

### A Manual for the Identification of Plant Seeds and Fruits

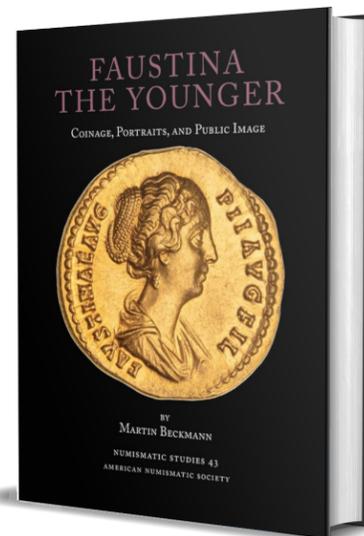

Second revised edition

by R.T.J. Cappers & R.M. Bekker

The taxonomic and ecological identification of individual seeds and fruits of wild and cultivated plants is not always straightforward. This book helps you to get started, and also serves as a basis for further identification. This handbook is a completely revised version of the first edition, which was published in 2013.

### Faustina the Younger

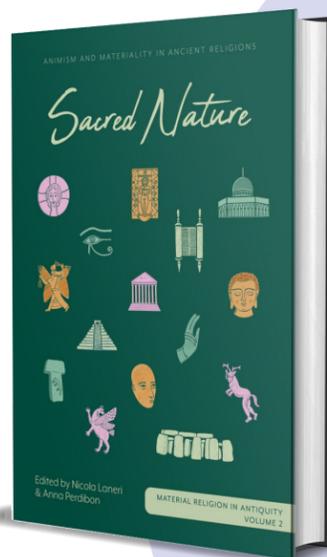

Coinage, Portraits, and Public Image

by Martin Beckmann

This book examines the single largest surviving ancient source for the portraiture and public image of Faustina the Younger: the coinage struck in her name under Antoninus Pius and Marcus Aurelius. This study seeks to remedy the unclear chronology of this coinage by employing the methodology of die analysis to create a new and firm chronology for Faustina's coinage.

### Sacred Nature

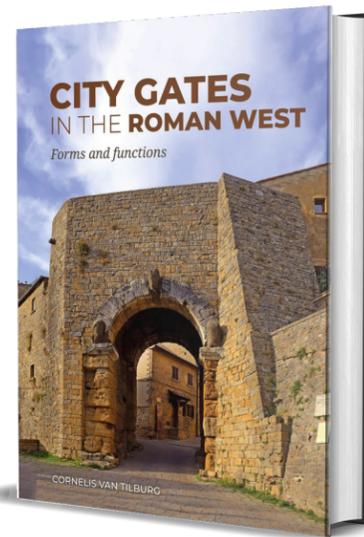

Animism and Materiality in Ancient Religions

Edited by Nicola Laneri & Anna Perdibon

The second book in the 'Material Religion in Antiquity' series from Oxbow. *Sacred Nature* presents case studies from a range of periods, cultures and geographical locations all which question the application of the modern nature/culture dualism to the understanding of attitudes towards and perceptions of nature, animals and plants in religions of the ancient world.

### City Gates in the Roman West

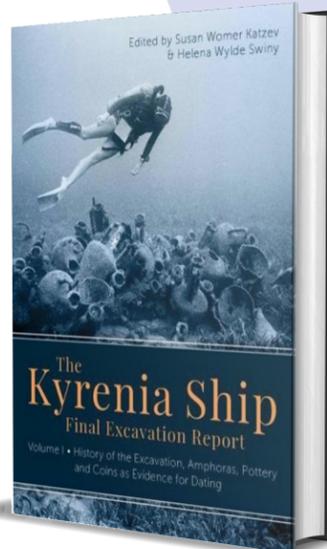

Forms and functions

by Cornelis van Tilburg

This book brings together all available material concerning those city gates in the Roman West that are preserved in a good enough condition to be described and discussed. It focusses on the forms and functions of the gates. In addition, it comprises textual sources (both literary and epigraphic material) containing information on the uses of city gates.

### The Kyrenia Ship Final Excavation Report

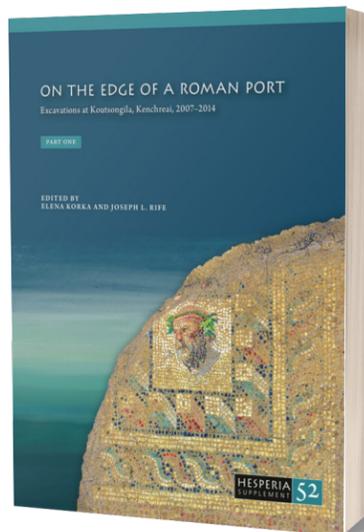

Volume I - History of the Excavation, Amphoras, Pottery and Coins as Evidence for Dating

Edited by Susan Womer Katzev & Helena Wylde Swiny

This book is the first in a series of four volumes presenting the results of excavation of the Kyrenia ship, the best preserved and dated example of a Greek merchantman wrecked in the early 3rd century BC. The ship's cargo was recovered more-or-less intact together with personal possessions and utensils of the crew providing an unprecedented insight on shipbuilding techniques of the period.

### On the Edge of a Roman Port

Excavations at Koutsongila, Kenchreai, 2007–2014

Edited by Elena Korca & Joseph L. Rife

This volume presents the finds of a Greek-American team that investigated an impressive array of Early Roman to Early Byzantine buildings and burials on the Koutsongila Ridge at Kenchreai, revealing abundant evidence not only for the history of activity in a transitional urban/suburban landscape, but also for the society, economy, and religion of local residents.
