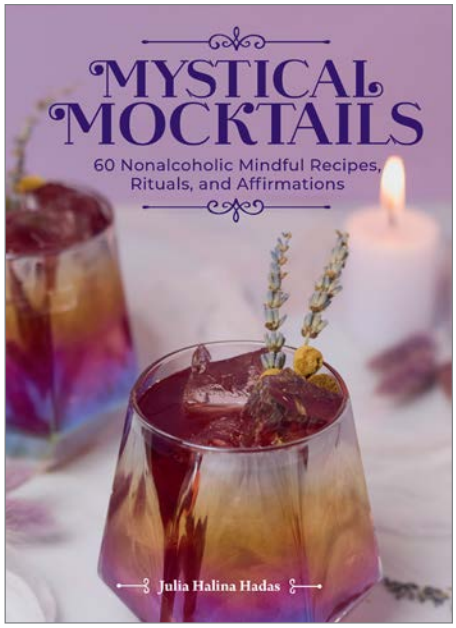

SERVES 1

- **Black Hawaiian lava salt or sugar, for rim (optional)**
- **6 blueberries** for psychic protection
- **2 rosemary sprigs, separated,** for purification
- **¼ teaspoon ground black pepper** for dispelling and protection
- **½ ounce agave (or 1 ounce Lavender-Agave Syrup, see appendix)**
- **1 ounce freshly squeezed lime juice** for hex-breaking
- **½ ounce cranberry juice** for protection and action
- **1 ounce soda water**

1. For an extra protective addition, rim a martini glass with food-grade black lava salt (see "Salt" section for how to rim a glass) or black sugar.
2. In your shaker, place the blueberries for psychic protection and one rosemary sprig. Sprinkle in the grounding black pepper and agave. Muddle the rosemary and blueberries into the agave, envisioning putting down firm boundaries—symbolically putting your foot down. Say any of the affirmations now, if desired.
3. Add the purifying lime juice and pour in the protective cranberry juice.
4. Add ice, shake, and strain into your martini glass.
5. Top with soda water and garnish with the remaining rosemary sprig (you can lightly set aflame the outer leaves with a match for cleansing smoke) to purify and uplift the mind with each sip.

BEYOND THE GLASS

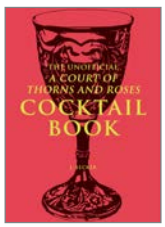

Just like you might drink cranberry juice to boost your immune system (your internal "protection" system), it's also associated with protection in magic. In fact, the holiday tradition of stringing cranberries makes a great protective craft! Associated with Mars and the element of fire, cranberry helps to embolden goals, action, and passion. As a berry, it can also be associated with abundance—showcasing that protecting one's energy is part of cultivating fruitful efforts.

*Chat Sh*t Crazy*

A Very Human Guide to Improving Your Life with ChatGPT

SARAH ELIZABETH HILL

This clever and accessible book is an easy-to-use framework for self-improvement using the fastest-growing app of all time, ChatGPT. For anyone with questions about important decisions—whether about love and relationships, health and wellness, or finance and career—guidance is as easy as asking ChatGPT, a program developed to participate in conversations and provide insight. Featuring a selection of practical prompts for self-knowledge, key phrases for getting the most useful information from ChatGPT, and suggestions for personal growth, this book appeals to those intrigued by AI and to those already into it.

CHAPTER 3

When AI Can Help–and When It Can't

Obviously, I'm a big proponent of using ChatGPT to help you with the burden of decision-making. Now that I've mentioned the exciting possibilities (and because the rest of the book is devoted to them), I want to spend some time discussing ChatGPT's limitations.

CHAT IS NO SUBSTITUTE FOR FRIENDS & FAMILY

Again, the whole reason I wrote this book stemmed from the feeling that if I'd had Chat at earlier points in my life, it could have saved me hours (years?) of worry and rumination. But as I was writing this book, I found that going back through the decisions I've made in my life and thinking about how I could have made them better wasn't as fun as I'd thought it would be. Looking back into the what-ifs and what-could've-beens can be helpful, but it also leaves you to evaluate where you are now and what you might have missed out on by choosing the path you chose. I have been fortunate that the choices I have made have led me to incredible experiences and

18

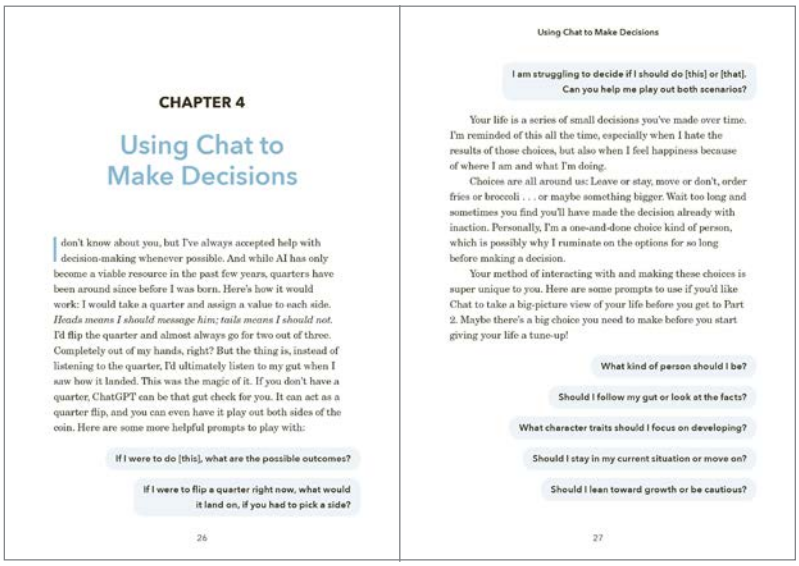

When AI Can Help–and When It Can't

people I could never have imagined having in my life. I feel lucky and privileged knowing that I have had the opportunity to pursue my dreams. But I have had intense moments of doubt, struggle, pain, and sacrifice I wouldn't wish on anyone. It's a lot to comb through. The only thing (and truly, the *only* thing) that pulled me out of the spiral was talking to the people I love most and being vulnerable with them about my feelings.

Please do not read this book and decide to isolate yourself. Do not mistake ChatGPT for the actual care and help a real human can give you. Chat cannot match the nuanced insight and love a person can provide for you. Sometimes it's a hug, sometimes it's a cry, and sometimes it's sitting in silence with you. There is power and healing when a friend sits beside you and really holds a feeling with you. When you're in real pain, Chat can ease it and help you find logic behind it, but a loved one can be there for you. There is no replacement for that. It is magic and worth pursuing. Chat can help us see ourselves more clearly and help us navigate a complicated world, but another person can actually *see* you and *be* there with you.

One time, in the middle of a full-on crisis, I was riding the subway in Brooklyn. I was heartbroken, but I didn't think the people around me could necessarily tell. However, when I got off the train, a woman immediately came up to me and said, "I can see your suffering. Whatever you're going through is written all over your face. You need to give it to God." Her seeing me—her recognition, in a sea of strangers—meant the world to me. I was suffering, but someone else saw it, and for a brief moment that person said something to me and acknowledged my pain. She gave me a hug and we were on our way.

19

CHAPTER 4

Using Chat to Make Decisions

I don't know about you, but I've always accepted help with decision-making whenever possible. And while AI has only become a viable resource in the past few years, quarters have been around since before I was born. Here's how it would work: I would take a quarter and assign a value to each side. *Heads means I should message him; tails means I should not.* I'd flip the quarter and almost always go for two out of three. Completely out of my hands, right? But the thing is, instead of listening to the quarter, I'd ultimately listen to my gut when I saw how it landed. This was the magic of it. If you don't have a quarter, ChatGPT can be that gut check for you. It can act as a quarter flip, and you can even have it play out both sides of the coin. Here are some more helpful prompts to play with:

If I were to do [this], what are the possible outcomes?

If I were to flip a quarter right now, what would it land on, if you had to pick a side?

26

Using Chat to Make Decisions

I am struggling to decide if I should do [this] or [that]. Can you help me play out both scenarios?

Your life is a series of small decisions you've made over time. I'm reminded of this all the time, especially when I hate the results of those choices, but also when I feel happiness because of where I am and what I'm doing.

Choices are all around us: Leave or stay, move or don't, order fries or broccoli . . . or maybe something bigger. Wait too long and sometimes you find you'll have made the decision already with inaction. Personally, I'm a one-and-done choice kind of person, which is possibly why I ruminate on the options for so long before making a decision.

Your method of interacting with and making these choices is super unique to you. Here are some prompts to use if you'd like Chat to take a big-picture view of your life before you get to Part 2. Maybe there's a big choice you need to make before you start giving your life a tune-up!

What kind of person should I be?

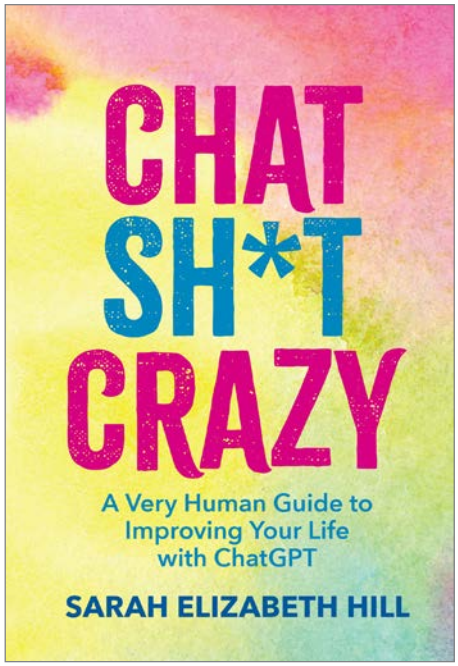

Should I follow my gut or look at the facts?

What character traits should I focus on developing?

Should I stay in my current situation or move on?

Should I lean toward growth or be cautious?

The Last Poem

A Novel

COURTNEY PEPPERNELL

From international bestselling author Courtney Peppernell comes *The Last Poem*, a heartfelt exploration of grief and learning to love again. Peppernell continues to be a prominent and inspiring poet on Instagram and within the LGBTQIA+ community with sapphic main characters. Peppernell's first novel, this is a beautiful, modern love story.

Chapter 1

Whoops.

The gutter rolling along the front of the house was falling apart and rusted in sections. It didn't matter how long I spent staring up at it, squinting through the bright sunlight was unfortunately not going to magically repair the gaping holes in the metal. There were little puddles of water pooling everywhere around the house, rotting the wood, creating muddy patches where the water had settled, having nowhere else to go.

"Moo!"

I turned to see Kyle, the plumber I had repeatedly called over the past month. His shirt was dirty, and flecks of mud and grime were splattered across his face, but he was grinning triumphantly from ear to ear.

"Fixed," he said proudly.

I stared up at the holes.

"Not the word I would use," I said drily.

"I meant that the pipe in the laundry room shouldn't be leaking anymore."

I smiled because leaking was a modest description, to say the least. A full-blown explosion was more like it.

"Well, I suppose one thing at a time," I said.

Kyle stared up at the gutter rolling, shielding his eyes from the sun with a stained hand.

"This will need replacing, too," he said matter-of-factly. "I can pick up supplies later today?"

"Please. Although I think a family of sparrows is taking up residence somewhere along the left side of the roof."

Kyle whistled. "There'll be a lot more than sparrows nesting around this house."

I shuddered at the thought of creepy crawlies, and quite possibly opossums or raccoons, invading the house.

"I can hear things at night, moving around in the roof."

He considered for a moment.

"Could be haunted."

"That would be the least of my worries," I said. *I'm the only one here who is haunted.*

"What's that?"

"Nothing." I waved my hand at him. "Thank you for coming out so often. The owner really appreciates it."

"Real nice thing you're doing for Gill, you know, fixing this up. This house has been here for as long as I've been alive."

"I think it's probably been a bit longer than that," I said, laughing. "Gill has been really good to me, letting me stay, so it's the least I can do."

Kyle picked up his toolbox and threw a wrench into it before shutting it with a snap.

"I'll be back tomorrow with the supplies."

He began heading toward his truck but then paused a moment, looking at the front door with its chipped paint and holes in the wire-framed window. The hinges on it were so red with rust that the door was barely holding on.

"You know, my father always used to say that a fresh coat of paint could fix anything."

I stared hard at the front door. "He's probably right."

I watched as Kyle made his way down the cobbled path to the front gate, opening it and disappearing into the street.
