## Alasdair MacIntyre

### An Intellectual Biography

Émile Perreau-Saussine, Nathan J. Pinkoski

#### Summary

**This award-winning biography, now available for the first time in English, presents an illuminating introduction to Alasdair MacIntyre and locates his thinking in the intellectual milieu of twentieth-century philosophy.**

Winner of the prestigious 2005 Philippe Habert Prize, the late Émile Perreau-Saussine's *Alasdair MacIntyre: Une biographie intellectuelle* stands as a definitive introduction to the life and work of one of today's leading moral philosophers. With Nathan J. Pinkoski's translation, this long-awaited, critical examination of MacIntyre's thought is now available to English readers for the first time, including a foreword by renowned philosopher Pierre Manent.

Amid the confusions and contradictions of our present philosophical landscape, few have provided the clarity of thought and shrewdness of diagnosis like Alasdair MacIntyre. In this study, Perreau-Saussine guides his readers through MacIntyre's lifelong project by tracking his responses to liberalism's limitations in light of the human search for what is good and true in politics, philosophy, and theology. The portrait that emerges is one of an intellectual giant who comes to oppose modern liberal individualism's arguably singular focus on averting evil at the expense of a concerted pursuit of human goods founded upon moral and practical reasoning. Although throughout his career MacIntyre would engage with a number of theoretical and practical standpoints in service of his critique of liberalism, not the least of which was his early and later abandoned dalliance with Marxism, Perreau-Saussine convincingly shows how the Scottish philosopher came to hold that Aristotelian Thomism provides the best resources to counter what he perceives as the failure of the liberal project.

#### Contributor Bio

Émile Perreau-Saussine (1972–2010) was a lecturer in the Department of Politics and International Studies at the University of Cambridge.

Nathan J. Pinkoski is a research fellow and director of academic programs at the Zephyr Institute.

## Retrieving Freedom

### The Christian Appropriation of Classical Tradition

D. C. Schindler

#### Summary

***Retrieving Freedom* is a provocative, big-picture book, taking a long view of the "rise and fall" of the classical understanding of freedom.**

In response to the evident shortcomings of the notion of freedom that dominates contemporary discourse, *Retrieving Freedom* seeks to return to the sources of the Western tradition to recover a more adequate understanding. This book begins by setting forth the ancient Greek conception—summarized from the conclusion of D. C. Schindler's previous tour de force of political and moral reasoning, *Freedom from Reality*—and the ancient Hebrew conception, arguing that at the heart of the Christian vision of humanity is a novel synthesis of the apparently opposed views of the Greeks and Jews. This synthesis is then taken as a measure that guides an in-depth exploration of landmark figures framing the history of the Christian appropriation of the classical tradition. Schindler conducts his investigation through five different historical periods, focusing in each case on a polarity, a pair of figures who represent the spectrum of views from that time: Plotinus and Augustine from late antiquity, Dionysius the Areopagite and Maximus the Confessor from the patristic period, Anselm and Bernard from the early middle ages, Bonaventure and Aquinas from the high middle ages, and, finally, Godfrey of Fontaines and John Duns Scotus from the late middle ages. In the end, we rediscover dimensions of freedom that have gone missing in contemporary discourse, and thereby identify tasks that remain to be accomplished. Schindler's masterful study will interest philosophers, political theorists, and students and scholars of intellectual history, especially those who seek an alternative to contemporary philosophical understandings of freedom.

#### Contributor Bio

D. C. Schindler is professor of metaphysics and anthropology at the John Paul II Institute, Washington, DC. He is the author of eleven books, including *Freedom from Reality: The Diabolical Character of Modern Liberty* (University of Notre Dame Press, 2017).

## Touch the Wounds

### On Suffering, Trust, and Transformation

Tomáš Halík, Gerald Turner

#### Summary

**In this masterfully written book, Tomáš Halík calls upon Christians to touch the wounds of the world and to rediscover their own faith by loving and healing their neighbors.**

One of the most important voices in contemporary Catholicism, Tomáš Halík argues that Christians can discover the clearest vision of God not by turning away from suffering but by confronting it. Halík calls upon us to follow the apostle Thomas's example: to see the pain, suffering, and poverty of our world and to touch those wounds with faith and action. It is those expressions of love and service, Halík reveals, that restore our hope and the courage to live, allowing true holiness to manifest itself. Only face-to-face with a wounded Christ can we lay down our armor and masks, revealing our own wounds and allowing healing to begin.

Weaving together deep theological and philosophical reflections with surprising, trenchant, and even humorous commentary on the times in which we live, Halík offers a new prescription for those lost in moments of doubt, abandonment, or suffering. Rather than demanding impossible, flawless faith, we can look through our doubt to see, touch, and confront the wounds in the hearts of our neighbors and—through that wounded humanity, which the Son of God took upon himself—see God.

## Global Initiatives of Ecumenical Patriarch Bartholomew

### Peace, Reconciliation, and Care for Creation

John Chryssavgis, Ecumenical Patriarch Bartholomew

#### Summary

**In celebration of the 2021 visit to the University of Notre Dame by Ecumenical Patriarch Bartholomew, this groundbreaking volume gathers together and introduces eleven important joint statements from the patriarch, addressing diverse topics from climate change to ecumenical dialogue.**

As the spiritual leader of 300 million Orthodox Christians worldwide, His All-Holiness Bartholomew, Orthodox Archbishop of Constantinople-New Rome and Ecumenical Patriarch, has long been a beacon for strengthening inter-Christian and inter-religious dialogues on the world stage. This volume assembles eleven joint statements initiated by the ecumenical patriarch with prominent global Christian leaders, including Pope Francis, Pope Benedict XVI, Pope St. John Paul II, Archbishop of Canterbury Justin Welby, and Archbishop Ieronymos II. It also includes Ecumenical Patriarch Bartholomew's address at Notre Dame upon receiving an honorary doctorate.

The statements address a wide array of pressing issues, including human rights, the environment, support of migrants, the COVID-19 pandemic, and the relationship between the Orthodox and Roman Catholic churches, frequently referred to as "sister churches." The book contains a foreword by John I. Jenkins, C.S.C., president of the University of Notre Dame, and an introduction by John Chryssavgis, which provides an overview of the ecumenical patriarch's long ministry and powerful vision, illustrating his significance both within the Orthodox world as well as on the world stage.

#### Contributor Bio

Ecumenical Patriarch Bartholomew is the 270th archbishop of Constantinople. He is the spiritual leader of Eastern Orthodox Christians worldwide.

John Chryssavgis is the author of numerous books and a theologian serving as archdeacon of the Ecumenical Patriarchate and advisor to the ecumenical patriarch on theological and environmental issues.

## Now and Forever

### A Theological Aesthetics of Time

John E. Thiel

#### Summary

**Building on the insights of the *ressourcement* theology of grace, this sophisticated theological aesthetics offers a fresh vision of the doctrine of creation through a consideration of the beauty of time.**

Conventional eschatological accounts of life after death tend to emphasize the discontinuity between earthly life and the hereafter: whereas this life is subject to the contingencies of time, life after death is characterized by a stolid eternity. In contrast to this standard view, John E. Thiel's *Now and Forever* articulates a Catholic eschatology in which earthly life and heavenly life are seen as gracefully continuous.

This account offers a reconceptualization of time, which, Thiel argues, is best understood as the sacramental medium of God's grace to creation. Thiel's project thus attempts to rescue time from its Platonically negative resonance in the doctrine of creation. Rather than viewing time as the ambiance of sinful dissolution, Thiel argues for a Christian vision of time's beauty, and so explicitly develops an aesthetics that views time as a creaturely reflection of God's own Trinitarian life. This thesis proceeds from the assumption that all time is eschatological time and is thus guided by attention to the temporality implicit in the virtue of hope, with its orientation toward a fulfilled future that culminates in resurrected life. This interpretation of the beauty of eschatological time in its widest expanse presses further the insight of *ressourcement* theology that grace is everywhere, while appreciating how time's graceful beauty manifests itself in the diversity of temporal moments, human communities, and most fully in the heavenly communion of the saints.

## Josef Pieper on the Spiritual Life

### Creation, Contemplation, and Human Flourishing

Nathaniel A. Warne

#### Summary

**Warne's original study provides an insightful analysis of the role of contemplation and creation in the thought of Josef Pieper, illustrating the importance of this practice to earthly happiness and human flourishing.**

What is the relationship between creation, contemplation, human flourishing, and moral development? Nathaniel Warne's *Josef Pieper on the Spiritual Life* offers a sophisticated answer to this question through a systematic analysis of philosopher Josef Pieper's (1904–1997) thought. Warne's examination centers on the role of contemplation and creation in Pieper's thinking, arguing that contemplation of the created order is a key feature of earthly happiness. By emphasizing the importance of contemplation, Pieper illustrates the deep interconnections between ethics, creation, and spirituality. For Warne, to posit a binary between the contemplative life and active life creates a false dichotomy. Following Pieper, Warne claims that theology and spirituality cannot be bracketed from ethics and social action—indeed, our lived experience in the world blurs the lines between these practices. Contemplation and action are closer together than are typically assumed, and they have important implications for both our spiritual development and our engagement with the world around us. Ultimately, Warne's emphasis on creation and contemplation represents an attempt to resist a view of ethics and the spiritual life that is divorced from our environment. In response to this view, Warne argues that we need a renewed sense that creation and place are important for self-understanding. Contemplation of creation is, at bottom, a form of communion with God—we thus need a more robust sense of how ethics and politics are rooted in God's creative action. Taking Pieper as a guide, Warne's study helps to deepen our thinking about these connections.

## Don't Think for Yourself

Authority and Belief in Medieval Philosophy

Peter Adamson

### Summary

**How do we judge whether we should be willing to follow the views of experts or whether we ought to try to come to our own, independent views? This book seeks the answer in medieval philosophical thought.**

In this engaging study into the history of philosophy and epistemology, Peter Adamson provides an answer to a question as relevant today as it was in the medieval period: how and when should we turn to the authoritative expertise of other people in forming our own beliefs? He challenges us to reconsider our approach to this question through a constructive recovery of the intellectual and cultural traditions of the Islamic world, the Byzantine Empire, and Latin Christendom.

Adamson begins by foregrounding the distinction in Islamic philosophy between *taqlīd*, or the uncritical acceptance of authority, and *ijtihād*, or judgment based on independent effort, the latter of which was particularly prized in Islamic law, theology, and philosophy during the medieval period. He then demonstrates how the Islamic tradition paves the way for the development of what he calls a “justified *taqlīd*,” according to which one develops the skills necessary to critically and selectively follow an authority based on their reliability. The book proceeds to reconfigure our understanding of the relation between authority and independent thought in the medieval world by illuminating how women found spaces to assert their own intellectual authority, how medieval writers evaluated the authoritative status of Plato and Aristotle, and how independent reasoning was deployed to defend one Abrahamic faith against the other. This clear and eloquently written book will interest scholars in and enthusiasts of medieval philosophy, Islamic studies, Byzantine studies, and the history of thought.

## The Difference Nothing Makes

Creation, Christ, Contemplation

Brian D. Robinette

### Summary

**This book explores the doctrinal, social, and spiritual significance of a central yet insufficiently understood tenet in Christian theology: creation “from nothing.”**

In this original study, Brian D. Robinette offers an extended meditation on the idea of creation out of nothing as it applies not only to the problem of God but also to questions of Christology, soteriology, and ecology. His basic argument is that *creatio ex nihilo* is not a speculative doctrine referring to cosmic origins but rather a foundational insight into the very nature of the God-world relation, one whose implications extend throughout the full spectrum of Christian imagination and practice. In this sense it serves a grammatical role: it gives orientation and scope to all Christian speech about the God-world relation.

In part 1, Robinette takes up several objections to *creatio ex nihilo* and defends the doctrine as providing crucial insights into the gifted character of creation. Chapter two underscores the contemplative dimensions of a theological inquiry that proceeds by way of “unknowing.” Part 2 draws from the field of mimetic theory in order to explore the creative and destructive potential of human desire. Part 3 draws upon the Christian contemplative tradition to show how the “dark night of faith” is a spiritually patient and discerning way to engage the sense of divine absence that many experience in our post-religious, post-secular age. The final chapter highlights *creatio ex nihilo* as an expression of divine love—God’s love for finitude, for manifestation, for relationship. Throughout, Robinette engages with biblical, patristic, and contemporary theological and philosophical sources, including, among others, René Girard, Karl Rahner, and Sergius Bulgakov.

## Disability's Challenge to Theology

**Genes, Eugenics, and the Metaphysics of Modern Medicine**

Devan Stahl

### Summary

**This book uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought.**

Theologians have been debating genetic engineering for decades, but what has been missing from many theological debates is a deep concern for persons with genetic disabilities. In this ambitious and stimulating book, Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies, such as human genetic engineering, gene therapy, genetic screenings, preimplantation genetic diagnosis, and gene editing. Using theological notions of creation *ex nihilo* and natural law alongside insights from disability studies, the book seeks to recast the debate concerning genetic well-being. Following the work of Stanley Hauerwas, Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies.

Stahl's project in "genethics" proceeds with an acute awareness of her own liberal Protestant tradition's early embrace of the eugenics movement in the name of scientific and medical advancement, and it constructively engages the Catholic tradition's metaphysical approach to questions in bioethics to surpass limitations to Protestant thinking on natural law. Christianity has all too frequently been complicit in excluding, degrading, and marginalizing people with disabilities, but the new Christian metaphysics developed here by way of disability perspectives provides normative, theological guidance on the use of genetic technologies today. As Stahl shows in her study, only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in "the least of these" and from there draw close to God. This book will be of interest to scholars in Christian ethics, bioethics, moral theology, and practical theology.

## The Case for Parental Choice

**God, Family, and Educational Liberty**

John E. Coons

### Summary

**This work makes a richly humanitarian case for parental school choice, seeking to advance social justice and respect the dignity of parents—especially those on the margins.**

For decades, arguments in favor of school choice have largely been advanced on the basis of utility or outcome rather than social justice and human dignity. *The Case for Parental Choice: God, Family, and Educational Liberty* offers a compelling and humanitarian alternative. This volume contains an edited collection of essays by John E. Coons, a visionary legal scholar and ardent supporter of what is perhaps best described as a social justice case for parental school choice. Few have written more prodigiously or prophetically about the need to give parents—particularly poor parents—power over their children's schooling. Coons has been an advocate of school choice for over sixty years, and indeed remains one of the most articulate proponents of a case for school choice that promotes both low-income parents and civic engagement, as opposed to mere efficiency or achievement. His is a distinctively Catholic voice that brings powerful normative arguments to debates that far too often get bogged down in disputes about cost savings and test scores.

The essays collected herein treat a wide variety of topics, including the relationship between school choice and individual autonomy; the implications of American educational policy for social justice, equality, and community; the impact of public schooling on low-income families; and the religious implications of school choice. Together, these pieces make for a wide-ranging and morally compelling case for parental choice in children's schooling.

## The Idea of Fraternity in America (Anniversary Edition)

Wilson Carey McWilliams

### Summary

**"A complex, intellectually jarring, and valuable book, one which reveals how early America became her true self as we now know her." —Kirkus Reviews**

The United States is currently experiencing a crisis of citizenship and democracy. For many of us, there is a sense of forlornness caused by losing sight of human connectedness and the bonds of community. Originally published in 1973, and long out of print, *The Idea of Fraternity in America* is a resonant call to reclaim and restore the communal bonds of democracy by one of the most important political theorists of the twentieth century, Wilson Carey McWilliams.

This sprawling and majestic book offers a comprehensive and original interpretation of the whole range of American historical and political thought, from seventeenth-century White Puritanism to twentieth-century Black American political thought. In one sense, it is a long and sustained reflection on the American political tradition, with side glances at other cultures and other traditions; in another sense, it is an impressive beginning to an original and comprehensive theory of politics, rooted in a new reading of a vast array of relevant sources. Speaking with a prescience unmatched by his contemporaries, McWilliams argues that in order to address the malaise of our modern democracy we must return to an ideal of our past: fraternity, a relation of affection founded on shared values and goals. This 50th anniversary edition, which offers a critique of the liberal tradition and a new social philosophy for the future, contains a new introduction from McWilliams's daughter, Susan McWilliams Barndt. She writes, "At a time when many Americans are wondering how we got to where we are today . . . this book demonstrates that there is in fact a lot of precedent for what feels so unprecedented in contemporary American politics."

### Contributor Bio

## Conservatism in a Divided America

### The Right and Identity Politics

George Hawley

### Summary

**George Hawley, who has written extensively on conservatism and right-wing ideologies in the U.S., presents a telling portrait of conservatism's relationship with identity politics.**

The American conservative movement has consistently declared its opposition to all forms of identity politics, arguing that such a form of politics is at odds with individualism. In this persuasive study, George Hawley examines the nature of identity politics in the United States: how conservatives view and understand it, how they embrace their own versions of identity, and how liberal and conservative intellectuals and politicians navigate this equally dangerous and potentially explosive landscape.

Hawley begins his analysis with a synopsis of the variety both of conservative critiques of identity politics and of conservative explanations for how it has come to define America's current political terrain. This historical account of differing conservative approaches to identity politics concerns from the post-war era until today—including race, gender, and immigration—foregrounds conservatism's lack of consistency in its critiques and ultimately its failure to provide convincing arguments against identity politics. Hawley explores the political right's own employment of identity politics, particularly in relation to partisan politics, and highlights how party identification in the United States has become a leading source of identity on both sides of the political spectrum. Hawley also discusses this generation's iteration of American white nationalism, the Alt-Right, from whose rise and fall conservatism may develop a more honest, realistic, and indeed relevant approach to identity politics. *Conservatism in a Divided America* examines sensitive subjects from a dispassionate, fair-minded approach that will appeal to readers across the ideological divide. The book will interest scholars and enthusiasts of political theory and psychology, American history, and U.S. electoral politics.

## The Collapse of Freedom of Expression

### Reconstructing the Ancient Roots of Modern Liberty

Jordi Pujol

#### Summary

**This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society.**

The topic of free speech is rarely addressed from a historical, philosophical, or theological perspective. In *The Collapse of Freedom of Expression*, Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework. Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity, Greek philosophy, and Roman law, which has left the door open to the various forms of abuse, censorship, and restrictions seen in contemporary public discourse. Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new, complementary disciplines.

Pujol examines emblematic cases such as *Charlie Hebdo*, free speech on campus, and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression. The book explores the main criticisms of the contemporary liberal tradition by communitarians, libertarians, feminists, and critical race theorists, and analyzes the gaps and contradictions within these traditions. Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people, and as such has an inescapable place in the construction of a pluralist public sphere.

## Making a Modern Political Order

### The Problem of the Nation State

James J. Sheehan

#### Summary

**Sheehan's thoughtful book makes a convincing case that the modern political order arises out of people's shared expectations and hopes, without which the nation state could not exist.**

Every political order depends on a set of shared expectations about how the order does and should work. In *Making a Modern Political Order*, James Sheehan provides a sophisticated analysis of these expectations and shows how they are a source of both cohesion and conflict in the modern society of nation states. The author divides these expectations into three groups: first, expectations about the definition and character of political space, which in the modern era are connected to the emergence of a new kind of state; second, expectations about the nature of political communities (that is, about how people relate to one another and to their governments); and finally, expectations about the international system (namely, how states interact in a society of nation states). Although Sheehan treats these three dimensions of the political order separately, they are closely bound together, each dependent on—and reinforcing—the others. Ultimately, he claims, the modern nation state must balance all three organizing principles if it is to succeed.

Sheehan's project begins with an examination of people's expectations about political space, community, and international society in the premodern European world that came to be called the "ancien régime." He then, in chapters on states, nations, and the society of nation states, proceeds to trace the development of a modern political order that slowly and unevenly replaced the ancien régime in Europe and eventually spread throughout the world. To close, he offers some speculations about the horizon ahead of us, beyond which lies a future order that may someday replace our own.

#### Contributor Bio

James J. Sheehan is the Dickason Professor in the Humanities, Emeritus, at Stanford University. He was president of the American Historical Association in 2005 and is the author and editor of numerous books, including *Where Have All the Soldiers Gone?*

## Ars Vitae

**The Fate of Inwardness and the Return of the Ancient Arts of Living**

Elisabeth Lasch-Quinn

### Summary

**Despite the flood of self-help guides and our current therapeutic culture, feelings of alienation and spiritual longing continue to grip modern society. In this book, Elisabeth Lasch-Quinn offers a fresh solution: a return to classic philosophy and the cultivation of an inner life.**

The ancient Roman philosopher Cicero wrote that philosophy is *ars vitae*, the art of living. Today, signs of stress and duress point to a full-fledged crisis for individuals and communities while current modes of making sense of our lives prove inadequate. Yet, in this time of alienation and spiritual longing, we can glimpse signs of a renewed interest in ancient approaches to the art of living.

In this ambitious and timely book, Elisabeth Lasch-Quinn engages both general readers and scholars on the topic of well-being. She examines the reappearance of ancient philosophical thought in contemporary American culture, probing whether new stirrings of Gnosticism, Stoicism, Epicureanism, Cynicism, and Platonism present a true alternative to our current therapeutic culture of self-help and consumerism, which elevates the self's needs and desires yet fails to deliver on its promises of happiness and healing. Do the ancient philosophies represent a counter-tradition to today's culture, auguring a new cultural vibrancy, or do they merely solidify a modern way of life that has little use for inwardness—the cultivation of an inner life—stemming from those older traditions? Tracing the contours of this cultural resurgence and exploring a range of sources, from scholarship to self-help manuals, films, and other artifacts of popular culture, this book sees the different schools as organically interrelated and asks whether, taken together, they can point us in important new directions.

### Contributor Bio

Elisabeth Lasch-Quinn is professor of history at Syracuse University. She is the author of a number of essays and books, including *Black Neighbors* (winner of the Berkshire prize) and *Race Experts*.

## Progressivism

**The Strange History of a Radical Idea**

Bradley C. S. Watson

### Summary

**At its core this book is intellectual history, tracing the work of progressive historians as they in turn wrote the history of progressivism.**

In *Progressivism: The Strange History of a Radical Idea*, Bradley C. S. Watson presents an intellectual history of American progressivism as a philosophical-political phenomenon, focusing on how and with what consequences the academic discipline of history came to accept and propagate it. This book offers a meticulously detailed historiography and critique of the insularity and biases of academic culture. It shows how the first scholarly interpreters of progressivism were, in large measure, also its intellectual architects, and later interpreters were in deep sympathy with their premises and conclusions. Too many scholarly treatments of the progressive synthesis were products of it, or at least were insufficiently mindful of two central facts: the hostility of progressive theory to the Founders' Constitution and the tension between progressive theory and the realm of the private, including even conscience itself. The constitutional and religious dimensions of progressive thought—and, in particular, the relationship between the two—remained hidden for much of the twentieth century. This pathbreaking volume reveals how and why this scholarly obfuscation occurred. The book will interest students and scholars of American political thought, the Progressive Era, and historiography, and it will be a useful reference work for anyone in history, law, and political science.

Brian M. McCall

### Summary

**This book argues that classical natural law jurisprudence provides a superior answer to the questions “What is law?” and “How should law be made?” rather than those provided by legal positivism and “new” natural law theories.**

What is law? How should law be made? Using St. Thomas Aquinas’s analogy of God as an architect, Brian McCall argues that classical natural law jurisprudence provides an answer to these questions far superior to those provided by legal positivism or the “new” natural law theories. *The Architecture of Law* explores the metaphor of law as an architectural building project, with eternal law as the foundation, natural law as the frame, divine law as the guidance provided by the architect, and human law as the provider of the defining details and ornamentation. Classical jurisprudence is presented as a synthesis of the work of the greatest minds of antiquity and the medieval period, including Cicero, Aristotle, Gratian, Augustine, and Aquinas; the significant texts of each receive detailed exposition in these pages. Along with McCall’s development of the architectural image, he raises a question that becomes a running theme throughout the book: To what extent does one need to know God to accept and understand natural law jurisprudence, given its foundational premise that all authority comes from God? The separation of the study of law from knowledge of theology and morality, McCall argues, only results in the impoverishment of our understanding of law. He concludes that they must be reunited in order for jurisprudence to flourish. This book will appeal to academics, students in law, philosophy, and theology, and to all those interested in legal or political philosophy.

## Jacques and Raïssa Maritain

**Beggars for Heaven**

Jean-Luc Barré, Bernard Doering

### Summary

**This biography of French philosopher Jacques Maritain and his wife Raïssa offers a fascinating story of perhaps the most influential French theologian of the twentieth century.**

This award-winning book, written by Jean-Luc Barré at the request of the Maritain Archives in Kolbsheim, France, and published in France in 1995, was the first biography of noted French philosopher Jacques Maritain and his wife Raïssa. Drawing on the wealth of Maritain materials at the Kolbsheim archives, many of which are unpublished, Barré offers a clear and objective account of the remarkable lives and intellectual pursuits of the Maritains. Noted scholar and translator Bernard Doering has now made this essential work available for the first time in English.

*Jacques and Raïssa Maritain: Beggars for Heaven* focuses not only on the Maritains' philosophical work, but also on their pursuit of social justice, their opposition to the Vichy, their battle against intellectual repression in the church, and their contemplative life of prayer and devotion. Barré places a particular emphasis on the Maritains' close and supportive friendships with novelists, poets, painters, and musicians who were considered revolutionary at the time. Doering's translation will appeal not only to scholars but also to anyone interested in intellectual history generally and the intellectual history of modern Catholicism in particular.

## Philosophy, Reasoned Belief, and Faith

### An Introduction

Paul Herrick

#### Summary

**This clear, readable introduction to philosophy presents a traditional theistic view of the existence of God.**

There are many fine introductions to philosophy, but few are written for students of faith by a teacher who is sensitive to the intellectual challenges they face studying in an environment that is often hostile to religious belief. Many introductory texts present short, easy-to-refute synopses of the traditional arguments for God's existence, the soul, free will, and objective moral value rooted in God's nature, usually followed by strong objections stated as if they are the last word. This formula may make philosophy easier to digest, but it gives many students the impression that there are no longer any good reasons to accept the beliefs just mentioned.

*Philosophy, Reasoned Belief, and Faith* is written for philosophy instructors who want their students to take a deeper look at the classic theistic arguments and who believe that many traditional views can be rigorously defended against the strongest objections. The book is divided into four sections, focusing on philosophy of religion, an introduction to epistemology, philosophy of the human person, and philosophical ethics. The text challenges naturalism, the predominant outlook in the academic world today, while postmodernist relativism and skepticism are also examined and rejected. Students of faith—and students without faith—will deepen their worldviews by thoughtfully examining the philosophical arguments that are presented in this book. *Philosophy, Reasoned Belief, and Faith* will appeal to Christian teachers, analytic theists, home educators, and general readers interested in the classic arguments supporting a theistic worldview.

## God

### Eight Enduring Questions

C. Stephen Layman

#### Summary

**This book explores a wide range of philosophical issues in their connection with theism, including views of free will, ethical theories, theories of mind, naturalism, and karma-plus-reincarnation.**

In this clear and logical guide, C. Stephen Layman takes up eight important philosophical questions about God: Does God exist? Why does God permit evil? Why think God is good? Why is God hidden? What is God's relationship to ethics? Is divine foreknowledge compatible with human free will? Do humans have souls? Does reincarnation provide the best explanation of suffering? Based on more than thirty years of experience in teaching undergraduates and in leading philosophical discussions related to God, Layman has arranged the text to deal with each of these eight questions in one or two chapters apiece.

Many philosophical works take up questions about God, but the chapters of this book plunge the reader very quickly into the arguments relevant to each question. Layman presents the arguments cogently and simply, yet without oversimplifying the issues. The book emphasizes strengths and weaknesses of both theism and its metaphysical rivals. Readers will gain a clearer understanding of theism and naturalism, and of their sometimes surprising implications. The book can be used as a text in philosophy of religion and introductory philosophy courses. Professional philosophers will find significant, novel arguments in many of the chapters.

#### Contributor Bio

C. Stephen Layman is professor emeritus of philosophy at Seattle Pacific University. He is the author of five books, including *The Shape of the Good* (University of Notre Dame Press, 1994) and, most recently, *Philosophical Approaches to Atonement, Incarnation, and the Trinity*.

## Incomprehensible Certainty

### Metaphysics and Hermeneutics of the Image

Thomas Pfau

#### Summary

**Thomas Pfau's study of images and visual experience is a tour de force linking Platonic metaphysics to modern phenomenology and probing literary, philosophical, and theological accounts of visual experience from Plato to Rilke.**

*Incomprehensible Certainty* presents a sustained reflection on the nature of images and the phenomenology of visual experience. Taking the "image" (*eikōn*) as the essential medium of art and literature and as foundational for the intuitive ways in which we make contact with our "lifeworld," Thomas Pfau draws in equal measure on Platonic metaphysics and modern phenomenology to advance a series of interlocking claims. First, Pfau shows that, beginning with Plato's later dialogues, being and appearance came to be understood as ontologically distinct from (but no longer opposed to) one another. Second, in contrast to the idol that is typically gazed at and visually consumed as an object of desire, this study positions the image as a medium whose intrinsic abundance and excess reveal to us its metaphysical function—namely, as the visible analogue of an invisible, numinous reality. Finally, the interpretations unfolded in this book (from Plato, Plotinus, Pseudo-Dionysius, John Damascene via Bernard of Clairvaux, Bonaventure, Julian of Norwich, and Nicholas of Cusa to modern writers and artists such as Goethe, Ruskin, Turner, Hopkins, Cézanne, and Rilke) affirm the essential complementarity of image and word, visual intuition and hermeneutic practice, in theology, philosophy, and literature. Like Pfau's previous book, *Minding the Modern*, *Incomprehensible Certainty* is a major work. With over fifty illustrations, the book will interest students and scholars of philosophy, theology, literature, and art history.

## Godsends

### From Default Atheism to the Surprise of Revelation

William Desmond

#### Summary

***Godsends* is William Desmond's newest addition to his masterwork on the borderlines between philosophy and theology.**

For many years, William Desmond has been patiently constructing a philosophical project—replete with its own terminology, idiom, grammar, dialectic, and its metaxological transformation—in an attempt to reopen certain boundaries: between metaphysics and phenomenology, between philosophy of religion and philosophical theology, between the apocalyptic and the speculative, and between religious passion and systematic reasoning. In *Godsends*, Desmond's newest addition to his ambitious masterwork, he presents an original reflection on what he calls the "companioning" of philosophy and religion. Throughout the book, he follows an itinerary that has something of an Augustinian likeness: from the exterior to the interior, from the inferior to the superior. The stations along the way include a grappling with the default atheism prevalent in contemporary intellectual culture; an exploration of the middle space, the metaxu between the finite and the infinite; a dwelling with solitudes as thresholds between selving and the sacred; a meditation on idiot wisdom and transcendence in an East-West perspective; an exploration of the different stresses in the mysticisms of Aurobindo and the *Arnhem Mystical Sermons*; a dream monologue of autonomy, a suite of Kantian and post-Kantian variations on the story of the prodigal son; a meditation on the beatitudes as exceeding virtue, in light of Aquinas's understanding; and culminating in an exploration of Godsends as telling us something significant about the surprise of revelation in word, idea, and story. *Godsends* is written for thoughtful persons and scholars perplexed about the place of religion in our time and hopeful for some illuminating companionship from relevant philosophers.

William Desmond is the David R. Cook Chair in Philosophy at Villanova University, the Thomas A. F. Kelly Visiting Professor of Philosophy at Maynooth University, Ireland, and professor emeritus of philosophy at KU Leuven, Belgium.

## Sin

Gregory Mellema

### Summary

**This book brings clarification to our understanding of the nature of sin and will be of interest to nonphilosophers as well as philosophers.**

Most of the scholarly literature on sin has focused on theological issues, making book-length philosophical treatments of the topic hard to find. *Sin*, the newest contribution by Gregory Mellema, fills the gap by providing a short and lively summary of what contemporary philosophers are saying about the relationship between the traditional theological category of sin and contemporary philosophical ethics. Mellema brings together contributions by a number of philosophers, including Marilyn Adams, Robert Adams, Rebecca DeYoung, Alvin Plantinga, Michael Rea, Eleonore Stump, and Richard Swinburne, into a coherent discussion that clarifies our understanding of the nature of sin. The topics covered include the doctrine of original sin, accessory sins, mortal (or cardinal) sins, and venial sins. Mellema also examines Islamic codes of ethics, which include a category of acts that are “discouraged,” some of which qualify as sins, and the final chapter surveys the teachings of six major world religions concerning sin. The overarching link between the chapters is that sin is fundamentally connected to the subject matter of morality. Analyzing the points of connection is profitable not just to enhance our theoretical understanding of sin but to provide a greater depth of knowledge as to how the moral choices we make can more effectively help us avoid sin and contribute to lives that are satisfying and authentically worthwhile. This concise introduction to sin and moral wrongdoing will have a wide readership and is intended for use in introductory level philosophy, philosophy of religion, or theological ethics courses.

### Contributor Bio

Gregory Mellema is professor emeritus of philosophy at Calvin University. Among other books, he is the author of *Complicity and Moral Accountability* (University of Notre Dame Press, 2016, 2021).

## Complicity and Moral Accountability

Gregory Mellema

### Summary

In *Complicity and Moral Accountability*, Gregory Mellema presents a philosophical approach to the moral issues involved in complicity. Starting with a taxonomy of Thomas Aquinas, according to whom there are nine ways for one to become complicit in the wrongdoing of another, Mellema analyzes each kind of complicity and examines the moral status of someone complicit in each of these ways. Mellema’s central argument is that one must perform a contributing action to qualify as an accomplice, and that it is always morally blameworthy to perform such an action. Additionally, he argues that an accomplice frequently bears moral responsibility for the outcome of the other’s wrongdoing, but he distinguishes this case from cases in which the accomplice is tainted by the wrongdoing of the principal actor. He further distinguishes between enabling, facilitating, and condoning harm, and introduces the concept of indirect complicity. Mellema tackles issues that are clearly important to any case of collective and shared responsibility and yet are rarely discussed in depth, and he always presents his arguments clearly, concisely, and engagingly. His account of the nonmoral as well as moral qualities of complicity in wrongdoing—especially of the many and varied ways in which principles and accomplices can interact—is highly illuminating. Liberally sprinkled with helpful and nuanced examples, *Complicity and Moral Accountability* vividly illustrates the many ways in which one may be complicit in wrongdoing.

## Simone Weil for the Twenty-First Century

Eric O. Springsted

### Summary

**This in-depth study examines the social, religious, and philosophical thought of Simone Weil.**

*Simone Weil for the Twenty-First Century* presents a comprehensive analysis of Weil's interdisciplinary thought, focusing especially on the depth of its challenge to contemporary philosophical and religious studies. In a world where little is seen to have real meaning, Eric O. Springsted presents a critique of the unfocused nature of postmodern philosophy and argues that Weil's thought is more significant than ever in showing how the world in which we live is, in fact, a world of mysteries. Springsted brings into focus the challenges of Weil's original (and sometimes surprising) starting points, such as an Augustinian priority of goodness and love over being and intellect, and the importance of the Crucifixion. Springsted demonstrates how the mystical and spiritual aspects of Weil's writings influence her social thought. For Weil, social and political questions cannot be separated from the supernatural. For her, rather, the world has a sacramental quality, such that life in the world is always a matter of life in God—and life in God, necessarily a way of life in the world.

*Simone Weil for the Twenty-First Century* is not simply a guide or introduction to Simone Weil. Rather, it is above all an argument for the importance of Weil's thought in the contemporary world, showing how she helps us to understand the nature of our belonging to God (sometimes in very strange and unexpected ways), the importance of attention and love as the root of both the love of God and neighbor, the importance of being rooted in culture (and culture's service to the soul in rooting it in the universe), and the need for human beings to understand themselves as communal beings, not as isolated thinkers or willers. It will be essential reading for scholars of Weil, and will also be of interest to philosophers and theologians.

## Aquinas and the Infused Moral Virtues

Angela McKay Knobel

### Summary

**This study locates Aquinas's theory of infused and acquired virtue in his foundational understanding of nature and grace.**

Aquinas holds that all the virtues are bestowed on humans by God along with the gift of sanctifying grace. Since he also holds, with Aristotle, that we can create virtuous dispositions in ourselves through our own repeated good acts, a question arises: How are we to understand the relationship between the virtues God infuses at the moment of grace and virtues that are gradually acquired over time? In this important book, Angela McKay Knobel provides a detailed examination of Aquinas's theory of infused moral virtue, with special attention to the question of how the infused and acquired moral virtues are related. Part 1 examines Aquinas's own explicit remarks about the infused and acquired virtues and considers whether and to what extent a coherent "theory" of the relationship between the infused and acquired virtues can be found in Aquinas. Knobel argues that while Aquinas says almost nothing about how the infused and acquired virtues are related, he clearly does believe that the "structure" of the infused virtues mirrors that of the acquired in important ways. Part 2 uses that structure to evaluate existing interpretations of Aquinas and argues that no existing account adequately captures Aquinas's most fundamental commitments. Knobel ultimately argues that the correct account lies somewhere between the two most commonly advocated theories. Written primarily for students and scholars of moral philosophy and theology, the book will also appeal to readers interested in understanding Aquinas's theory of virtue.

## An Yves R. Simon Reader

### The Philosopher's Calling

Yves R. Simon, Michael D. Torre

### Summary

**An Yves R. Simon Reader is the first collection of texts from the entirety of the philosopher's work.**

French Catholic (and then American) political philosopher Yves R. Simon was a student of Jacques Maritain and one of the most important figures in the revival of Thomism. His work, however, is still little known in English, and there is as yet no English biography of him. In *An Yves R. Simon Reader: The Philosopher's Calling*, Michael D. Torre provides an erudite and helpful introduction to Simon's life and thought. The volume contains selected key texts from all of Simon's twenty books, half of which were published posthumously, dividing them into three sections. The first fundamentally defends the Aristotelian and Thomistic account of human knowing. The second begins with his groundbreaking discussion of human freedom and ends with his account of practical wisdom. The third then expands this account to cover the chief concerns of his social and political philosophy. The selections are long enough to be substantive and contain sustained and complete arguments. Each selection has its own foreword by an eminent commentator, familiar with Simon's work, who lays out the necessary context for the reader.

Contributors: Michael D. Torre, Jude P. Dougherty, Raymond Dennehy, John C. Cahalan, Steven A. Long, Ralph Nelson, John P. Hittinger, Ralph McInerny, David B. Burrell, CSC, Laurence Berns, Catherine Green, W. David Solomon, V. Bradley Lewis, Joseph W. Koterski, SJ, James V. Schall, SJ, George Anastaplo, Walter J. Nicgorski, John A. Gueguen, Jr., Thomas R. ## Action (1893)

### Essay on a Critique of Life and a Science of Practice

Maurice Blondel, Oliva Blanchette

### Summary

**This new edition of the English translation of Maurice Blondel's *Action (1893)* remains a philosophical classic.**

Action was once a common theme in philosophical reflection. It figured prominently in Aristotelian philosophy, and the medieval Scholastics built some of their key adages around it. But by the time French philosopher Maurice Blondel came to focus on it at the end of the nineteenth century, it had all but disappeared from the philosophical vocabulary. Today, it is no longer possible or legitimate to ignore action in philosophy as it was when Blondel defended and published his doctoral dissertation and most influential work, *L'Action: Essai d'une critique de la vie et d'une science de la pratique* (1893). Oliva Blanchette's definitive English translation of *Action* was first published in 1984 to critical acclaim. This new edition contains Blanchette's translation, corrections of minor errors in the first edition, and a new preface from the translator, describing what makes this early version of *Action* unique in all of Blondel's writings and what has kept it in the forefront of those interested in studying Blondel and his philosophy of Christian religion. *Action (1893)* will appeal to philosophers, theologians, and those looking for spiritual reading, and it is an excellent study in reasoning for the more scientifically inclined.

## Philosophical Exigencies of Christian Religion

Maurice Blondel, Oliva Blanchette

### Summary

***Philosophical Exigencies of Christian Religion* is a translation of two of Maurice Blondel's essays. Blondel's thinking played a significant role in the deliberations and arguments of the Second Vatican Council.**

Although a towering figure in the history of twentieth-century Catholic thought, the later systematic works of Maurice Blondel have been largely inaccessible in the English-speaking world. Oliva Blanchette, who previously translated Blondel's early groundbreaking work *Action* (1893), now offers the first English translation of the final work Blondel himself signed off on the day before he died, *Philosophical Exigencies of Christian Religion*. This work of transition from mere philosophy to a consideration of Christian religion consists of two main essays, *The Christian Sense* and the shorter *On Assimilation*, followed by a *Reconsideration and Global View* and an *Appendix: Clarifications and Admonitions* written in answer to an inquiry by a young scholar about method.

The first essay explores the Christian sense of the spiritual life and how Christian religion, even as supernatural, can come under the purview of critical philosophy. The second essay examines the move from analogy to assimilation in speaking of the Christian life. Blondel tackles the question: How does the human spirit combine with the divine spirit in such a way that neither is lost in the process?

## Horizons of Difference

Engaging with Others

Fred Dallmayr

### Summary

In his latest book, *Horizons of Difference: Engaging with Others*, Fred Dallmayr argues that the dialogue between religious and secular commitments, between faith and reason, is particularly important in our time because both faith and reason can give rise to dangerous and destructive types of extremism, fanaticism, or idolatry. In this interdisciplinary and cross-cultural synthesis of philosophy, religious thought, and political theory, Dallmayr neither accepts the "clash of cultures" dichotomy nor denies the reality of cultural tensions. Instead, operating from the standpoint of philosophical hermeneutics, he embraces cultural difference as a necessary condition and opportunity for mutual cross-cultural dialogue and learning.

In part 1, "Relationality and Difference," Dallmayr explores the emergence of diverse loyalties and attachments in different social and cultural contexts. The assumption is not that different commitments are necessarily synchronized or "naturally" compatible but rather that they are held together precisely by their difference and potential antagonism. Part 2, "Engagement through Dialogue and Interaction," dwells on the major means of mediating between the alternatives of radical separation and radical sameness: dialogue and hermeneutical interpretation of understanding. In this respect, the emphasis shifts to leading philosophers of dialogue such as Hans-Georg Gadamer, Bernhard Waldenfels, and Maurice Merleau-Ponty.

In a world where the absolutizing of the ego encourages selfish egotism that can lead to aggressive warmongering, *Horizons of Difference* shows how the categories of "difference" and "relationality" can be used to build a genuine and peaceful democracy based on dialogue and interaction instead of radical autonomy and elitism.

### Contributor Bio

Fred Dallmayr is Packey J. Dee Professor Emeritus in philosophy and political science at the University of Notre Dame. He is the author and editor of over fifty books, including *Spiritual Guides: Pathfinders in the Desert* (University of Notre Dame Press, 2017).

## The Heart of Reality

### Essays on Beauty, Love, and Ethics

Vladimir Sergeyevich Soloviev, Vladimir Wozniuk

#### Summary

Vladimir S. Soloviev (1853–1900), moral philosopher, social and literary critic, theologian, and poet, is considered one of Russia's greatest philosophers. But Soloviev is relatively unknown in the West, despite his close association with Fyodor Dostoevsky, who modeled one of his most famous literary characters, Alyosha Karamazov, on Soloviev. In *The Heart of Reality*, Vladimir Wozniuk offers lucid translations, a substantive introduction, and careful annotations that make many of Soloviev's writings accessible for the first time to an English-speaking audience. Soloviev worked tirelessly in the name of the mystical body of the Universal Church. The vast bulk of his writings can be construed as promoting, in one way or another, the cause of ecumenism. His essays also display the influence of Platonic and German Idealism and strands of Thomistic thinking. Wozniuk demonstrates the consistency of Soloviev's biblically based thought on the subjects of aesthetics, love, and ethics, while at the same time clarifying Soloviev's concept of *vseedinstvo* (the unity of spiritual and material), especially as applied to literature. Containing many previously untranslated essays, *The Heart of Reality* situates Soloviev more clearly in the mainstream of Western religious philosophy and Christian thought.

#### Contributor Bio

## Spiritual Exercises for a Secular Age

### Desmond and the Quest for God

Ryan G. Duns SJ

#### Summary

In *A Secular Age*, Charles Taylor, faced with contemporary challenges to belief, issues a call for "new and unprecedented itineraries" that might be capable of leading seekers to encounter God. In *Spiritual Exercises for a Secular Age*, Ryan G. Duns demonstrates that William Desmond's philosophy has the resources to offer a compelling response to Taylor. To show how, Duns makes use of the work of Pierre Hadot. In Hadot's view, the point of philosophy is "not to inform but to form"—that is, not to provide abstract answers to abstruse questions but rather to form the human being such that she can approach reality as such in a new way. Drawing on Hadot, Duns frames Desmond's metaphysical thought as a form of spiritual exercise. So framed, Duns argues, Desmond's metaphysics attunes its readers to perceive disclosure of the divine in the everyday. Approached in this way, studying Desmond's metaphysics can transform how readers behold reality itself by attuning them to discern the presence of God, who can be sought, and disclosed through, all things in the world.

*Spiritual Exercises for a Secular Age* offers a readable and engaging introduction to the thought of Charles Taylor and William Desmond, and demonstrates how practicing metaphysics can be understood as a form of spiritual exercise that renews in its practitioners an attentiveness to God in all things. As a unique contribution at the crossroads of theology and philosophy, it will appeal to readers in continental philosophy, theology, and religious studies broadly.

#### Contributor Bio

## Sites of the Ascetic Self

### John Cassian and Christian Ethical Formation

Niki Kasumi Clements

#### Summary

*Sites of the Ascetic Self* reconsiders contemporary debates about ethics and subjectivity in an extended engagement with the works of John Cassian (ca. 360–ca. 435), whose stories of extreme asceticism and transformative religious experience by desert elders helped to establish Christian monastic forms of life. Cassian's late ancient texts, written in the context of social, cultural, political, doctrinal, and environmental change, contribute to an ethics for fractured selves in uncertain times. In response to this environment, Cassian's practical asceticism provides a uniquely frank picture of human struggle in a world of contingency while also affirming human agency in ways that signaled a challenge to followers of his contemporary, Augustine of Hippo.

Hardcover

294 Pages  
Religion / Ethics

Niki Kasumi Clements brings these historical and textual analyses of Cassian's monastic works into conversation with contemporary debates at the intersection of the philosophy of religion and queer and feminist theories. Rather than focusing on interiority and renunciation of self, as scholars such as Michel Foucault read Cassian, Clements analyzes Cassian's texts by foregrounding practices of the body, the emotions, and the community. By focusing on lived experience in the practical ethics of Cassian, Clements demonstrates the importance of analyzing constructions of ethics in terms of cultivation alongside critical constructions of power. By challenging modern assumptions about Cassian's asceticism, *Sites of the Ascetic Self* contributes to questions of ethics, subjectivity, and agency in the study of religion today.

## Emergence

### Towards A New Metaphysics and Philosophy of Science

Mariusz Tabaczek

#### Summary

Over the last several decades, the theories of emergence and downward causation have become arguably the most popular conceptual tools in scientific and philosophical attempts to explain the nature and character of global organization observed in various biological phenomena, from individual cell organization to ecological systems. The theory of emergence acknowledges the reality of layered strata or levels of systems, which are consequences of the appearance of an interacting range of novel qualities.

A closer analysis of emergentism, however, reveals a number of philosophical problems facing this theory. In *Emergence*, Mariusz Tabaczek offers a thorough analysis of these problems and a constructive proposal of a new metaphysical foundation for both the classic downward causation-based and the new dynamical depth accounts of emergence theory, developed by Terrence Deacon. Tabaczek suggests ways in which both theoretical models of emergentism can be grounded in the classical and the new (dispositionalist) versions of Aristotelianism. This book will have an eager audience in metaphysicians working both in the analytic and the Thomistic traditions, as well as philosophers of science and biology interested in emergence theory and causation.

## Divine Action and Emergence

### An Alternative to Panentheism

Mariusz Tabaczek

#### Summary

***Divine Action and Emergence* puts the classical Aristotelian-Thomistic tradition in conversation with current philosophy and theology.**

As a middle path between classical theism and pantheism, the panentheistic turn in the twentieth century has been described as a “quiet revolution.” Today, in fact, many theologians hold that the world is “in” God (who, at the same time, is more than the world). Panentheism has been especially influential in the dialogue between theology and the natural sciences. Many have seen panentheism as compatible with emergentism, and thus have brought the two together in developing models of divine action that do not abrogate the regularities of processes of the natural world. In *Divine Action and Emergence*, Mariusz Tabaczek argues that, as inspiring and intriguing as emergentist panentheism is, it requires deeper examination. He begins by looking at the wonder of emergence (which calls into question the overly reductionist attitude in natural science) and by reflecting philosophically on emergence theory in light of classical and new Aristotelianism. Moving in a theological direction, Tabaczek then offers a critical evaluation of emergentist panentheism and a constructive proposal for how to reinterpret the idea of divine action as inspired by the theory of emergence with reference to the classical Aristotelian-Thomistic understanding of God’s action in the universe.

Through a unique interdisciplinary approach that puts theology and the natural sciences into a dialogue through philosophy, *Divine Action and Emergence* offers a comprehensive evaluation of panentheism. It then puts forward an original reinterpretation of emergence theory, thus setting forth a constructive proposal for reinterpreting the concept of divine action that is currently espoused by emergence theory.

## René Girard, Unlikely Apologist

### Mimetic Theory and Fundamental Theology

Grant Kaplan

#### Summary

Since the late 1970s, theologians have been attempting to integrate mimetic theory into different fields of theology, yet a distrust of mimetic theory persists in some theological camps. In *René Girard, Unlikely Apologist: Mimetic Theory and Fundamental Theology*, Grant Kaplan brings mimetic theory into conversation with theology both to elucidate the relevance of mimetic theory for the discipline of fundamental theology and to understand the work of René Girard within a theological framework. Rather than focus on Christology or atonement theory as the locus of interaction between Girard and theology, Kaplan centers his discussion on the apologetic quality of mimetic theory and the impact of mimetic theory on fundamental theology, the subdiscipline that grew to replace apologetics. His book explores the relation between Girard and fundamental theology in several keys. In one, it understands mimetic theory as a heuristic device that allows theological narratives and positions to become more intelligible and, by so doing, makes theology more persuasive. In another key, Kaplan shows how mimetic theory, when placed in dialogue with particular theologians, can advance theological discussion in areas where mimetic theory has seldom been invoked. On this level the book performs a dialogue with theology that both revisits earlier theological efforts and also demonstrates how mimetic theory brings valuable dimensions to questions of fundamental theology.

## The Way of Medicine

### Ethics and the Healing Profession

Farr Curlin, Christopher Tollefsen

#### Summary

**Today's medicine is spiritually deflated and morally adrift; this book explains why and offers an ethical framework to renew and guide practitioners in fulfilling their profession to heal.**

What is medicine and what is it for? What does it mean to be a good doctor? Answers to these questions are essential both to the practice of medicine and to understanding the moral norms that shape that practice. *The Way of Medicine* articulates and defends an account of medicine and medical ethics meant to challenge the reigning provider of services model, in which clinicians eschew any claim to know what is good for a patient and instead offer an array of "health care services" for the sake of the patient's subjective well-being. Against this trend, Farr Curlin and Christopher Tollefsen call for practitioners to recover what they call the Way of Medicine, which offers physicians both a path out of the provider of services model and also the moral resources necessary to resist the various political, institutional, and cultural forces that constantly push practitioners and patients into thinking of their relationship in terms of economic exchange.

Curlin and Tollefsen offer an accessible account of the ancient ethical tradition from which contemporary medicine and bioethics has departed. Their investigation, drawing on the scholarship of Leon Kass, Alasdair MacIntyre, and John Finnis, leads them to explore the nature of medicine as a practice, health as the end of medicine, the doctor-patient relationship, the rule of double effect in medical practice, and a number of clinical ethical issues from the beginning of life to its end.

## The Evening of Life

### The Challenges of Aging and Dying Well

Joseph E. Davis, Paul Scherz

#### Summary

Although philosophy, religion, and civic cultures used to help people prepare for aging and dying well, this is no longer the case. Today, aging is frequently seen as a problem to be solved and death as a harsh reality to be masked. In part, our cultural confusion is rooted in an inadequate conception of the human person, which is based on a notion of absolute individual autonomy that cannot but fail in the face of the dependency that comes with aging and decline at the end of life. To help correct the ethical impoverishment at the root of our contemporary social confusion, *The Evening of Life* provides an interdisciplinary examination of the challenges of aging and dying well. It calls for a re-envisioning of cultural concepts, practices, and virtues that embraces decline, dependency, and finitude rather than stigmatizes them. Bringing together the work of sociologists, anthropologists, philosophers, theologians, and medical practitioners, this collection of essays develops an interrelated set of conceptual tools to discuss the current challenges posed to aging and dying well, such as flourishing, temporality, narrative, and friendship. Above all, it proposes a positive understanding of thriving in old age that is rooted in our shared vulnerability as human beings. It also suggests how some of these tools and concepts can be deployed to create a medical system that better responds to our contemporary needs. *The Evening of Life* will interest bioethicists, medical practitioners, clinicians, and others involved in the care of the aging and dying.

## Death

### A Reader

Mary Ann G. Cutter

### Summary

Despite the fact that we all die, humans do not share the same view of death. In *Death: A Reader*, Mary Ann G. Cutter explores prominent themes that emerge and reemerge in the history of ideas regarding the nature of death from prominent global perspectives that span ancient to contemporary discussions. Thirteen themes are presented in order to convey a sense of major views of death that are found in the philosophical and sacred literature of Asia, the Near and Middle East, and the West. Each chapter contains the context of the theme, primary source selections, reflections, and suggestions for further reading.

Four features of this volume distinguish it from other philosophical texts on death. First, Cutter provides a culturally diverse selection of primary source readings on the nature of death. Second, along with the more traditional discussions of death, she provides discussion on emerging topics in death studies—namely, medical immortality and digital immortality. Third, she presents some of the key ethical issues regarding death, notably suicide, treatment refusal, and physician-assisted suicide, through the lens of the nature of death. Finally, she offers engaging practical exercises that challenge readers to think through their own personal and legal wishes regarding death and dying.

### Contributor Bio

## Disputes in Bioethics

### Abortion, Euthanasia, and Other Controversies

Christopher Kaczor

### Summary

*Disputes in Bioethics* tackles some of the most debated questions in contemporary scholarship about the beginning and end of life. This collection of essays takes up questions about the dawn of human life, including: Should we make children with three (or more) parents? Is it better never to have been born? and Why should the baby live? This volume also asks about the dusk of human life: Is "death with dignity" a dangerous euphemism? Should euthanasia be permitted for children? Does assisted suicide harm those who do not choose to die? Still other questions are asked concerning recent views that health care professionals should not have a right to conscientiously object to legal and accepted medical practices. Finally, the book addresses questions about separating conjoined twins as well as the issue of whether the species of an individual makes a difference for the individual's moral status.

Christopher Kaczor critiques some of the most recent and influential positions in bioethics, while eschewing both consequentialism and principlism. Rooted in the Catholic principle that faith and reason are harmonious, this book shows how Catholic bioethical teaching is rationally defensible in terms that people of good will, secular or religious, can accept. Proceeding from a natural law perspective, Kaczor defends the inherent dignity of all human beings and argues that they merit the protection of their basic human goods because of that inherent dignity. Philosophers interested in applied ethics, as well as students and professors of law, will profit from reading *Disputes in Bioethics*. The book aims to be both philosophically sophisticated and accessible for students and experienced researchers alike.

## The Nature of Human Persons

### Metaphysics and Bioethics

Jason T. Eberl

#### Summary

Is there a shared nature common to all human beings? What essential qualities might define this nature? These questions are among the most widely discussed topics in the history of philosophy and remain subjects of perennial interest and controversy. *The Nature of Human Persons* offers a metaphysical investigation of the composition of the human essence. For a human being to exist, does it require an immaterial mind, a physical body, a functioning brain, a soul? Jason Eberl also considers the criterion of identity for a developing human being—that is, what is required for a human being to continue existing as a person despite undergoing physical and psychological changes over time? Eberl's investigation presents and defends a theoretical perspective from the thirteenth-century philosopher and theologian Thomas Aquinas. Advancing beyond descriptive historical analysis, this book places Aquinas's account of human nature into direct comparison with several prominent contemporary theories: substance dualism, emergentism, animalism, constitutionalism, four-dimensionalism, and embodied mind theory. These theories inform various conclusions regarding when human beings first come into existence—at conception, during gestation, or after birth—and how we ought to define death for human beings. Finally, each of these viewpoints offers a distinctive rationale as to whether, and if so how, human beings may survive death. Ultimately, Eberl argues that the Thomistic account of human nature addresses the matters of human nature and survival in a much more holistic and desirable way than the other theories and offers a cohesive portrait of one's continued existence from conception through life to death and beyond.

## Untangling Twinning

### What Science Tells Us about the Nature of Human Embryos

Maureen L. Condic

#### Summary

Scientists and philosophers have long struggled to answer the questions of when human life begins and when human life has inherent value. The phenomenon of identical (monozygotic) twinning presents a significant challenge to the view that human life and human personhood begin at conception. The fact that a single embryo can split to generate two (or more) genetically identical embryos seems to defy the notion that prior to splitting an embryo can be a single human individual. In *Untangling Twinning*, Maureen Condic looks at the questions raised by human twinning based on a unique synthesis of molecular developmental biology and Aristotelian philosophy. She begins with a brief historical analysis of the current scientific perspective on the embryo and proceeds to address the major philosophic and scientific concerns regarding human twinning and embryo fusion: Is the embryo one human or two (or even more)? Does the original embryo die, and if not, which of the twins is the original? Who are the parents of the twins? What do twins, chimeras, cloning, and asexual reproduction in humans mean? And what does the science of human embryology say about human ensoulment, human individuality, and human value? Condic's original approach makes a unique contribution to the discussion of human value and human individuality, and offers a clear, evidence-based resolution to questions raised by human twinning. The book is written for students and scholars of bioethics, scientists, theologians, and attorneys who are involved in questions surrounding the human embryo.

## Value and Vulnerability

### An Interfaith Dialogue on Human Dignity

Matthew R. Petrusek, Jonathan Rothchild

#### Summary

*Value and Vulnerability* brings together scholars of many religions—including Catholicism, Buddhism, Judaism, Hinduism, Eastern Orthodoxy, Protestantism, Islam, and Humanism—to identify and examine conceptions and interpretations of dignity within different religious and philosophical perspectives and their applications to contemporary issues of conflict, such as gendered, religious, and racial violence, immigration, ecology, and religious peacemaking. *Value and Vulnerability* also includes response chapters that clarify and refine these interpretations from interfaith perspectives. Through this volume, Matthew R. Petrusek and Jonathan Rothchild offer recommendations for advancing the conversation about dignity within and among traditions and for addressing urgent global issues and threats to dignity. Together, Petrusek, Rothchild, and the contributors create a comparative framework constituted by seven questions: What sources justify dignity's existence, nature, and purpose? What is the relationship between the divine and human dignity? What is the relationship between dignity and the human body? Is dignity vulnerable or invulnerable to moral harm? Is dignity inherent or attained? Is dignity universal and equal? Is dignity practical? Through its systematic, comparative, interdisciplinary, and practical dimensions, *Value and Vulnerability* fills in the gaps in contemporary theological, philosophical, and ethical discourses on dignity.

## Medicine and Shariah

### A Dialogue in Islamic Bioethics

Aasim I. Padela

#### Summary

***Medicine and Shariah* brings together experts from various fields, including clinicians, Islamic studies experts, and Muslim theologians, to analyze the interaction of the doctors and jurists who are forging the field of Islamic bioethics.**

Although much ink has been spilled in generating Islamic responses to bioethical questions and in analyzing fatwas, Islamic bioethics still remains an emerging field. How are Islamic bioethical norms to be generated? Are Islamic bioethical writings to be considered as part of the broader academic discourse in bioethics? What even is the scope of Islamic bioethics? Taking up these and related questions, the essays in *Medicine and Shariah* provide the groundwork for a more robust field. The volume begins by furnishing concepts and terms needed to map out the discourse. It concludes by offering a multidisciplinary model for ethical deliberation that accounts for the various disciplines needed to derive Islamic moral norms and to understand biomedical contexts. In between these bookends, contributors apply various analytic, empirical, and normative lenses to examine the interaction between biomedical knowledge (represented by physicians) and Islamic law (represented by jurists) in Islamic bioethical deliberation.

By providing a multidisciplinary model for generating Islamic bioethics rulings, *Medicine and Shariah* provides the critical foundations for an Islamic bioethics that better attends to specific biomedical contexts and also accurately reflects the moral vision of Islam.

## Fictions, Lies, and the Authority of Law

Steven D. Smith

### Summary

***Fictions, Lies, and the Authority of Law* discusses legal, political, and cultural difficulties that arise from the crisis of authority in the modern world.**

Is there any connection linking some of the maladies of modern life—"cancel culture," the climate of mendacity in public and academic life, fierce conflicts over the Constitution, disputes over presidential authority? *Fictions, Lies, and the Authority of Law* argues that these diverse problems are all a consequence of what Hannah Arendt described as the disappearance of authority in the modern world. In this perceptive study, Steven D. Smith offers a diagnosis explaining how authority today is based in pervasive fictions and how this situation can amount to, as Arendt put it, "the loss of the groundwork of the world."

*Fictions, Lies, and the Authority of Law* considers a variety of problems posed by the paradoxical ubiquity and absence of authority in the modern world. Some of these problems are jurisprudential or philosophical in character; others are more practical and lawyerly—problems of presidential powers and statutory and constitutional interpretation; still others might be called existential. Smith's use of fictions as his purchase for thinking about authority has the potential to bring together the descriptive and the normative and to think about authority as a useful hypothesis that helps us to make sense of the empirical world. This strikingly original book shows that theoretical issues of authority have important practical implications for the kinds of everyday issues confronted by judges, lawyers, and other members of society. The book is aimed at scholars and students of law, political science, and philosophy, but many of the topics it addresses will be of interest to politically engaged citizens.

## The Rights of Women

### Reclaiming a Lost Vision

Erika Bachiochi

### Summary

***Erika Bachiochi offers an original look at the development of feminism in the United States, advancing a vision of rights that rests upon our responsibilities to others.***

In *The Rights of Women*, Erika Bachiochi explores the development of feminist thought in the United States. Inspired by the writings of Mary Wollstonecraft, Bachiochi presents the intellectual history of a lost vision of women's rights, seamlessly weaving philosophical insight, biographical portraits, and constitutional law to showcase the once predominant view that our rights properly rest upon our concrete responsibilities to God, self, family, and community.

Bachiochi proposes a philosophical and legal framework for rights that builds on the communitarian tradition of feminist thought as seen in the work of Elizabeth Fox-Genovese and Jean Bethke Elshtain. Drawing on the insight of prominent figures such as Sarah Grimké, Frances Willard, Florence Kelley, Betty Friedan, Pauli Murray, Ruth Bader Ginsburg, and Mary Ann Glendon, this book is unique in its treatment of the moral roots of women's rights in America and its critique of the movement's current trajectory. *The Rights of Women* provides a synthesis of ancient wisdom and modern political insight that locates the family's vital work at the very center of personal and political self-government. Bachiochi demonstrates that when rights are properly understood as a civil and political apparatus born of the natural duties we owe to one another, they make more visible our personal responsibilities and more viable our common life together.

## Memoirs on Pauperism and Other Writings

**Poverty, Public Welfare, and Inequality**

Alexis de Tocqueville, Christine Dunn Henderson

### Summary

**The collection includes new translations of Tocqueville's works, including the first English translation of his *Second Memoir*, the original *Memoir*, a letter fragment considering pauperism in Normandy, and the "Pauperism in America" index to the *Penitentiary Report*.**

Alexis de Tocqueville was one of the most important thinkers of the nineteenth century, and his thought continues to influence contemporary political and social discourse. In *Memoirs on Pauperism and Other Writings*, Christine Dunn Henderson brings all of Tocqueville's writings on poverty together for the first time: a new translation of his original *Memoir* and the first English translation of his unfinished *Second Memoir*, as well as his letter considering pauperism in Normandy and the "Pauperism in America" appendix to his *Penitentiary Report*. By uniting these texts in a single volume, Henderson makes possible a deeper exploration of Tocqueville's thought as it pertains to questions of inequality and public assistance. As Henderson shows in her introduction to this collection, Tocqueville provides no easy blueprint for fixing these problems, which remain pressing today. Still, Tocqueville's writings speak eloquently about these issues, and his own unsuccessful struggle to find solutions remains both a spur to creative thinking today and a caution against attempting to find simplistic remedies.

*Memoirs on Pauperism and Other Writings* allows us to study his sustained thought on pauperism, poverty assistance, governmental assistance programs, and social inequality in a new and deeper way.

### Contributor Bio

Alexis de Tocqueville (1805–1859) was a French political scientist and historian. He is best known for his works *Democracy in America* and *The Old Regime and the Revolution*.

## Capitalism and Democracy

**Prosperity, Justice, and the Good Society**

Thomas A. Spragens, Jr.

### Summary

**This book serves as an introduction to the ongoing political debate about the relationship of capitalism and democracy.**

In recent years, the ideological battles between advocates of free markets and minimal government, on the one hand, and adherents of greater democratic equality and some form of the welfare state, on the other hand, have returned in full force. Anyone who wants to make sense of contemporary American politics and policy battles needs to have some understanding of the divergent beliefs and goals that animate this debate. In *Capitalism and Democracy*, Thomas A. Spragens, Jr., examines the opposing sides of the free market versus welfare state debate through the lenses of political economy, moral philosophy, and political theory. He asks: Do unchecked markets maximize prosperity, or do they at times produce wasteful and damaging outcomes? Are market distributions morally appropriate, or does fairness require some form of redistribution? Would a society of free markets and minimal government be the best kind of society possible, or would it have serious problems? After leading the reader through a series of thought experiments designed to compare and clarify the thought processes and beliefs held by supporters of each side, Spragens explains why there are no definitive answers to these questions. He concludes, however, that some answers are better than others, and he explains why his own judgement is that a vigorous free marketplace provides great benefits to a democratic society, both economically and politically, but that it also requires regulation and supplementation by collective action for a society to maximize prosperity, to mitigate some of the unfairness of the human condition, and to be faithful to important democratic purposes and ideals. This engaging and accessible book will interest students and scholars of political economy, democratic theory, and theories of social justice. It will also appeal to general readers who are seeking greater clarity and understanding of contemporary debates about government's role in the economy.

## Reason and Politics

### The Nature of Political Phenomena

Mark Blitz

#### Summary

***Reason and Politics* explores the central phenomena of political life and, therefore, of human affairs in general.**

Amidst the seemingly endless books on more and more narrowly specialized topics within politics, Mark Blitz offers something very different. *Reason and Politics: The Nature of Political Phenomena* examines the central phenomena of political life in order to clarify their meaning, source, and range. Blitz gives particular attention to the notions of freedom, rights, justice, virtue, power, property, nationalism, and the common good. At the same time, Blitz shows how, in order to understand political matters correctly, we must also understand how they affect us directly. We do not merely theorize over political questions; we experience them. Blitz also considers matters such as the powers and motions of the soul, the nature of experience, and the varieties of pleasure and attachment.

Living at a time when technological change makes it difficult even to claim convincingly that there are defining human characteristics and natural limits that we simply cannot change, *Reason and Politics* proposes that there are in fact basic phenomena not only in politics, but that make up human affairs as such. In examining these central phenomena in a lucid and articulate manner, this book makes a unique contribution not only to the study of politics but also to the study of philosophy more broadly. It will interest undergraduate and graduate students, political scientists and philosophers, those interested in politics, and general readers.

#### Contributor Bio

## Freedom from Reality

### The Diabolical Character of Modern Liberty

D. C. Schindler

#### Summary

It is commonly observed that behind many of the political and cultural issues that we face today there are impoverished conceptions of freedom, which, according to D. C. Schindler, we have inherited from the classical liberal tradition without a sufficient awareness of its implications. *Freedom from Reality* presents a critique of the deceptive and ultimately self-subverting character of the modern notion of freedom, retrieving an alternative view through a new interpretation of the ancient tradition. While many have critiqued the inadequacy of identifying freedom with arbitrary choice, this book seeks to penetrate to the metaphysical roots of the modern conception by going back, through an etymological study, to the original sense of freedom.

Schindler begins by uncovering a contradiction in John Locke's seminal account of human freedom. Rather than dismissing it as a mere "academic" problem, Schindler takes this contradiction as a key to understanding the strange paradoxes that abound in the contemporary values and institutions founded on the modern notion of liberty: the very mechanisms that intend to protect modern freedom render it empty and ineffectual. In this respect, modern liberty is "diabolical"—a word that means, at its roots, that which "drives apart" and so subverts. This is contrasted with the "symbolical" (a "joining-together"), which, he suggests, most basically characterizes the premodern sense of reality. This book will appeal to students and scholars of political philosophy (especially political theorists), philosophers in the continental or historical traditions, and cultural critics with a philosophical bent.

## What Happened to Civility

### The Promise and Failure of Montaigne's Modern Project

Ann Hartle

#### Summary

**What is civility, and why has it disappeared? Ann Hartle analyzes the origins of the modern project and the *Essays* of Michel de Montaigne to discuss why civility is failing in our own time.**

In this bold book, Ann Hartle, one of the most important interpreters of sixteenth-century French philosopher Michel de Montaigne, explores the modern notion of civility—the social bond that makes it possible for individuals to live in peace in the political and social structures of the Western world—and asks, why has it disappeared? Concerned with the deepening cultural divisions in our postmodern, post-Christian world, she traces their roots back to the Reformation and Montaigne's *Essays*. Montaigne's philosophical project of drawing on ancient philosophy and Christianity to create a new social bond to reform the mores of his culture is perhaps the first act of self-conscious civility. After tracing Montaigne's thought, Hartle returns to our modern society and argues that this framing of civility is a human, philosophical invention and that civility fails precisely because it is a human, philosophical invention. She concludes with a defense of the central importance of sacred tradition for civility and the need to protect and maintain that social bond by supporting nonpoliticized, nonideological, free institutions, including and especially universities and churches. *What Happened to Civility* is written for readers concerned about the deterioration of civility in our public life and the defense of freedom of religion. The book will also interest philosophers who seek a deeper understanding of modernity and its meaning, political scientists interested in the meaning of liberalism and the causes of its failure, and scholars working on Montaigne's *Essays*.

## Montaigne

### Life without Law

Pierre Manent

#### Summary

In *Montaigne: Life without Law*, originally published in French in 2014 and now translated for the first time into English by Paul Seaton, Pierre Manent provides a careful reading of Montaigne's three-volume work *Essays*. Although Montaigne's writings resist easy analysis, Manent finds in them a subtle unity, and demonstrates the philosophical depth of Montaigne's reflections and the distinctive, even radical, character of his central ideas. To show Montaigne's unique contribution to modern philosophy, Manent compares his work to other modern thinkers, including Machiavelli, Hobbes, Pascal, and Rousseau. What does human life look like without the imposing presence of the state? asks Manent. In raising this question about Montaigne's *Essays*, Manent poses a question of great relevance to our contemporary situation. He argues that Montaigne's philosophical reflections focused on what he famously called *la condition humaine*, the human condition. Manent tracks Montaigne's development of this fundamental concept, focusing especially on his reworking of pagan and Christian understandings of virtue and pleasure, disputation and death. Bringing new form and content together, a new form of thinking and living is presented by Montaigne's *Essays*, a new model of a thoughtful life from one of the unsung founders of modernity.

Throughout, Manent suggests alternatives and criticisms, some by way of contrasts with other thinkers, some in his own name. This is philosophical engagement at a very high level. In showing the unity of Montaigne's work, Manent's study will appeal especially to students and scholars of political theory, the history of modern philosophy, modern literature, and the origins of modernity.

## Natural Law and Human Rights

### Toward a Recovery of Practical Reason

Pierre Manent

#### Summary

This first English translation of Pierre Manent's profound and strikingly original book *La loi naturelle et les droits de l'homme* is a reflection on the central question of the Western political tradition. In six chapters, developed from the prestigious Étienne Gilson lectures at the Institut Catholique de Paris, and in a related appendix, Manent contemplates the steady displacement of the natural law by the modern conception of human rights. He aims to restore the grammar of moral and political action, and thus the possibility of an authentically political order that is fully compatible with liberty. Manent boldly confronts the prejudices and dogmas of those who have repudiated the classical and Christian notion of "liberty under law" and in the process shows how groundless many contemporary appeals to human rights turn out to be. Manent denies that we can generate obligations from a condition of what Locke, Hobbes, and Rousseau call the "state of nature," where human beings are absolutely free, with no obligations to others. In his view, our ever-more-imperial affirmation of human rights needs to be reintegrated into what he calls an "archic" understanding of human and political existence, where law and obligation are inherent in liberty and meaningful human action. Otherwise we are bound to act thoughtlessly and in an increasingly arbitrary or willful manner. *Natural Law and Human Rights* will engage students and scholars of politics, philosophy, and religion, and will captivate sophisticated readers who are interested in the question of how we might reconfigure our knowledge of, and talk with one another about, politics.

## Globalization and Liberalism

### Montesquieu, Tocqueville, and Manent

Trevor Shelley

#### Summary

In this learned and wide-ranging book, Trevor Shelley engages the controversial topic of globalization through philosophical exegesis of great texts. *Globalization and Liberalism* illustrates and defends the idea that at the heart of the human world is the antinomy of the universal and the particular. Various thinkers have emphasized one aspect of this tension over the other. Some, such as Rousseau and Schmitt, have defended pure particularity. Others, such as Habermas, have uncritically welcomed the intimations of the world state. Against these twin extremes of radical nationalism and antipolitical universalism, this book seeks to recover a middle or moderate position—the liberal position. To find this via media, Shelley traces a tradition of French liberal political thinkers who take account of both sides of the antinomy: Montesquieu, Tocqueville, and Manent. As Shelley argues, each of these thinkers defends the integrity of political bodies, denies that the universal perspective is the only legitimate perspective, and recognizes that, without differences and distinctions across the political landscape, self-government and freedom of action are impossible.

As human beings, we can live free and fulfilling lives neither as isolated individuals nor as members of humanity. Rather, we require a properly constituted particular political community in which we can make manifest our universal humanity. In the liberalism of these three thinkers, we find the resources to think through what such a political community might look like. *Globalism and Liberalism* demonstrates the importance of these writers for addressing today's challenges and will interest political theorists, historians of political thought, and specialists of French political thought.

## Thomas Hobbes and the Natural Law

Kody W. Cooper

### Summary

Has Hobbesian moral and political theory been fundamentally misinterpreted by most of his readers? Since the criticism of John Bramhall, Hobbes has generally been regarded as advancing a moral and political theory that is antithetical to classical natural law theory. Kody W. Cooper challenges this traditional interpretation of Hobbes in *Thomas Hobbes and the Natural Law*. Hobbes affirms two essential theses of classical natural law theory: the capacity of practical reason to grasp intelligible goods or reasons for action and the legally binding character of the practical requirements essential to the pursuit of human flourishing. Hobbes's novel contribution lies principally in his formulation of a thin theory of the good. This book seeks to prove that Hobbes has more in common with the Aristotelian-Thomistic tradition of natural law philosophy than has been recognized. According to Cooper, Hobbes affirms a realistic philosophy as well as biblical revelation as the ground of his philosophical-theological anthropology and his moral and civil science. In addition, Cooper contends that Hobbes's thought, although transformative in important ways, also has important structural continuities with the Aristotelian-Thomistic tradition of practical reason, theology, social ontology, and law. What emerges from this study is a nuanced assessment of Hobbes's place in the natural law tradition as a formulator of natural law liberalism. This book will appeal to political theorists and philosophers and be of particular interest to Hobbes scholars and natural law theorists.

## Curing Mad Truths

Medieval Wisdom for the Modern Age

Rémi Brague

### Summary

In his first book composed in English, Rémi Brague maintains that there is a fundamental problem with modernity: we no longer consider the created world and humanity as intrinsically valuable. *Curing Mad Truths*, based on a number of Brague's lectures to English-speaking audiences, explores the idea that humanity must return to the Middle Ages. Not the Middle Ages of purported backwardness and barbarism, but rather a Middle Ages that understood creation—including human beings—as the product of an intelligent and benevolent God. The positive developments that have come about due to the modern project, be they health, knowledge, freedom, or peace, are not grounded in a rational project because human existence itself is no longer the good that it once was. Brague turns to our intellectual forebears of the medieval world to present a reasoned argument as to why humanity and civilizations are goods worth promoting and preserving.

*Curing Mad Truths* will be of interest to a learned audience of philosophers, historians, and medievalists.

## The Kingdom of Man

### Genesis and Failure of the Modern Project

Rémi Brague

#### Summary

Was humanity created, or do humans create themselves? In this eagerly awaited English translation of *Le Règne de l'homme*, the last volume of Rémi Brague's trilogy on the philosophical development of anthropology in the West, Brague argues that, with the dawn of the Enlightenment, Western societies rejected the transcendence of the past and looked instead to the progress fostered by the early modern present and the future. As scientific advances drained the cosmos of literal mystery, humanity increasingly devalued the theophosophical mystery of being in favor of omniscience over one's own existence. Brague narrates the intellectual disappearance of the natural order, replaced by a universal chaos upon which only humanity can impose order; he cites the vivid histories of the nation-state, economic evolution into capitalism, and technology as the tools of this new dominion, taken up voluntarily by humans for their own ends rather than accepted from the deity for a divine purpose.

Brague's tour de force begins with the ancient and medieval confidence in humanity as the superior creation of Nature or of God, epitomized in the biblical wish of the Creator for humans to exert stewardship over the earth. He sees the Enlightenment as a transition period, taking as a given that humankind should be masters of the world but rejecting the imposition of that duty by a deity. Before the Enlightenment, who the creator was and whom the creator dominated were clear. With the advance of modernity and banishment of the Creator, who was to be dominated? Today, Brague argues, "our humanism . . . is an anti-antihumanism, rather than a direct affirmation of the goodness of the human." He ends with a sobering question: does humankind still have the will to survive in an era of intellectual self-destruction? *The Kingdom of Man* will appeal to all readers interested in the history of ideas, but will be especially important to political philosophers, historical anthropologists, and theologians.

## Thick and Thin

### Moral Argument at Home and Abroad

Michael Walzer

#### Summary

In *Thick and Thin: Moral Argument at Home and Abroad*, Michael Walzer revises and extends the arguments in his influential *Spheres of Justice*, framing his ideas about justice, social criticism, and national identity in light of the new political world that has arisen in the past three decades. Walzer focuses on two different but interrelated kinds of moral argument: maximalist and minimalist, thick and thin, local and universal. This new edition has a new preface and afterword, written by the author, describing how the reasoning of the book connects with arguments he made in *Just and Unjust Wars* about the morality of warfare.

Walzer's highly literate and fascinating blend of philosophy and historical analysis will appeal not only to those interested in the polemics surrounding *Spheres of Justice* and *Just and Unjust Wars* but also to intelligent readers who are more concerned with getting the arguments right.

#### Contributor Bio

Michael Walzer is Emeritus Professor of the Institute for Advanced Study at Princeton University. He is the author of *Arguing About War*, *On Toleration*, and *Just and Unjust Wars*.

## The Priority of the Person

### Political, Philosophical, and Historical Discoveries

David Walsh

#### Summary

In *The Priority of the Person*, world-class philosopher David Walsh advances the argument set forth in his highly original philosophic meditation *Politics of the Person as the Politics of Being* (2015), that “person” is the central category of modern political thought and philosophy. The present volume is divided into three main parts. It begins with the political discovery of the inexhaustibility of persons, explores the philosophic differentiation of the idea of the “person,” and finally traces the historical emergence of the concept through art, science, and faith. Walsh argues that, although the roots of the idea of “person” are found in the Greek concept of the mind and in the Christian conception of the soul, this notion is ultimately a distinctly modern achievement, because it is only the modern turn toward interiority that illuminated the unique nature of persons as each being a world unto him- or herself. As Walsh shows, it is precisely this feature of persons that makes it possible for us to know and communicate with others, for we can only give and receive one another as persons. In this way alone can we become friends and, in friendship, build community.

By showing how the person is modernity’s central preoccupation, David Walsh’s *The Priority of the Person* makes an important contribution to current discussions in both political theory and philosophy. It will also appeal to students and scholars of theology and literature, and any groups interested in the person and personalism.

#### Contributor Bio

David Walsh is professor of politics at the Catholic University of America. He is the author and editor of a number of books, including *Politics of the Person as the Politics of Being* (University of Notre Dame Press, 2015).
