The Disintegrating Conscience and the Decline of Modernity

Steven D. Smith

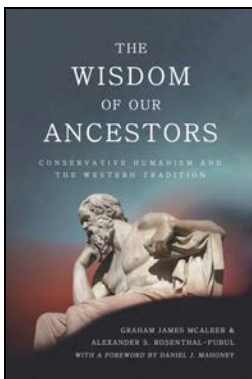

Summary

This book considers how the modern concept of “conscience” turns the historic commitment on its head, in a way that underlies the decadence of modern society.

Steven D. Smith’s books are always anticipated with great interest by scholars, jurists, and citizens who see his work on foundational questions surrounding law and religion as shaping the debate in profound ways. Now, in *The Disintegrating Conscience and the Decline of Modernity*, Smith takes as his starting point Jacques Barzun’s provocative assertion that “the modern era” is coming to an end. Smith considers the question of decline by focusing on a single theme—conscience—that has been central to much of what has happened in Western politics, law, and religion over the past half-millennium. Rather than attempting to follow that theme step-by-step through five hundred years, the book adopts an episodic and dramatic approach by focusing on three main figures and particularly portentous episodes: first, Thomas More’s execution for his conscientious refusal to take an oath mandated by Henry VIII; second, James Madison’s contribution to Virginia law in removing the proposed requirement of religious toleration in favor of freedom of conscience; and, third, William Brennan’s pledge to separate his religious faith from his performance as a Supreme Court justice. These three episodes, Smith suggests, reflect in microcosm decisive turning points at which Western civilization changed from what it had been in premodern times to what it is today. A commitment to conscience, Smith argues, has been a central and in some ways defining feature of modern Western civilization, and yet in a crucial sense conscience in the time of Brennan and today has come to mean almost the opposite of what it meant to Thomas More. By scrutinizing these men and episodes, the book seeks to illuminate subtle but transformative changes in the commitment to conscience—changes that helped to bring Thomas More’s world to an end and that may also be contributing to the disintegration of (per Barzun) “the modern era.”

The Wisdom of Our Ancestors

Conservative Humanism and the Western Tradition

Graham James McAleer, Alexander S. Rosenthal-Pubul

Summary

In *The Wisdom of Our Ancestors*, the authors mount a powerful defense of Western civilization, sketching a fresh vision of conservatism in the present age.

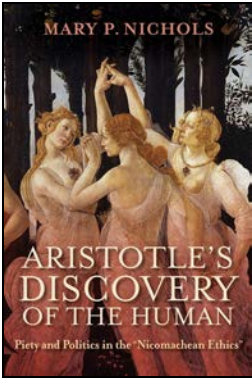

In this book, Graham McAleer and Alexander Rosenthal-Pubul offer a renewed vision of conservatism for the twenty-first century. Taking their inspiration from the late Roger Scruton, the authors begin with a simple question: What, after all, is the meaning of conservatism? In reply, they make a case for a political orientation that they call “conservative humanism,” which threads a middle way between liberal universalism and its ideological alternatives. This vision of conservatism is rooted in the humanist tradition (that is, classical humanism, Christian humanism, and secular humanism), which the authors take to be the hallmark of Western civilizational identity. At its core, conservative humanism attempts to reconcile universal moral values (rooted in natural law) with local, particularist loyalties. In articulating this position, the authors show that the West—contra various contemporary critics—does, in fact, have a great deal of wisdom to offer.

The authors begin with an overview of the conservative thought world, situating their proposal relative to two major poles: liberalism and nationalism. They move on to show that conservatism must fundamentally take the form of a defense of humanism, the “master idea of our civilization.” The ensuing chapters articulate various aspects of conservative humanism, including its metaphysical, institutional, legal, philosophical, and economic dimensions. Largely rooted in the Anglo-Continental conservative tradition, the work offers fresh perspectives for North American conservatism.

Aristotle's Discovery of the Human

Piety and Politics in the "Nicomachean Ethics"

Mary P. Nichols

Summary

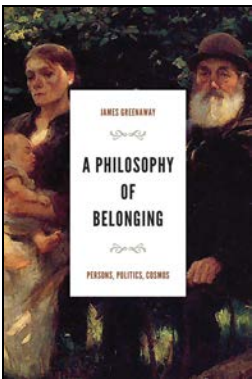

***Aristotle's Discovery of the Human* offers a fresh, illuminating, and accessible analysis of one of the Western philosophical tradition's most important texts.**

In *Aristotle's Discovery of the Human*, noted political theorist Mary P. Nichols explores the ways in which Aristotle brings the gods and the divine into his "philosophizing about human affairs" in his *Nicomachean Ethics*. Her analysis shows that, for Aristotle, both piety and politics are central to a flourishing human life. Aristotle argues that piety provides us not only an awareness of our kinship to the divine, and hence elevates human life, but also an awareness of a divinity that we cannot entirely assimilate or fathom. Piety therefore supports a politics that strives for excellence at the same time that it checks excess through a recognition of human limitation.

Proceeding through each of the ten books of the *Ethics*, Nichols shows that this prequel to Aristotle's *Politics* is as theoretical as it is practical. Its goal of improving political life and educating citizens and statesmen is inseparable from its pursuit of the truth about human beings and their relation to the divine. In the final chapter, which turns to contemporary political debate, Nichols's suggestion of the possibility of supplementing and deepening liberalism on Aristotelian grounds is supported by the account of human nature, virtue, friendship, and community developed throughout her study of the *Ethics*.

A Philosophy of Belonging

Persons, Politics, Cosmos

James Greenaway

Summary

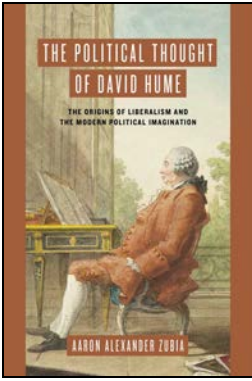

James Greenaway offers a philosophical guide to understanding, affirming, and valuing the significance of belonging across personal, political, and historical dimensions of existence.

A sense of belonging is one of the most meaningful experiences of anyone's life. Inversely, the discovery that one does not belong can be one of the most upsetting experiences. In *A Philosophy of Belonging*, Greenaway treats the notion of belonging as an intrinsically philosophical one. After all, belonging raises intense questions of personal self-understanding, identity, mortality, and longing; it confronts interpersonal, sociopolitical, and historical problems; and it probes our relationship with both the knowable world and transcendent mystery. Experiences of alienation, exclusion, and despair become conspicuous only because we are already moved by a primordial desire to belong.

Greenaway presents a hermeneutical framework that brings the intelligibility of belonging into focus and discusses the works of various representative thinkers in light of this hermeneutic. The study is divided into two main parts, "Presence" and "Communion." In the first, Greenaway considers the abiding presence of the cosmos as the context of personhood and the world, followed by the presence of persons to themselves and others by way of consciousness and embodiment, culminating in a discussion of the unrestricted horizon of meaning that love makes present in persons. In the second part, belonging in community is explored as a crucial type of communion that is both politically and historically structured. Moreover, communion has direction and a quality of sacredness that offers itself for consideration. Greenaway concludes with a discussion of the consequences of refusing presence and communion, and what is involved in the repudiation of belonging.

Contributor Bio

James Greenaway is the San José-Loneragan Chair in Catholic Philosophy at St. Mary's University. He is the author of *The Differentiation of Authority: The Medieval Turn Toward Existence*.

The Political Thought of David Hume

The Origins of Liberalism and the Modern Political Imagination

Aaron Alexander Zubia

Summary

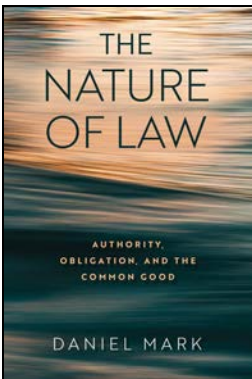

Aaron Alexander Zubia argues that the Epicurean roots of David Hume's philosophy gave rise to liberalism's unrelenting grip on the modern political imagination.

Eighteenth-century Scottish philosopher David Hume has had an outsized impact on the political thinkers who came after him, from the nineteenth-century British Utilitarians to modern American social contract theorists. In this thorough and thoughtful new work, Aaron Alexander Zubia examines the forces that shaped Hume's thinking within the broad context of intellectual history, with particular focus on the ancient Greek philosopher Epicurus and the skeptical tradition.

Zubia argues that through Hume's influence, Epicureanism—which elevates utility over moral truth—became the foundation of liberal political philosophy, which continues to dominate and limit political discourse today.

Contributor Bio

Aaron Alexander Zubia is assistant professor of humanities at the University of Florida. His work has appeared in the *Wall Street Journal*, *National Review*, *Interpretation: A Journal of Political Philosophy*, and *Law & Liberty*.

The Nature of Law

Authority, Obligation, and the Common Good

Daniel Mark

Summary

Challenging the prevailing understanding of the authority of law, Daniel Mark offers a theory of moral obligation that is rooted both in command and in the law's orientation to the common good.

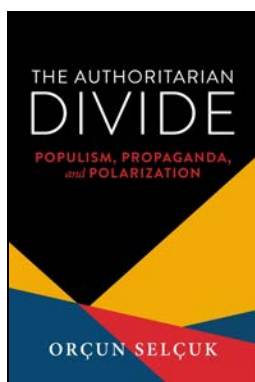

When and why do we have an obligation to obey the law? Prevailing theories in the philosophy of law, starting with the work of H. L. A. Hart and Joseph Raz, fail to provide definitive answers regarding the nature of legal obligation. In this highly original and effective new work, Daniel Mark argues that there is a *prima facie* moral obligation to obey the law simply because it is the law. In Mark's view, the best concept of law—one that allows for the possibility of justified authority and obligation—defines law as a set of commands oriented to the common good. Legal obligation, he proposes, shares defining features with moral obligation and with religious obligation while aligning wholly with neither.

This philosophically coherent view of legal obligation offers a viable framework for analyzing important and seemingly paradoxical puzzles about the law, such as why civil disobedience is punished as lawbreaking or why war-crimes trials for legal but immoral acts present a moral quandary.

By reconciling the concept of law as command with the role of law in promoting the common good, *The Nature of Law* provides an original and important scholarly contribution to the fields of legal philosophy and political thought.

Contributor Bio

Daniel Mark is an assistant professor in the Department of Political Science at Villanova University. He is formerly the chairman of the United States Commission on International Religious Freedom.

The Authoritarian Divide

Populism, Propaganda, and Polarization

Orçun Selçuk

Summary

In the context of the global decline of democracy, *The Authoritarian Divide* analyzes the tactics that populist leaders in Turkey, Venezuela, and Ecuador have used to polarize their countries.

Political polarization is traditionally viewed as the result of competing left/right ideologies. In *The Authoritarian Divide*, Orçun Selçuk argues that, regardless of ideology, polarization is driven by dominant populist leaders who deliberately divide constituents by cultivating a dichotomy of inclusion and exclusion. This practice, known as affective leader polarization, stymies compromise and undermines the democratic process.

Drawing on multiple qualitative and quantitative methodologies for support, as well as content from propaganda media such as public speeches, Muhtar Meetings, *Aló Presidente*, and *Enlace Ciudadano*, Selçuk details and analyzes the tactics used by three populist leaders to fuel affective leader polarization: Recep Tayyip Erdoğan in Turkey, Hugo Chávez in Venezuela, and Rafael Correa in Ecuador. Selçuk's work provides a rubric for a better understanding of—and potential defense against—the rise in polarizing populism across the globe.

Contributor Bio

Orçun Selçuk is an assistant professor of political science and the director of the international studies program at Luther College.

Democratic Quality in Southern Europe

France, Greece, Italy, Portugal, and Spain

Tiago Fernandes

Summary

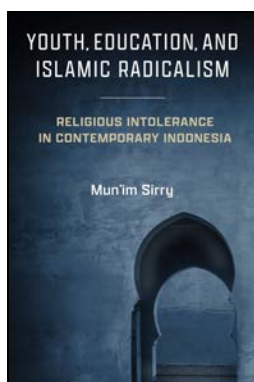

Fueled by new data from the Varieties of Democracy project, *Democratic Quality in Southern Europe* takes a close look at the democratic trajectories of France, Greece, Italy, Portugal, and Spain over the past fifty years.

Despite similar beginnings, France, Greece, Italy, Portugal, and Spain have experienced significant variations in the way their democracies have evolved. Covering ground from the protest movements of the late '60s and early '70s to the challenges that resulted from the financial crisis of the Great Recession, editor Tiago Fernandes expertly draws together a collection of essays that look beyond the impact of socioeconomic development in these five countries, exploring innovative and nuanced explanations for their diverging paths.

Democratic Quality in Southern Europe combines new data with classical methodologies to create fresh, convincing hypotheses on the development, quality, and depth of democracy in this critical region.

Contributor Bio

Tiago Fernandes is associate professor of political science at the University Institute of Lisbon. He is head of the Varieties of Democracy Regional Center for Southern Europe and was a visiting fellow at the Kellogg Institute for International Studies between 2009 and 2011. Youth, Education, and Islamic Radicalism

Religious Intolerance in Contemporary Indonesia

Mun'im Sirry

Summary

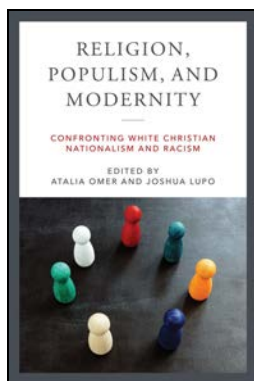

***Youth, Education, and Islamic Radicalism* offers groundbreaking analysis of religious intolerance and radicalization among high school and university students in modern-day Indonesia.**

Indonesia is one of the most diverse countries in the world in terms of religion, ethnicity, and socioeconomic status, but also in the complexity of its education system. *Youth, Education, and Islamic Radicalism* examines the roots of religious intolerance among young Indonesians and explores the various ways in which educated youth navigate radical ideologies amid growing religious conservatism.

The book presents nuanced explanations as to why one person becomes radicalized while another does not, calling into question the common assumption that religious radicalism is directly connected to terrorism. It problematizes the notion that the university is a significant hub, trigger, or birthplace of radicalization by asking: What makes education attractive for extremist recruitment? What shapes students' views? Under what circumstances do radicalization and deradicalization processes of educated youth take place? *Youth, Education, and Islamic Radicalism* identifies a constellation of factors that shape young people's views of religious diversity in Indonesia, demonstrating the ways in which they become radicalized in the first place, and how, in some cases, they deradicalize themselves.

Contributor Bio

Mun'im Sirry is an associate professor of theology at the University of Notre Dame and author of several books, including *The Qur'an with Cross-References*.

Religion, Populism, and Modernity

Confronting White Christian Nationalism and Racism

Atalia Omer, Joshua Lupo

Summary

In this timely book, an interdisciplinary group of scholars investigates the recent resurfacing of White Christian nationalism and racism in populist movements across the globe.

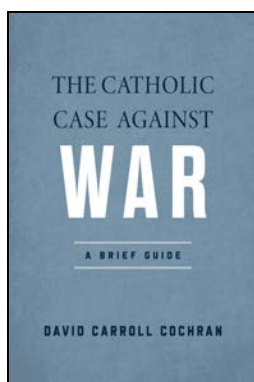

Religion, Populism, and Modernity examines the recent rise of White Christian nationalism in Europe and the United States, focusing on how right-wing populist leaders and groups have mobilized racist and xenophobic rhetoric in their bids for political power. As the contributors to this volume show, this mobilization is deeply rooted in the broader structures of western modernity and as such requires an intersectional analysis that considers race, gender, ethnicity, nationalism, and religion together. The contributors explore a number of case studies, including White nationalism in the United States among both evangelicals and Catholics, anti- and philosemitism in Poland, the Far Right party Alternative for Germany, Islamophobia in Norway and France, and the entanglement of climate change opposition in right-wing parties throughout Europe. By extending the scope of these essays beyond Trump and Brexit, the contributors remind us that these two events are not exceptions to the rule of the normal functioning of liberal democracies. Rather, they are in fact but recent examples of long-standing trends in Europe and the United States. As the editors to the volume contend, confronting these issues requires that we not only unearth their historical precedents but also imagine futures that point to new ways of being beyond them.

Contributors: Atalia Omer, Joshua Lupo, Philip Gorski, Jason A. Springs, R. Scott Appleby, Richard Amesbury, Geneviève Zubrzycki, Yolande Jansen, Jasmijn Leeuwenkamp, Sindre Bangstad, and Ebrahim Moosa.

The Catholic Case against War

A Brief Guide

David Carroll Cochran

Summary

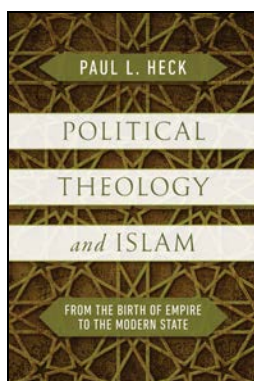

***The Catholic Case against War* demonstrates how the Catholic mantra “Never again war!” reflects a set of powerfully realistic teachings on war and peace.**

Over the last five decades, the Catholic Church has emerged as a powerful critic of war and as an advocate for its alternatives. At the same time, researchers of armed conflict have produced a considerable body of scholarship on war and its prevention. *The Catholic Case against War* compares these seemingly disparate lines of thought and finds a remarkable harmony between the two.

Drawing on years of Vatican documents and papal statements, political scientist David Carroll Cochran clearly presents the key elements of the Church’s case against war. Far from a naïve, optimistic call for peace, these teachings are consistent with the empirical research on the realities of contemporary warfare. The result is a look not only at the explicit moral case against war developed by the Vatican but also at its remarkable realism and relevance to world conflict today.

Contributor Bio

David Carroll Cochran is professor of politics and co-director of the peace and justice minor at Loras College. He is the author or editor of five previous books, most recently *The Catholic Church in Ireland Today* and *Catholic Realism and the Abolition of War*.

Political Theology and Islam

From the Birth of Empire to the Modern State

Paul L. Heck

Summary

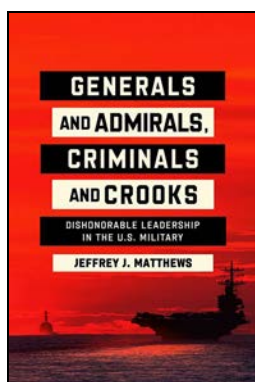

Paul L. Heck’s *Political Theology and Islam* offers a sophisticated and comprehensive analysis of sovereignty in Islamic society, beginning with the origins of Islam and extending to the present.

This wide-ranging study sets out to answer an unassumingly tricky question: What is politics in Islam? Paul L. Heck’s answer takes the form of a close analysis of sovereignty across Islamic history, approaching this concept from the perspective of political theology. As he illustrates, the history of politics in Islam is best understood as an ongoing struggle for a moral order between those who occupy positions of rulership and religious voices that communicate the ethics of Islam and educate the public in their religious and moral devotions. In this sense, sovereignty in Islam is split between ruling powers and pious communities, whose interactions range from close cooperation to outright competition. Heck shows that it is precisely through these interactions that Islamic conceptions of sovereignty are constructed and negotiated.

Political Theology and Islam’s first section spells out the concepts and methods for the study of politics in Islam as a struggle for a moral order, one not only involving varied claims to sovereignty but also a general determination to realize the righteousness of Islam that stands at the heart of the message that the Prophet Muhammad conveyed to his society in seventh-century Arabia. The following sections demonstrate, through examples from both the past and today’s worldwide Muslim community, the diverse ways in which the umma, the community of Muslims, has struggled for a moral order that recalls its prophetic message. Deftly moving in various political theaters and through a wide range of intellectual traditions, Heck’s book will emerge as a touchstone of scholarship in the field of Muslim politics and intellectual thought.

Contributor Bio

Paul L. Heck is professor of Islamic studies at Georgetown University and founding director of the Study of Religions Across Civilizations (SORAC) project.

Generals and Admirals, Criminals and Crooks

Dishonorable Leadership in the U.S. Military

Jeffrey J. Matthews

Summary

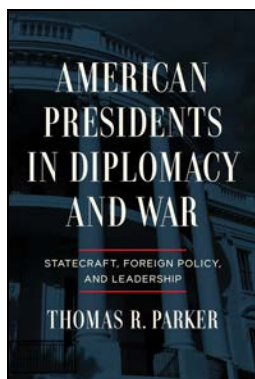

U.S. flag officers are intended to be exemplary defenders of duty, honor, and country—but what can we learn by exposing the bad leaders lurking within these venerable ranks?

There is an ugly strain of criminal and unethical leadership in the upper ranks of the American military. Despite the exemplary service of most American military members, a persistent minority of U.S. flag officers (Navy admirals and Army, Air Force, and Marine generals) have embroiled the profession in scandal since the Revolutionary War. In *Generals and Admirals, Criminals and Crooks*, award-winning author Jeffrey J. Matthews examines bad leadership in American military history over the past one hundred years, beginning with war crimes in the Philippine-American War and ending with the recent Fat Leonard corruption scandal.

Scrutinizing a range of leadership failures, including moral cowardice, sex crimes, insubordination, toxic leadership, and obstruction of justice, Matthews offers a fascinating analysis of the bases and motives leading to these missteps and explores what could be done to curtail future misconduct of generals and admirals. The book also includes an up-to-date examination of President Trump's term in office that highlights the vital role honorable military leadership plays in our democracy. Confronting the dark side of criminal and unethical conduct among U.S. flag officers, this frank and historically grounded book offers valuable lessons in leadership that will stimulate further debate and critical self-assessment within the U.S. military.

Contributor Bio

Jeffrey J. Matthews is the George Frederick Jewett Distinguished Professor at the University of Puget Sound in Tacoma, Washington. He teaches American history and leadership and has written or edited four previous books, including *Colin Powell: Imperfect Patriot* (University of Notre Dame Press, 2019), winner of the Foreword INDIES War and Military Book of the Year Award and finalist for the Army Historical Foundation Book Award.

American Presidents in Diplomacy and War

Statecraft, Foreign Policy, and Leadership

Thomas R. Parker

Summary

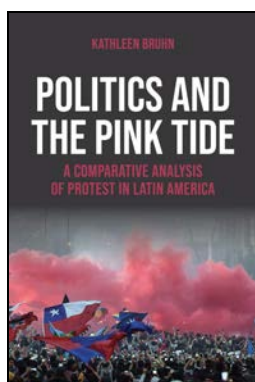

By analyzing how America's greatest presidents displayed their mastery of statecraft, *American Presidents in Diplomacy and War* offers important lessons about the most effective uses of national power abroad.

American Presidents in Diplomacy and War chronicles the major foreign policy crises faced by twelve American presidents in order to uncover the reoccurring patterns of successful and less successful uses of diplomatic, economic, and military power. In this brief and highly readable book, Thomas R. Parker reveals how America's most successful leaders manage events instead of allowing events to control them.

Parker explores how the U.S. presidency, from the days of the early Republic to the present, shaped the world. Ranging from George Washington to George H. W. Bush, Parker shows how successful statecraft requires the understanding of complex situations, the prudent evaluation of various courses of action, the ability to adapt and to anticipate, and personal determination. Parker compares each of these leaders to their contemporaries—reasonable political leaders who nonetheless made serious mistakes, such as Thomas Jefferson and Barack Obama—to examine the dangers of being unable to strike the right balance of aggressiveness and caution and to examine the costs of inexperience and ambivalence toward military power. The book concludes by discussing the increasingly complex international situation of today, particularly the manifold challenges posed by China and Russia to U.S. foreign policy, and the continued necessity of effective statecraft.

Contributor Bio

Thomas R. Parker is a professorial lecturer at George Washington University and author of *The Road to Camp David*. He worked for thirty years in diplomatic and military affairs for the White House, U.S. Defense Department, State Department, and the intelligence community.

Politics and the Pink Tide

A Comparative Analysis of Protest in Latin America

Kathleen Bruhn

Summary

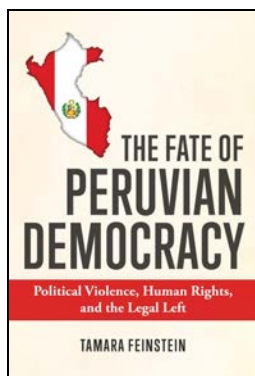

***Politics and the Pink Tide* investigates the ways in which protest varied across five Latin American countries that elected leftist presidents during the Pink Tide.**

Kathleen Bruhn compares the differences in protest that occurred under the new leftist governments to their conservative, neoliberal predecessors, offering a wide-angle view into the complex relationships between neoliberalism, political party structures, and protest.

Using individual and event-level data from Bolivia, Brazil, Chile, Venezuela, and Ecuador, *Politics and the Pink Tide* shows how economic policy choices and the links between leftist parties and social movements affect patterns of protest. For example, although more orthodox neoliberal approaches did motivate more economic protest, the book demonstrates that neither more radical nor more socially linked leftist governments were better able to contain protest—or to do so without resorting to police violence. *Politics and the Pink Tide* proposes a sweeping exploration of protest, one that is controlled by economic policy and grievances, the social embeddedness of political parties, and the norms surrounding protest tactics within public life.

Contributor Bio

Kathleen Bruhn is Professor and Department Chair of Political Science at University of California, Santa Barbara. She is the author of *Urban Protest in Mexico and Brazil* (Cambridge University Press, 2008).

The Fate of Peruvian Democracy

Political Violence, Human Rights, and the Legal Left

Tamara Feinstein

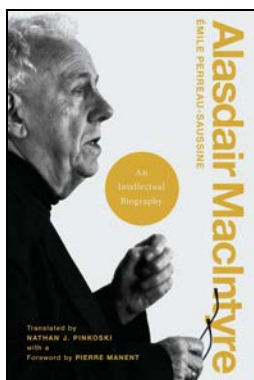

Summary

Tamara Feinstein investigates the bloody Shining Path conflict's effect on the legal Left in late-twentieth-century Peru, illustrating the catastrophic impact state and insurgent violence can have on the growth and resilience of democratic political actors during times of war.

In this engaging historical study, Tamara Feinstein chronicles the late-twentieth-century Shining Path conflict and argues that it significantly contributed to the rupture and disintegration of the noninsurgent legal Left in Peru by deepening preexisting divisions and eradicating an entire generation of leaders. Using a combination of oral histories, archival documents, contemporary media accounts, and participant observation of commemorations, Feinstein maps the trajectory of the Peruvian Left's rise and fall by analyzing two emblematic human rights cases that occurred at the Left's zenith and nadir: the state-based violence of the 1986 Lima prison massacres and the 1992 Shining Path assassination of leftist shantytown leader María Elena Moyano. The lessons found in *The Fate of Peruvian Democracy* reach beyond Peru to connect with other Latin American countries. Peru's story illustrates the difficulties of accumulating political force during times of violence, underscores how struggles for self-defense can complicate ideological stances on violence, and helps explain the unevenness of the resurgence of the Left (the so-called "pink tide") in Latin America in the twenty-first century. The book contributes to debates on memory and human rights in Peru and Latin America where divisions over how to remember the war retraced the fault lines of earlier debates over democracy and violence.

Contributor Bio

Tamara Feinstein is an assistant professor of Latin American history at Murray State University. She is editor of the online archive *Peru: Human Rights, Drugs, and Democracy, 1980-2000*.

Alasdair MacIntyre

An Intellectual Biography

Émile Perreau-Saussine, Nathan J. Pinkoski

Summary

This award-winning biography presents an illuminating introduction to Alasdair MacIntyre and locates his thinking in the intellectual milieu of twentieth-century philosophy.

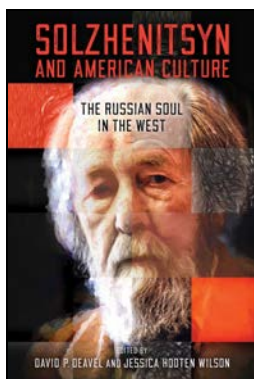

Winner of the prestigious 2005 Philippe Habert Prize, the late Émile Perreau-Saussine's *Alasdair MacIntyre: Une biographie intellectuelle* stands as a definitive introduction to the life and work of one of today's leading moral philosophers. With Nathan J. Pinkoski's translation, this long-awaited, critical examination of MacIntyre's thought is now available to English readers for the first time, including a foreword by renowned philosopher Pierre Manent.

Amid the confusions and contradictions of our present philosophical landscape, few have provided the clarity of thought and shrewdness of diagnosis like Alasdair MacIntyre. In this study, Perreau-Saussine guides his readers through MacIntyre's lifelong project by tracking his responses to liberalism's limitations in light of the human search for what is good and true in politics, philosophy, and theology. The portrait that emerges is one of an intellectual giant who comes to oppose modern liberal individualism's arguably singular focus on averting evil at the expense of a concerted pursuit of human goods founded upon moral and practical reasoning. Although throughout his career MacIntyre would engage with a number of theoretical and practical standpoints in service of his critique of liberalism, not the least of which was his early and later abandoned dalliance with Marxism, Perreau-Saussine convincingly shows how the Scottish philosopher came to hold that Aristotelian Thomism provides the best resources to counter what he perceives as the failure of the liberal project.

Contributor Bio

Émile Perreau-Saussine (1972–2010) was a lecturer in the Department of Politics and International Studies at the University of Cambridge.

Nathan J. Pinkoski is a research fellow and director of academic programs at the Zephyr Institute.

Solzhenitsyn and American Culture

The Russian Soul in the West

David P. Deavel, Jessica Hooten Wilson

Summary

When people think of Russia today, they tend to gravitate toward images of Soviet domination or, more recently, Vladimir Putin's war against Ukraine. The reality, however, is that, despite Russia's political failures, its rich history of culture, religion, and philosophical reflection—even during the darkest days of the Gulag—have been a deposit of wisdom for American artists, religious thinkers, and political philosophers probing what it means to be human in America. Aleksandr Solzhenitsyn stands out as the key figure in this conversation, as both a Russian literary giant and an exile from Russia living in America for two decades. This anthology reconsiders Solzhenitsyn's work from a variety of perspectives to provide a prophetic vision for our current national confusion over universal ideals.

In *Solzhenitsyn and American Culture: The Russian Soul in the West*, David P. Deavel and Jessica Hooten Wilson have collected essays from the foremost scholars and thinkers of comparative studies who have been tracking what Americans have borrowed and learned from Solzhenitsyn and his fellow Russians. The book offers a consideration of what we have in common and will suggest to readers what we can still learn and what we must preserve. The last section expands the book's theme and reach by examining the impact of other notable Russian authors, including Pushkin, Dostoevsky, and Gogol.

Contributors: David P. Deavel, Jessica Hooten Wilson, Nathan Nielson, Eugene Vodolazkin, David Walsh, Matthew Lee Miller, Ralph C. Wood, Gary Saul Morson, Edward E. Ericson, Jr., Micah Mattix, Joseph Pearce, James F. Pontuso, Daniel J. Mahoney, William Jason Wallace, Lee Trepanier, Peter Leithart, Dale Peterson, Julianna Leachman, Walter G. Moss, and Jacob Howland.

Stories from Palestine

Narratives of Resilience

Marda Dunsky

Summary

***Stories from Palestine* profiles Palestinians engaged in creative and productive pursuits in their everyday lives in the West Bank, Jerusalem, and the Gaza Strip. Their narratives amplify perspectives and experiences of Palestinians exercising their own constructive agency.**

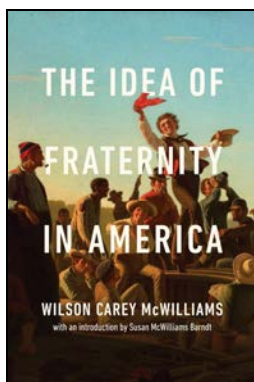

In *Stories from Palestine: Narratives of Resilience*, Marda Dunsky presents a vivid overview of contemporary Palestinian society in the venues envisioned for a future Palestinian state. Dunsky has interviewed women and men from cities, towns, villages, and refugee camps who are farmers, scientists, writers, cultural innovators, educators, and entrepreneurs. Using their own words, she illuminates their resourcefulness in navigating agriculture, education, and cultural pursuits in the West Bank; persisting in Jerusalem as a sizable minority in the city; and confronting the challenges and uncertainties of life in the Gaza Strip. Based on her in-depth personal interviews, the narratives weave in quantitative data and historical background from a range of primary and secondary sources that contextualize Palestinian life under occupation.

More than a collection of individual stories, *Stories from Palestine* presents a broad, crosscut view of the tremendous human potential of this particular society. Narratives that emphasize the human dignity of Palestinians pushing forward under extraordinary circumstances include those of an entrepreneur who markets the yields of Palestinian farmers determined to continue cultivating their land, even as the landscape is shrinking; a professor and medical doctor who aims to improve health in local Palestinian communities; and an award-winning primary school teacher who provides her pupils a safe and creative learning environment. In an era of conflict and divisiveness, Palestinian resilience is relatable to people around the world who seek to express themselves, to achieve, to excel, and to be free.

The Idea of Fraternity in America (50th Anniversary Edition)

Wilson Carey McWilliams, Susan McWilliams Barndt

Summary

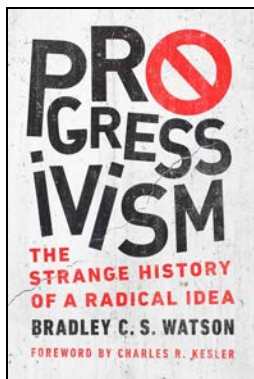

"A complex, intellectually jarring, and valuable book, one which reveals how early America became her true self as we now know her." —Kirkus Reviews

The United States is currently experiencing a crisis of citizenship and democracy. For many of us, there is a sense of forlornness caused by losing sight of human connectedness and the bonds of community. Originally published in 1973, and long out of print, *The Idea of Fraternity in America* is a resonant call to reclaim and restore the communal bonds of democracy by one of the most important political theorists of the twentieth century, Wilson Carey McWilliams.

This sprawling and majestic book offers a comprehensive and original interpretation of the whole range of American historical and political thought, from seventeenth-century White Puritanism to twentieth-century Black American political thought. In one sense, it is a long and sustained reflection on the American political tradition, with side glances at other cultures and other traditions; in another sense, it is an impressive beginning to an original and comprehensive theory of politics, rooted in a new reading of a vast array of relevant sources. Speaking with a prescience unmatched by his contemporaries, McWilliams argues that in order to address the malaise of our modern democracy we must return to an ideal of our past: fraternity, a relation of affection founded on shared values and goals. This 50th anniversary edition, which offers a critique of the liberal tradition and a new social philosophy for the future, contains a new introduction from McWilliams's daughter, Susan McWilliams Barndt. She writes, "At a time when many Americans are wondering how we got to where we are today . . . this book demonstrates that there is in fact a lot of precedent for what feels so unprecedented in contemporary American politics."

Contributor Bio

Wilson Carey McWilliams (1933-2005) was a professor in the department of political science at Rutgers, the State University of New Jersey, at New Brunswick. He was the author of numerous books, including *The Democratic Soul: A Wilson Carey McWilliams Reader*

Progressivism

The Strange History of a Radical Idea

Bradley C. S. Watson

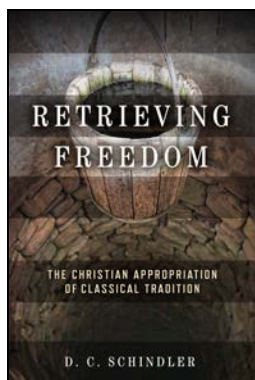

Summary

At its core this book is intellectual history, tracing the work of progressive historians as they in turn wrote the history of progressivism.

In *Progressivism: The Strange History of a Radical Idea*, Bradley C. S. Watson presents an intellectual history of American progressivism as a philosophical-political phenomenon, focusing on how and with what consequences the academic discipline of history came to accept and propagate it. This book offers a meticulously detailed historiography and critique of the insularity and biases of academic culture. It shows how the first scholarly interpreters of progressivism were, in large measure, also its intellectual architects, and later interpreters were in deep sympathy with their premises and conclusions. Too many scholarly treatments of the progressive synthesis were products of it, or at least were insufficiently mindful of two central facts: the hostility of progressive theory to the Founders' Constitution and the tension between progressive theory and the realm of the private, including even conscience itself. The constitutional and religious dimensions of progressive thought—and, in particular, the relationship between the two—remained hidden for much of the twentieth century. This pathbreaking volume reveals how and why this scholarly obfuscation occurred. The book will interest students and scholars of American political thought, the Progressive Era, and historiography, and it will be a useful reference work for anyone in history, law, and political science.

Contributor Bio

Bradley C. S. Watson teaches at the Van Andel Graduate School of Government at Hillsdale College in Washington, D.C.. He is the author and editor of numerous books, including *Living Constitution*, *Dying Faith: Progressivism and the New Science of Jurisprudence* and *Progressive Challenges to the American Constitution: A New Republic*.

Retrieving Freedom

The Christian Appropriation of Classical Tradition

D. C. Schindler

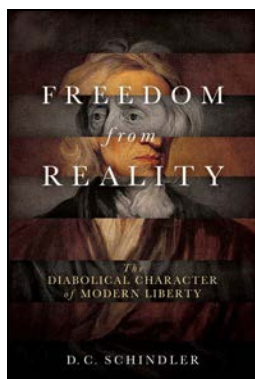

Summary

***Retrieving Freedom* is a provocative, big-picture book, taking a long view of the “rise and fall” of the classical understanding of freedom.**

In response to the evident shortcomings of the notion of freedom that dominates contemporary discourse, *Retrieving Freedom* seeks to return to the sources of the Western tradition to recover a more adequate understanding. This book begins by setting forth the ancient Greek conception—summarized from the conclusion of D. C. Schindler’s previous tour de force of political and moral reasoning, *Freedom from Reality*—and the ancient Hebrew conception, arguing that at the heart of the Christian vision of humanity is a novel synthesis of the apparently opposed views of the Greeks and Jews. This synthesis is then taken as a measure that guides an in-depth exploration of landmark figures framing the history of the Christian appropriation of the classical tradition. Schindler conducts his investigation through five different historical periods, focusing in each case on a polarity, a pair of figures who represent the spectrum of views from that time: Plotinus and Augustine from late antiquity, Dionysius the Areopagite and Maximus the Confessor from the patristic period, Anselm and Bernard from the early middle ages, Bonaventure and Aquinas from the high middle ages, and, finally, Godfrey of Fontaines and John Duns Scotus from the late middle ages. In the end, we rediscover dimensions of freedom that have gone missing in contemporary discourse, and thereby identify tasks that remain to be accomplished. Schindler’s masterful study will interest philosophers, political theorists, and students and scholars of intellectual history, especially those who seek an alternative to contemporary philosophical understandings of freedom.

Contributor Bio

D. C. Schindler is professor of metaphysics and anthropology at the John Paul II Institute, Washington, DC. He is the author of more than a dozen books, including *Freedom from Reality: The Diabolical Character of Modern Liberty*.

Freedom from Reality

The Diabolical Character of Modern Liberty

D. C. Schindler

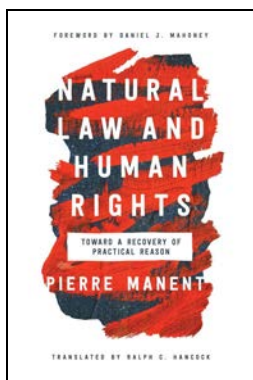

Summary

It is commonly observed that behind many of the political and cultural issues that we face today there are impoverished conceptions of freedom, which, according to D. C. Schindler, we have inherited from the classical liberal tradition without a sufficient awareness of its implications. *Freedom from Reality* presents a critique of the deceptive and ultimately self-subverting character of the modern notion of freedom, retrieving an alternative view through a new interpretation of the ancient tradition. While many have critiqued the inadequacy of identifying freedom with arbitrary choice, this book seeks to penetrate to the metaphysical roots of the modern conception by going back, through an etymological study, to the original sense of freedom.

Schindler begins by uncovering a contradiction in John Locke’s seminal account of human freedom. Rather than dismissing it as a mere “academic” problem, Schindler takes this contradiction as a key to understanding the strange paradoxes that abound in the contemporary values and institutions founded on the modern notion of liberty: the very mechanisms that intend to protect modern freedom render it empty and ineffectual. In this respect, modern liberty is “diabolical”—a word that means, at its roots, that which “drives apart” and so subverts. This is contrasted with the “symbolical” (a “joining-together”), which, he suggests, most basically characterizes the premodern sense of reality. This book will appeal to students and scholars of political philosophy (especially political theorists), philosophers in the continental or historical traditions, and cultural critics with a philosophical bent.

Natural Law and Human Rights

Toward a Recovery of Practical Reason

Pierre Manent, Ralph C. Hancock

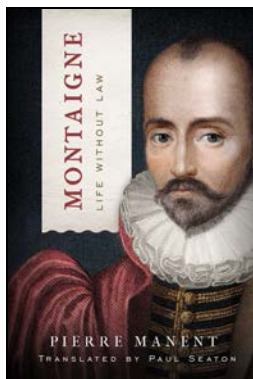

Summary

This first English translation of Pierre Manent's profound and strikingly original book *La loi naturelle et les droits de l'homme* is a reflection on the central question of the Western political tradition. In six chapters, developed from the prestigious Étienne Gilson lectures at the Institut Catholique de Paris, and in a related appendix, Manent contemplates the steady displacement of the natural law by the modern conception of human rights. He aims to restore the grammar of moral and political action, and thus the possibility of an authentically political order that is fully compatible with liberty. Manent boldly confronts the prejudices and dogmas of those who have repudiated the classical and Christian notion of "liberty under law" and in the process shows how groundless many contemporary appeals to human rights turn out to be. Manent denies that we can generate obligations from a condition of what Locke, Hobbes, and Rousseau call the "state of nature," where human beings are absolutely free, with no obligations to others. In his view, our ever-more-imperial affirmation of human rights needs to be reintegrated into what he calls an "archic" understanding of human and political existence, where law and obligation are inherent in liberty and meaningful human action. Otherwise we are bound to act thoughtlessly and in an increasingly arbitrary or willful manner. *Natural Law and Human Rights* will engage students and scholars of politics, philosophy, and religion, and will captivate sophisticated readers who are interested in the question of how we might reconfigure our knowledge of, and talk with one another about, politics.

Contributor Bio

Pierre Manent is professor emeritus of political philosophy at the École des Hautes Études en Sciences Sociales. He is the author of numerous books, including *Montaigne: Life without Law* (University of Notre Dame Press, 2020).

Ralph C. Hancock is professor of political science at Brigham Young University.

Montaigne

Life without Law

Pierre Manent, Paul Seaton

Summary

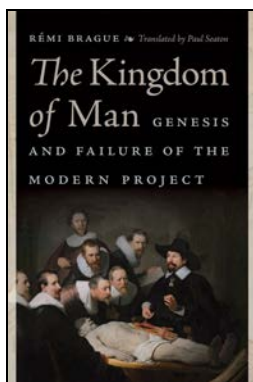

In *Montaigne: Life without Law*, originally published in French in 2014 and now translated for the first time into English by Paul Seaton, Pierre Manent provides a careful reading of Montaigne's three-volume work *Essays*. Although Montaigne's writings resist easy analysis, Manent finds in them a subtle unity, and demonstrates the philosophical depth of Montaigne's reflections and the distinctive, even radical, character of his central ideas. To show Montaigne's unique contribution to modern philosophy, Manent compares his work to other modern thinkers, including Machiavelli, Hobbes, Pascal, and Rousseau. What does human life look like without the imposing presence of the state? asks Manent. In raising this question about Montaigne's *Essays*, Manent poses a question of great relevance to our contemporary situation. He argues that Montaigne's philosophical reflections focused on what he famously called *la condition humaine*, the human condition. Manent tracks Montaigne's development of this fundamental concept, focusing especially on his reworking of pagan and Christian understandings of virtue and pleasure, disputation and death. Bringing new form and content together, a new form of thinking and living is presented by Montaigne's *Essays*, a new model of a thoughtful life from one of the unsung founders of modernity.

Throughout, Manent suggests alternatives and criticisms, some by way of contrasts with other thinkers, some in his own name. This is philosophical engagement at a very high level. In showing the unity of Montaigne's work, Manent's study will appeal especially to students and scholars of political theory, the history of modern philosophy, modern literature, and the origins of modernity.

Contributor Bio

Pierre Manent is professor emeritus of political philosophy at the École des Hautes Études en Sciences Sociales.

Paul Seaton is the Richard and Barbara Fisher Professor of Philosophy at St. Mary's Seminary & University.

The Kingdom of Man

Genesis and Failure of the Modern Project

Rémi Brague, Paul Seaton

Summary

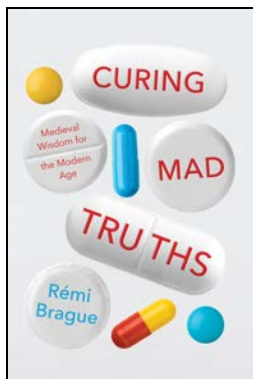

Was humanity created, or do humans create themselves? In this eagerly awaited English translation of *Le Règne de l'homme*, the last volume of Rémi Brague's trilogy on the philosophical development of anthropology in the West, Brague argues that, with the dawn of the Enlightenment, Western societies rejected the transcendence of the past and looked instead to the progress fostered by the early modern present and the future. As scientific advances drained the cosmos of literal mystery, humanity increasingly devalued the theophosophical mystery of being in favor of omniscience over one's own existence. Brague narrates the intellectual disappearance of the natural order, replaced by a universal chaos upon which only humanity can impose order; he cites the vivid histories of the nation-state, economic evolution into capitalism, and technology as the tools of this new dominion, taken up voluntarily by humans for their own ends rather than accepted from the deity for a divine purpose.

Brague's tour de force begins with the ancient and medieval confidence in humanity as the superior creation of Nature or of God, epitomized in the biblical wish of the Creator for humans to exert stewardship over the earth. He sees the Enlightenment as a transition period, taking as a given that humankind should be masters of the world but rejecting the imposition of that duty by a deity. Before the Enlightenment, who the creator was and whom the creator dominated were clear. With the advance of modernity and banishment of the Creator, who was to be dominated? Today, Brague argues, "our humanism . . . is an anti-antihumanism, rather than a direct affirmation of the goodness of the human." He ends with a sobering question: does humankind still have the will to survive in an era of intellectual self-destruction?

Curing Mad Truths

Medieval Wisdom for the Modern Age

Rémi Brague

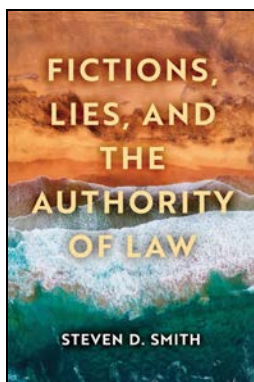

Summary

In his first book composed in English, Rémi Brague maintains that there is a fundamental problem with modernity: we no longer consider the created world and humanity as intrinsically valuable. *Curing Mad Truths*, based on a number of Brague's lectures to English-speaking audiences, explores the idea that humanity must return to the Middle Ages. Not the Middle Ages of purported backwardness and barbarism, but rather a Middle Ages that understood creation—including human beings—as the product of an intelligent and benevolent God. The positive developments that have come about due to the modern project, be they health, knowledge, freedom, or peace, are not grounded in a rational project because human existence itself is no longer the good that it once was. Brague turns to our intellectual forebears of the medieval world to present a reasoned argument as to why humanity and civilizations are goods worth promoting and preserving.

Curing Mad Truths will be of interest to a learned audience of philosophers, historians, and medievalists.

Fictions, Lies, and the Authority of Law

Steven D. Smith

Summary

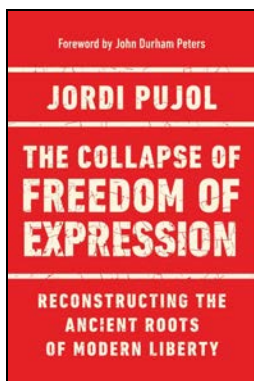

***Fictions, Lies, and the Authority of Law* discusses legal, political, and cultural difficulties that arise from the crisis of authority in the modern world.**

Is there any connection linking some of the maladies of modern life—"cancel culture," the climate of mendacity in public and academic life, fierce conflicts over the Constitution, disputes over presidential authority? *Fictions, Lies, and the Authority of Law* argues that these diverse problems are all a consequence of what Hannah Arendt described as the disappearance of authority in the modern world. In this perceptive study, Steven D. Smith offers a diagnosis explaining how authority today is based in pervasive fictions and how this situation can amount to, as Arendt put it, "the loss of the groundwork of the world."

Fictions, Lies, and the Authority of Law considers a variety of problems posed by the paradoxical ubiquity and absence of authority in the modern world. Some of these problems are jurisprudential or philosophical in character; others are more practical and lawyerly—problems of presidential powers and statutory and constitutional interpretation; still others might be called existential. Smith's use of fictions as his purchase for thinking about authority has the potential to bring together the descriptive and the normative and to think about authority as a useful hypothesis that helps us to make sense of the empirical world. This strikingly original book shows that theoretical issues of authority have important practical implications for the kinds of everyday issues confronted by judges, lawyers, and other members of society. The book is aimed at scholars and students of law, political science, and philosophy, but many of the topics it addresses will be of interest to politically engaged citizens.

The Collapse of Freedom of Expression

Reconstructing the Ancient Roots of Modern Liberty

Jordi Pujol

Summary

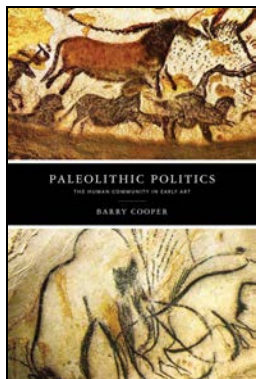

This book offers a holistic account of the problems posed by freedom of expression in our current times and offers corrective measures to allow for a more genuine exchange of ideas within the global society.

The topic of free speech is rarely addressed from a historical, philosophical, or theological perspective. In *The Collapse of Freedom of Expression*, Jordi Pujol explores both the modern concept of the freedom of expression based on the European Enlightenment and the deficiencies inherent in this framework. Modernity has disregarded the traditional roots of the freedom of expression drawn from Christianity, Greek philosophy, and Roman law, which has left the door open to the various forms of abuse, censorship, and restrictions seen in contemporary public discourse. Pujol proposes that we rebuild the foundations of the freedom of expression by returning to older traditions and incorporating both the field of pragmatics of language and theological and ethical concepts on human intentionality as new, complementary disciplines.

Pujol examines emblematic cases such as *Charlie Hebdo*, free speech on campus, and online content moderation to elaborate on the tensions that arise within the modern concept of freedom of expression. The book explores the main criticisms of the contemporary liberal tradition by communitarians, libertarians, feminists, and critical race theorists, and analyzes the gaps and contradictions within these traditions. Pujol ultimately offers a reconstruction project that involves bridging the chasm between the secular and the sacred and recognizing that religion is a font of meaning for millions of people, and as such has an inescapable place in the construction of a pluralist public sphere.

Contributor Bio

Jordi Pujol is an associate professor of media ethics and media law at the School of Church Communications in the Pontifical University of Santa Croce in Rome.

Paleolithic Politics

The Human Community in Early Art

Barry Cooper

Summary

Using his background in political theory and philosophical anthropology, Barry Cooper is the first political scientist to propose new interpretations of some of the most famous extant Paleolithic art and artifacts in *Paleolithic Politics*. This book is inspired by Eric Voegelin, one of the major political scientists of the last century, who developed an interest in the very early symbolism associated with the caves and rock shelters of the Upper Paleolithic, but never finished his analysis. Cooper, who has written extensively on Voegelin's theories, takes up the enterprise of applying Voegelin's approach to an analysis of portable and cave art. He specifically applies Voegelin's philosophy of consciousness, his concept of the compactness and differentiation of consciousness, his argument regarding the experience and symbolizations of reality, and his notion of the primary experience of the cosmos to images previously regarded as pedestrian. Cooper demonstrates the political significance of the earliest expressions of human existence and is among the first to argue that political life began not with the Greeks, but 25,000 years before them. Archaeologists, prehistorians, and political scientists will all benefit from this original and provocative work.

The Priority of the Person

Political, Philosophical, and Historical Discoveries

David Walsh

Summary

In *The Priority of the Person*, world-class philosopher David Walsh advances the argument set forth in his highly original philosophic meditation *Politics of the Person as the Politics of Being* (2015), that "person" is the central category of modern political thought and philosophy. The present volume is divided into three main parts. It begins with the political discovery of the inexhaustibility of persons, explores the philosophic differentiation of the idea of the "person," and finally traces the historical emergence of the concept through art, science, and faith. Walsh argues that, although the roots of the idea of "person" are found in the Greek concept of the mind and in the Christian conception of the soul, this notion is ultimately a distinctly modern achievement, because it is only the modern turn toward interiority that illuminated the unique nature of persons as each being a world unto him- or herself. As Walsh shows, it is precisely this feature of persons that makes it possible for us to know and communicate with others, for we can only give and receive one another as persons. In this way alone can we become friends and, in friendship, build community.

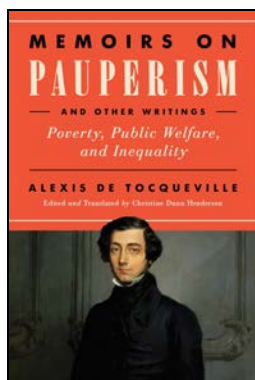

By showing how the person is modernity's central preoccupation, David Walsh's *The Priority of the Person* makes an important contribution to current discussions in both political theory and philosophy. It will also appeal to students and scholars of theology and literature, and any groups interested in the person and personalism.

Contributor Bio

David Walsh is professor of politics at the Catholic University of America. He is the author and editor of a number of books, including *Politics of the Person as the Politics of Being* (University of Notre Dame Press, 2015).

Memoirs on Pauperism and Other Writings

Poverty, Public Welfare, and Inequality

Alexis de Tocqueville, Christine Dunn Henderson

Summary

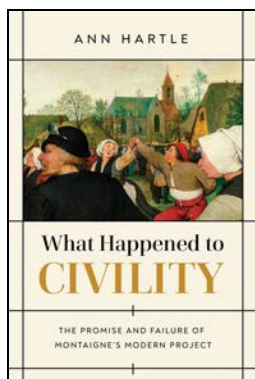

The collection includes new translations of Tocqueville's works, including the first English translation of his *Second Memoir*, the original *Memoir*, a letter fragment considering pauperism in Normandy, and the "Pauperism in America" index to the *Penitentiary Report*.

Alexis de Tocqueville was one of the most important thinkers of the nineteenth century, and his thought continues to influence contemporary political and social discourse. In *Memoirs on Pauperism and Other Writings*, Christine Dunn Henderson brings all of Tocqueville's writings on poverty together for the first time: a new translation of his original *Memoir* and the first English translation of his unfinished *Second Memoir*, as well as his letter considering pauperism in Normandy and the "Pauperism in America" appendix to his *Penitentiary Report*. By uniting these texts in a single volume, Henderson makes possible a deeper exploration of Tocqueville's thought as it pertains to questions of inequality and public assistance. As Henderson shows in her introduction to this collection, Tocqueville provides no easy blueprint for fixing these problems, which remain pressing today. Still, Tocqueville's writings speak eloquently about these issues, and his own unsuccessful struggle to find solutions remains both a spur to creative thinking today and a caution against attempting to find simplistic remedies.

Contributor Bio

Alexis de Tocqueville (1805–1859) was a French political scientist and historian. He is best known for his works *Democracy in America* and *The Old Regime and the Revolution*.

What Happened to Civility

The Promise and Failure of Montaigne's Modern Project

Ann Hartle

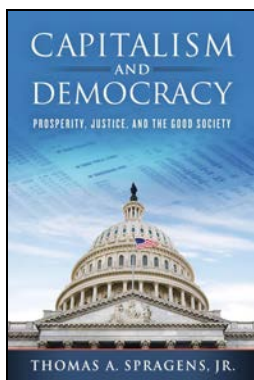

Summary

What is civility, and why has it disappeared? Ann Hartle analyzes the origins of the modern project and the *Essays* of Michel de Montaigne to discuss why civility is failing in our own time.

In this bold book, Ann Hartle, one of the most important interpreters of sixteenth-century French philosopher Michel de Montaigne, explores the modern notion of civility—the social bond that makes it possible for individuals to live in peace in the political and social structures of the Western world—and asks, why has it disappeared? Concerned with the deepening cultural divisions in our postmodern, post-Christian world, she traces their roots back to the Reformation and Montaigne's *Essays*. Montaigne's philosophical project of drawing on ancient philosophy and Christianity to create a new social bond to reform the mores of his culture is perhaps the first act of self-conscious civility. After tracing Montaigne's thought, Hartle returns to our modern society and argues that this framing of civility is a human, philosophical invention and that civility fails precisely because it is a human, philosophical invention. She concludes with a defense of the central importance of sacred tradition for civility and the need to protect and maintain that social bond by supporting nonpoliticized, nonideological, free institutions, including and especially universities and churches. *What Happened to Civility* is written for readers concerned about the deterioration of civility in our public life and the defense of freedom of religion. The book will also interest philosophers who seek a deeper understanding of modernity and its meaning, political scientists interested in the meaning of liberalism and the causes of its failure, and scholars working on Montaigne's *Essays*.

Contributor Bio

Ann Hartle is professor emeritus of philosophy at Emory University. She is the author of numerous books, including *Montaigne and the Origins of Modern Philosophy* and *Michel de Montaigne: Accidental Philosopher*.

Capitalism and Democracy

Prosperity, Justice, and the Good Society

Thomas A. Spragens, Jr.

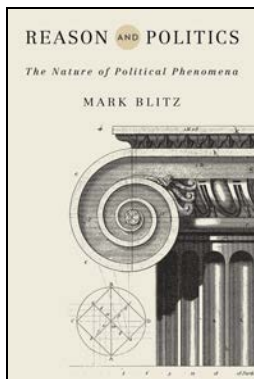

Summary

This book serves as an introduction to the ongoing political debate about the relationship of capitalism and democracy.

In recent years, the ideological battles between advocates of free markets and minimal government, on the one hand, and adherents of greater democratic equality and some form of the welfare state, on the other hand, have returned in full force. Anyone who wants to make sense of contemporary American politics and policy battles needs to have some understanding of the divergent beliefs and goals that animate this debate. In *Capitalism and Democracy*, Thomas A. Spragens, Jr., examines the opposing sides of the free market versus welfare state debate through the lenses of political economy, moral philosophy, and political theory. He asks: Do unchecked markets maximize prosperity, or do they at times produce wasteful and damaging outcomes? Are market distributions morally appropriate, or does fairness require some form of redistribution? Would a society of free markets and minimal government be the best kind of society possible, or would it have serious problems? After leading the reader through a series of thought experiments designed to compare and clarify the thought processes and beliefs held by supporters of each side, Spragens explains why there are no definitive answers to these questions. He concludes, however, that some answers are better than others, and he explains why his own judgement is that a vigorous free marketplace provides great benefits to a democratic society, both economically and politically, but that it also requires regulation and supplementation by collective action for a society to maximize prosperity, to mitigate some of the unfairness of the human condition, and to be faithful to important democratic purposes and ideals. This engaging and accessible book will interest students and scholars of political economy, democratic theory, and theories of social justice. It will also appeal to general readers who are seeking greater clarity and understanding of contemporary debates about government's role in the economy.

Reason and Politics

The Nature of Political Phenomena

Mark Blitz

Summary

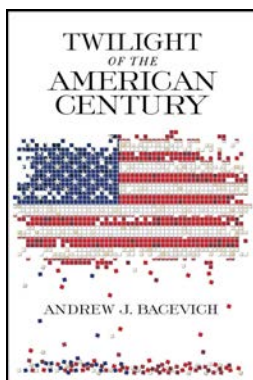

***Reason and Politics* explores the central phenomena of political life and, therefore, of human affairs in general.**

Amidst the seemingly endless books on more and more narrowly specialized topics within politics, Mark Blitz offers something very different. *Reason and Politics: The Nature of Political Phenomena* examines the central phenomena of political life in order to clarify their meaning, source, and range. Blitz gives particular attention to the notions of freedom, rights, justice, virtue, power, property, nationalism, and the common good. At the same time, Blitz shows how, in order to understand political matters correctly, we must also understand how they affect us directly. We do not merely theorize over political questions; we experience them. Blitz also considers matters such as the powers and motions of the soul, the nature of experience, and the varieties of pleasure and attachment.

Living at a time when technological change makes it difficult even to claim convincingly that there are defining human characteristics and natural limits that we simply cannot change, *Reason and Politics* proposes that there are in fact basic phenomena not only in politics, but that make up human affairs as such. In examining these central phenomena in a lucid and articulate manner, this book makes a unique contribution not only to the study of politics but also to the study of philosophy more broadly. It will interest undergraduate and graduate students, political scientists and philosophers, those interested in politics, and general readers.

Contributor Bio

Mark Blitz is the Fletcher Jones Professor of Political Philosophy at Claremont McKenna College. He is the author of numerous books, including *Conserving Liberty*, *Plato's Political Philosophy*, and *Duty Bound: Responsibility and American Public Life*.

Twilight of the American Century

Andrew J. Bacevich

Summary

Andrew Bacevich is a leading American public intellectual, writing in the fields of culture and politics with particular attention to war and America's role in the world. *Twilight of the American Century* is a collection of his selected essays written since 9/11. In these essays, Bacevich critically examines the U.S. response to the events of September 2001, as they have played out in the years since, radically affecting the way Americans see themselves and their nation's place in the world.

Bacevich is the author of nearly a dozen books and contributes to a wide variety of publications, including *Foreign Affairs*, *The Nation*, *Commonweal*, *Harper's*, and the *London Review of Books*. His op-eds have appeared in the *New York Times*, *Washington Post*, and the *Wall Street Journal*, among other newspapers. Prior to becoming an academic, he was a professional soldier. His experience as an Army officer informs his abiding concern regarding the misuse of American military power and the shortcomings of the U.S. military system. As a historian, he has tried to see the past differently, thereby making it usable to the present.

Bacevich combines the perspective of a scholar with the background of a practitioner. His views defy neat categorization as either liberal or conservative. He belongs to no "school." His voice and his views are distinctive, provocative, and refreshing. Those with a focus on political and cultural developments and who have a critical interest in America's role in the world will be keenly interested in this book.

Contributor Bio

Andrew J. Bacevich is professor emeritus of history and international relations at Boston University and the author of numerous books, including *America's War for the Greater Middle East: A Military History*.

Making a Modern Political Order

The Problem of the Nation State

James J. Sheehan

Summary

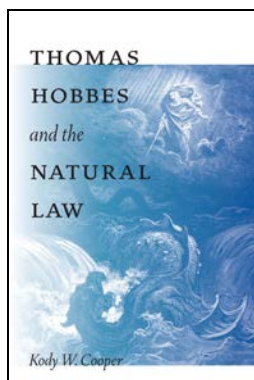

Sheehan's thoughtful book makes a convincing case that the modern political order arises out of people's shared expectations and hopes, without which the nation state could not exist.

Every political order depends on a set of shared expectations about how the order does and should work. In *Making a Modern Political Order*, James Sheehan provides a sophisticated analysis of these expectations and shows how they are a source of both cohesion and conflict in the modern society of nation states. The author divides these expectations into three groups: first, expectations about the definition and character of political space, which in the modern era are connected to the emergence of a new kind of state; second, expectations about the nature of political communities (that is, about how people relate to one another and to their governments); and finally, expectations about the international system (namely, how states interact in a society of nation states). Although Sheehan treats these three dimensions of the political order separately, they are closely bound together, each dependent on—and reinforcing—the others. Ultimately, he claims, the modern nation state must balance all three organizing principles if it is to succeed.

Sheehan's project begins with an examination of people's expectations about political space, community, and international society in the premodern European world that came to be called the "ancien régime." He then, in chapters on states, nations, and the society of nation states, proceeds to trace the development of a modern political order that slowly and unevenly replaced the ancien régime in Europe and eventually spread throughout the world. To close, he offers some speculations about the horizon ahead of us, beyond which lies a future order that may someday replace our own.

Thomas Hobbes and the Natural Law

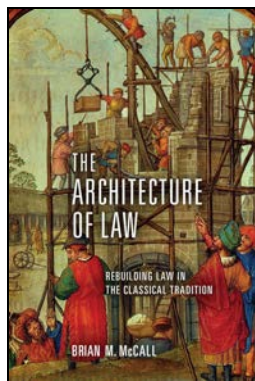

Kody W. Cooper

Summary

Has Hobbesian moral and political theory been fundamentally misinterpreted by most of his readers? Since the criticism of John Bramhall, Hobbes has generally been regarded as advancing a moral and political theory that is antithetical to classical natural law theory. Kody W. Cooper challenges this traditional interpretation of Hobbes in *Thomas Hobbes and the Natural Law*. Hobbes affirms two essential theses of classical natural law theory: the capacity of practical reason to grasp intelligible goods or reasons for action and the legally binding character of the practical requirements essential to the pursuit of human flourishing. Hobbes's novel contribution lies principally in his formulation of a thin theory of the good. This book seeks to prove that Hobbes has more in common with the Aristotelian-Thomistic tradition of natural law philosophy than has been recognized. According to Cooper, Hobbes affirms a realistic philosophy as well as biblical revelation as the ground of his philosophical-theological anthropology and his moral and civil science. In addition, Cooper contends that Hobbes's thought, although transformative in important ways, also has important structural continuities with the Aristotelian-Thomistic tradition of practical reason, theology, social ontology, and law. What emerges from this study is a nuanced assessment of Hobbes's place in the natural law tradition as a formulator of natural law liberalism. This book will appeal to political theorists and philosophers and be of particular interest to Hobbes scholars and natural law theorists.

The Architecture of Law

Rebuilding Law in the Classical Tradition

Brian M. McCall

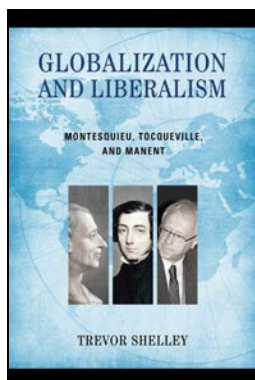

Summary

This book argues that classical natural law jurisprudence provides a superior answer to the questions "What is law?" and "How should law be made?" rather than those provided by legal positivism and "new" natural law theories.

What is law? How should law be made? Using St. Thomas Aquinas's analogy of God as an architect, Brian McCall argues that classical natural law jurisprudence provides an answer to these questions far superior to those provided by legal positivism or the "new" natural law theories. *The Architecture of Law* explores the metaphor of law as an architectural building project, with eternal law as the foundation, natural law as the frame, divine law as the guidance provided by the architect, and human law as the provider of the defining details and ornamentation. Classical jurisprudence is presented as a synthesis of the work of the greatest minds of antiquity and the medieval period, including Cicero, Aristotle, Gratian, Augustine, and Aquinas; the significant texts of each receive detailed exposition in these pages. Along with McCall's development of the architectural image, he raises a question that becomes a running theme throughout the book: To what extent does one need to know God to accept and understand natural law jurisprudence, given its foundational premise that all authority comes from God? The separation of the study of law from knowledge of theology and morality, McCall argues, only results in the impoverishment of our understanding of law. He concludes that they must be reunited in order for jurisprudence to flourish. This book will appeal to academics, students in law, philosophy, and theology, and to all those interested in legal or political philosophy.

Globalization and Liberalism

Montesquieu, Tocqueville, and Manent

Trevor Shelley

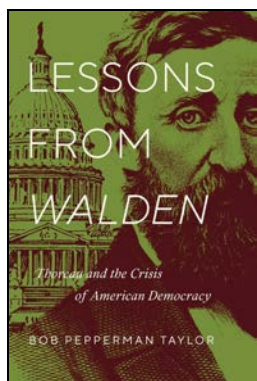

Summary

In this learned and wide-ranging book, Trevor Shelley engages the controversial topic of globalization through philosophical exegesis of great texts. *Globalization and Liberalism* illustrates and defends the idea that at the heart of the human world is the antinomy of the universal and the particular. Various thinkers have emphasized one aspect of this tension over the other. Some, such as Rousseau and Schmitt, have defended pure particularity. Others, such as Habermas, have uncritically welcomed the intimations of the world state. Against these twin extremes of radical nationalism and antipolitical universalism, this book seeks to recover a middle or moderate position—the liberal position. To find this via media, Shelley traces a tradition of French liberal political thinkers who take account of both sides of the antinomy: Montesquieu, Tocqueville, and Manent. As Shelley argues, each of these thinkers defends the integrity of political bodies, denies that the universal perspective is the only legitimate perspective, and recognizes that, without differences and distinctions across the political landscape, self-government and freedom of action are impossible.

As human beings, we can live free and fulfilling lives neither as isolated individuals nor as members of humanity. Rather, we require a properly constituted particular political community in which we can make manifest our universal humanity. In the liberalism of these three thinkers, we find the resources to think through what such a political community might look like. *Globalism and Liberalism* demonstrates the importance of these writers for addressing today's challenges and will interest political theorists, historians of political thought, and specialists of French political thought.

Lessons from Walden

Thoreau and the Crisis of American Democracy

Bob Pepperman Taylor

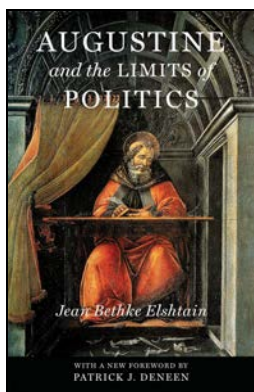

Summary

Throughout this original and passionate book, Bob Pepperman Taylor presents a wide-ranging inquiry into the nature and implications of Henry David Thoreau's thought in *Walden* and *Civil Disobedience*. Taylor pursues this inquiry in three chapters, each focusing on a single theme: chapter 1 examines simplicity and the ethics of "voluntary poverty," chapter 2 looks at civil disobedience and the role of "conscience" in democratic politics, and chapter 3 concentrates on what "nature" means to us today and whether we can truly "learn from nature." Taylor considers Thoreau's philosophy, and the philosophical problems he raises, from the perspective of a wide range of thinkers and commentators drawn from history, philosophy, the social sciences, and popular media, breathing new life into Walden and asking how it is alive for us today.

In *Lessons from Walden*, Taylor allows all sides to have their say, even as he persistently steers the discussion back to a nuanced reading of Thoreau's actual position. With its tone of friendly urgency, this interdisciplinary tour de force will interest students and scholars of American literature, environmental ethics, and political theory, as well as environmental activists, concerned citizens, and anyone troubled with the future of democracy.

Contributor Bio

Bob Pepperman Taylor is the Elliott A. Brown Green and Gold Professor of Law, Politics, and Political Behavior at the University of Vermont. He is the author and editor of a number of books, including *The Routledge Guidebook to Thoreau's Civil Disobedience*.

Augustine and the Limits of Politics

Jean Bethke Elshtain

Summary

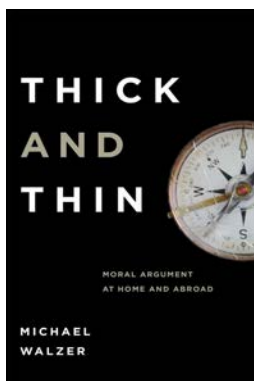

Now with a new foreword by Patrick J. Deneen.

Jean Bethke Elshtain brings Augustine's thought into the contemporary political arena and presents an Augustine who created a complex moral map that offers space for loyalty, love, and care, as well as a chastened form of civic virtue. The result is a controversial book about one of the world's greatest and most complex thinkers whose thought continues to haunt all of Western political philosophy. What is our business "within this common mortal life?" Augustine asks and bids us to ask ourselves. What can Augustine possibly have to say about the conditions that characterize our contemporary society and appear to put democracy in crisis? Who is Augustine for us now and what do his words have to do with political theory? These are the underlying questions that animate Jean Bethke Elshtain's fascinating engagement with the thought and work of Augustine, the ancient thinker who gave no political theory per se and refused to offer up a positive utopia. In exploring the questions, Why Augustine, why now?

Elshtain argues that Augustine's great works display a canny and scrupulous attunement to the here and now and the very real limits therein. She discusses other aspects of Augustine's thought as well, including his insistence that no human city can be modeled on the heavenly city, and further elaborates on Hannah Arendt's deep indebtedness to Augustine's understanding of evil. Elshtain also presents Augustine's arguments against the pridefulness of philosophy, thereby linking him to later currents in modern thought, including Wittgenstein and Freud.

Contributor Bio

Jean Bethke Elshtain (1941-2013) was one of the nation's most prominent and provocative thinkers on religion, political philosophy, and ethics. She was the Laura Spelman Rockefeller Professor of Social and Political Ethics in the Divinity School, Political Science, and the Committee on International Relations at the University of Chicago. She was the author of numerous books, including *Sovereignty: God, State, and Self*.

Thick and Thin

Moral Argument at Home and Abroad

Michael Walzer

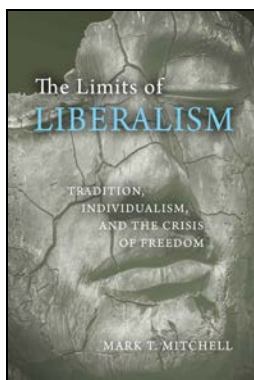

Summary

In *Thick and Thin: Moral Argument at Home and Abroad*, Michael Walzer revises and extends the arguments in his influential *Spheres of Justice*, framing his ideas about justice, social criticism, and national identity in light of the new political world that has arisen in the past three decades. Walzer focuses on two different but interrelated kinds of moral argument: maximalist and minimalist, thick and thin, local and universal. This new edition has a new preface and afterword, written by the author, describing how the reasoning of the book connects with arguments he made in *Just and Unjust Wars* about the morality of warfare.

Walzer's highly literate and fascinating blend of philosophy and historical analysis will appeal not only to those interested in the polemics surrounding *Spheres of Justice* and *Just and Unjust Wars* but also to intelligent readers who are more concerned with getting the arguments right.

Contributor Bio

Michael Walzer is Emeritus Professor of the Institute for Advanced Study at Princeton University. He is the author of *Arguing About War*, *On Toleration*, and *Just and Unjust Wars*.

The Limits of Liberalism

Tradition, Individualism, and the Crisis of Freedom

Mark T. Mitchell

Summary

In *The Limits of Liberalism*, Mark T. Mitchell argues that a rejection of tradition is both philosophically incoherent and politically harmful. This false conception of tradition helps to facilitate both liberal cosmopolitanism and identity politics. The incoherencies are revealed through an investigation of the works of Michael Oakeshott, Alasdair MacIntyre, and Michael Polanyi.

Mitchell demonstrates that the rejection of tradition as an epistemic necessity has produced a false conception of the human person—the liberal self—which in turn has produced a false conception of freedom. This book identifies why most modern thinkers have denied the essential role of tradition and explains how tradition can be restored to its proper place.

Oakeshott, MacIntyre, and Polanyi all, in various ways, emphasize the necessity of tradition, and although these thinkers approach tradition in different ways, Mitchell finds useful elements within each to build an argument for a reconstructed view of tradition and, as a result, a reconstructed view of freedom. Mitchell argues that only by finding an alternative to the liberal self can we escape the incoherencies and pathologies inherent therein.

This book will appeal to undergraduates, graduate students, professional scholars, and educated laypersons in the history of ideas and late modern culture.

Contributor Bio

Mark T. Mitchell is the chair of the government department at Patrick Henry College. He is the author and co-editor of a number of books, including *The Politics of Gratitude: Scale, Place, and Community in a Global Age*.

Jean Bethke Elshtain

Politics, Ethics, and Society

Debra Erickson, Michael Le Chevallier

Summary

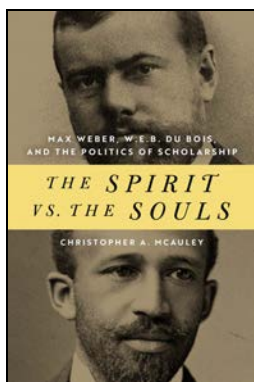

Jean Bethke Elshtain (1941–2013) was a noted ethicist, political philosopher, and public intellectual. Her four decades of scholarship defy easy categorization: she wrote both seminal works of theory and occasional pieces for the popular press, and she was variously viewed as radical and conservative, feminist and traditionalist, anti-war and pro-interventionist. *Jean Bethke Elshtain: Politics, Ethics, and Society* is the first attempt to evaluate Elshtain's entire published body of work and to give shape to a wide-ranging scholarly career, with an eye to her work's ongoing relevance. This collection of essays brings together scholars and public intellectuals from across the spectrum of disciplines in which Elshtain wrote. The volume is organized around four themes, which identify the central concerns that shaped Elshtain's thought: (1) the nature of politics; (2) politics and religion; (3) international relations and just war; and (4) the end(s) of political life. The essays have been chosen not only for the expertise of each contributor as it bears on Elshtain's work but also for their interpretive and analytic scope. This volume introduces readers to the work of a key contemporary thinker, using Elshtain's writing as a lens through which to reflect on central political and scholarly debates of the last few decades. Jean Bethke Elshtain will be of great interest to specialists researching Elshtain and to scholars of multiple disciplines, particularly political theory, international relations, and religion.

The Spirit vs. the Souls

Max Weber, W. E. B. Du Bois, and the Politics of Scholarship

Christopher A. McAuley

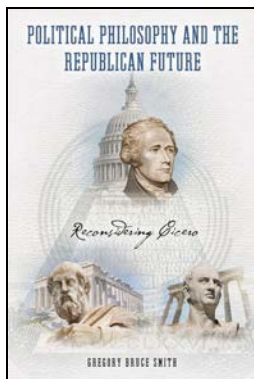

Summary

Despite the extensive scholarship on Max Weber (1864–1920) and W. E. B. Du Bois (1868–1963), very little of it examines the contact between the two founding figures of Western sociology. Drawing on their correspondence from 1904 to 1906, and comparing the sociological work that they produced during this period and afterward, *The Spirit vs. the Souls: Max Weber, W. E. B. Du Bois, and the Politics of Scholarship* examines for the first time the ideas that Weber and Du Bois shared on topics such as sociological investigation, race, empire, unfree labor, capitalism, and socialism. What emerges from this examination is that their ideas on these matters clashed far more than they converged, contrary to the tone of their letters and to the interpretations of the few scholars who have commented on the correspondence between Weber and Du Bois.

Christopher McAuley provides close readings of key texts by the two scholars, including Weber's *The Protestant Ethic and the Spirit of Capitalism* and Du Bois's *The Souls of Black Folk*, to demonstrate their different views on a number of issues, including the economic benefits of unfree labor in capitalism. The book addresses the distinctly different treatment of the two figures's political sympathies in past scholarship, especially that which discredits some of Du Bois's openly antiracist academic work while failing to consider the markedly imperialist-serving content of some of Weber's. McAuley argues for the acknowledgment and demarginalization of Du Bois's contributions to the scholarly world that academics have generally accorded to Weber. This book will interest students and scholars of black studies, history, and sociology for whom Du Bois and Weber are central figures.

Contributor Bio

Christopher A. McAuley is associate professor in the Department of Black Studies at the University of California, Santa Barbara. He is the author of *The Mind of Oliver C. Cox* (University of Notre Dame Press, 2004).

Political Philosophy and the Republican Future

Reconsidering Cicero

Gregory Bruce Smith

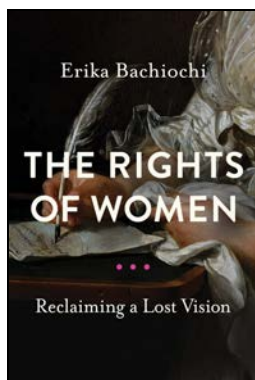

Summary

Are we moving inevitably into an irreversible era of postnationalism and globalism? In *Political Philosophy and the Republican Future*, Gregory Bruce Smith asks, if participation in self-government is not central to citizens' vision of the political good, is despotism inevitable? Smith's study evolves around reconciling the early republican tradition in Greece and Rome as set out by authors such as Aristotle and Cicero, and a more recent tradition shaped by thinkers such as Machiavelli, Locke, Montesquieu, Adam Smith, Madison, and Rousseau. Gregory Smith adds a further layer of complexity by analyzing how the republican and the larger philosophical tradition have been called into question by the critiques of Nietzsche, Heidegger, and their various followers.

For Smith, the republican future rests on the future of the tradition of political philosophy. In this book he explores the nature of political philosophy and the assumptions under which that tradition can be an ongoing tradition rather than one that is finished. He concludes that political philosophy must recover its phenomenological roots and attempt to transcend the self-legislating constructivism of modern philosophy. Forgetting our past traditions, he asserts, will only lead to despotism, the true enemy of all permutations of republicanism. Cicero's thought is presented as a classic example of the phenomenological approach to political philosophy. A return to the architectonic understanding of political philosophy exemplified by Cicero is, Smith argues, the key to the republican future.

Contributor Bio

Gregory Bruce Smith is professor of political science and philosophy at Trinity College. He is the author of a number of books, including *Nietzsche, Heidegger, and the Transition to Postmodernity* and *Martin Heidegger: Paths Taken, Paths Opened*.

The Rights of Women

Reclaiming a Lost Vision

Erika Bachiochi

Summary

Erika Bachiochi offers an original look at the development of feminism in the United States, advancing a vision of rights that rests upon our responsibilities to others.

In *The Rights of Women*, Erika Bachiochi explores the development of feminist thought in the United States. Inspired by the writings of Mary Wollstonecraft, Bachiochi presents the intellectual history of a lost vision of women's rights, seamlessly weaving philosophical insight, biographical portraits, and constitutional law to showcase the once predominant view that our rights properly rest upon our concrete responsibilities to God, self, family, and community.

Bachiochi proposes a philosophical and legal framework for rights that builds on the communitarian tradition of feminist thought as seen in the work of Elizabeth Fox-Genovese and Jean Bethke Elshtain. Drawing on the insight of prominent figures such as Sarah Grimké, Frances Willard, Florence Kelley, Betty Friedan, Pauli Murray, Ruth Bader Ginsburg, and Mary Ann Glendon, this book is unique in its treatment of the moral roots of women's rights in America and its critique of the movement's current trajectory. *The Rights of Women* provides a synthesis of ancient wisdom and modern political insight that locates the family's vital work at the very center of personal and political self-government. Bachiochi demonstrates that when rights are properly understood as a civil and political apparatus born of the natural duties we owe to one another, they make more visible our personal responsibilities and more viable our common life together.

Contributor Bio

Erika Bachiochi is a fellow at the Ethics and Public Policy Center and a senior fellow at the Abigail Adams Institute, where she founded and directs the Wollstonecraft Project.

Conservatism in a Divided America

The Right and Identity Politics

George Hawley

Summary

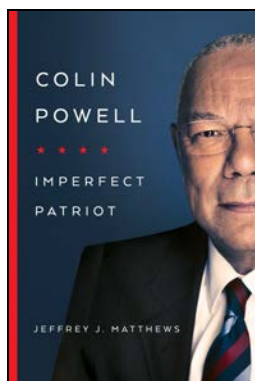

George Hawley, who has written extensively on conservatism and right-wing ideologies in the U.S., presents a telling portrait of conservatism's relationship with identity politics.

The American conservative movement has consistently declared its opposition to all forms of identity politics, arguing that such a form of politics is at odds with individualism. In this persuasive study, George Hawley examines the nature of identity politics in the United States: how conservatives view and understand it, how they embrace their own versions of identity, and how liberal and conservative intellectuals and politicians navigate this equally dangerous and potentially explosive landscape.

Hawley begins his analysis with a synopsis of the variety both of conservative critiques of identity politics and of conservative explanations for how it has come to define America's current political terrain. This historical account of differing conservative approaches to identitarian concerns from the post-war era until today—including race, gender, and immigration—foregrounds conservatism's lack of consistency in its critiques and ultimately its failure to provide convincing arguments against identity politics. Hawley explores the political right's own employment of identity politics, particularly in relation to partisan politics, and highlights how party identification in the United States has become a leading source of identity on both sides of the political spectrum. Hawley also discusses this generation's iteration of American white nationalism, the Alt-Right, from whose rise and fall conservatism may develop a more honest, realistic, and indeed relevant approach to identity politics. *Conservatism in a Divided America* examines sensitive subjects from a dispassionate, fair-minded approach that will appeal to readers across the ideological divide.

Colin Powell

Imperfect Patriot

Jeffrey J. Matthews

Summary

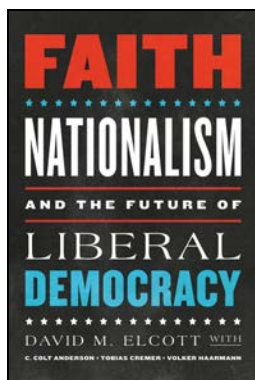

This fascinating biography of the late Colin Powell brings to light his towering achievements and errors in judgment during a lifetime devoted to public service.

Until he passed away in 2021, Colin Powell was revered as one of America's most trusted and admired leaders. This biography demonstrates that Powell's decades-long development as an exemplary subordinate is crucial to understanding his astonishing rise from a working-class immigrant neighborhood to the highest echelons of military and political power, including his roles as the country's first Black national security advisor, chairman of the Joint Chiefs of Staff, and secretary of state.

Once an aimless, ambitionless teenager who barely graduated from college, Powell became an extraordinarily effective and staunchly loyal subordinate to many powerful superiors who, in turn, helped to advance his career. By the time Powell became chairman of the Joint Chiefs of Staff, he had developed into the consummate follower—motivated, competent, composed, honorable, and independent. The quality of Powell's followership faltered at times, however, while in Vietnam, during the Iran-Contra scandal, and after he became George W. Bush's secretary of state. Powell proved a fallible patriot, and in the course of a long and distinguished career he made some grave and consequential errors in judgment. While those blunders do not erase the significance of his commendable achievements amid decades of public service, we can learn much from his good and bad leadership.

Faith, Nationalism, and the Future of Liberal Democracy

David M. Elcott, C. Colt Anderson, Tobias Cremer, Volker Haarmann

Summary

***Faith, Nationalism, and the Future of Liberal Democracy* highlights the use of religious identity to fuel the rise of illiberal, nationalist, and populist democracy.**

In *Faith, Nationalism, and the Future of Liberal Democracy*, David Elcott, C. Colt Anderson, Tobias Cremer, and Volker Haarmann present a pragmatic and modernist exploration of how religion engages in the public square. Elcott and his co-authors are concerned about the ways religious identity is being used to foster the exclusion of individuals and communities from citizenship, political representation, and a role in determining public policy. They examine the ways religious identity is weaponized to fuel populist revolts against a political, social, and economic order that values democracy in a global and strikingly diverse world.

The authors explore what constitutes a constructive religious voice in the political arena, even in nurturing patriotism and democracy, and what undermines and threatens liberal democracies. To lay the groundwork for a religious response, the book offers chapters showing how Catholicism, Protestantism, and Judaism can nourish liberal democracy. The authors encourage people of faith to promote foundational support for the institutions and values of the democratic enterprise from within their own religious traditions and to stand against the hostility and cruelty that historically have resulted when religious zealotry and state power combine.

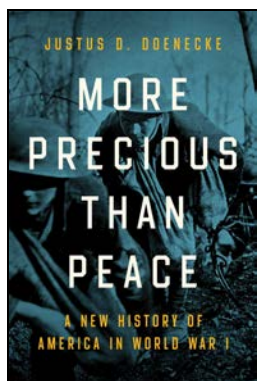

Contributor Bio

David Elcott is the Taub Professor of Practice in Public Service and Leadership at the Wagner School of Public Service at NYU and director of the Advocacy and Political Action specialization.

C. Colt Anderson is the outgoing dean of the Graduate School of Religion and Religious Education at Fordham University.

Tobias Cremer is a Junior Research Fellow at Pembroke College, Oxford, and a recent Ph.D. from Cambridge.

More Precious than Peace

A New History of America in World War I

Justus D. Doenecke

Summary

Justus D. Doenecke's monumental study covers diplomatic, military, and ideological aspects of U.S. involvement as a full-scale participant in World War I.

The entry of America into the "war to end all wars" in April 1917 marks one of the major turning points in the nation's history. In the span of just nineteen months, the United States sent nearly two million troops overseas, established a robust propaganda apparatus, and created an unparalleled war machine that played a major role in securing Allied victory in the fall of 1918. At the helm of the nation, Woodrow Wilson and his administration battled against political dissidence, domestic and international controversies, and their own lack of experience leading a massive war effort.

In *More Precious than Peace*, the long-awaited successor to his critically acclaimed work *Nothing Less than War*, Justus D. Doenecke examines the entirety of the American experience as a full-scale belligerent in World War I. This book covers American combat on the western front, the conscription controversy, and scandals in military training and production. Doenecke explores the Wilson administration's quest for national unity, the Creel Committee, and "patriotic" crusades. Weaving together these topics and many others, including the U.S. reaction to the Russian revolutions, Doenecke creates a lively and comprehensive narrative. Based on impressive research, this balanced appraisal challenges historiographical controversies and will be of great use to students, scholars, and any reader interested in the history of World War I.

Contributor Bio

Justus D. Doenecke is professor emeritus of history at New College of Florida. He is the author of numerous books, including *Storm on the Horizon: The Challenge to American Intervention, 1939-1941*, winner of the Herbert Hoover Book Award, and *Nothing Less than War: A New History of America's Entry into World War I*.

Future Peace

Technology, Aggression, and the Rush to War

Robert H. Latiff

Summary

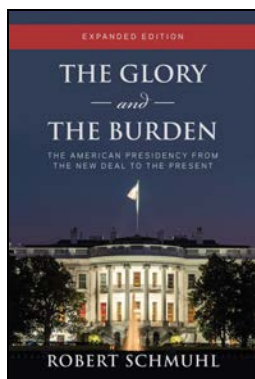

***Future Peace* urges extreme caution in the adoption of new weapons technology and is an impassioned plea for peace from an individual who spent decades preparing for war.**

Today's militaries are increasingly reliant on highly networked autonomous systems, artificial intelligence, and advanced weapons that were previously the domain of science fiction writers. In a world where these complex technologies clash with escalating international tensions, what can we do to decrease the chances of war? In *Future Peace*, the eagerly awaited sequel to *Future War*, Robert H. Latiff questions our overreliance on technology and examines the pressure-cooker scenario created by the growing animosity between the United States and its adversaries, our globally deployed and thinly stretched military, the capacity for advanced technology to catalyze violence, and the American public's lack of familiarity with these topics.

Future Peace describes the many provocations to violence and how technologies are abetting those urges, and it explores what can be done to mitigate not only dangerous human behaviors but also dangerous technical behaviors. Latiff concludes that peace is possible but will require intense, cooperative efforts on the part of technologists, military leaders, diplomats, politicians, and citizens. *Future Peace* amplifies some well-known ideas about how to address the issues, and provides far-, mid-, and short-term recommendations for actions that are necessary to reverse the apparent headlong rush into conflict. This compelling and timely book will captivate general readers, students, and scholars of global affairs, international security, arms control, and military ethics.

Contributor Bio

Major General (Ret.) Robert H. Latiff is adjunct professor with the John J. Reilly Center for Science, Technology, and Values at the University of Notre Dame and research professor at George Mason University. He is the author of *Future War: Preparing for the New Global Battlefield*.

The Glory and the Burden

The American Presidency from the New Deal to the Present, Expanded Edition

Robert Schmuhl

Summary

Robert Schmuhl chronicles the American presidency for nearly a century, providing a compelling picture of how the functions of the office and who occupies it have changed over the decades.

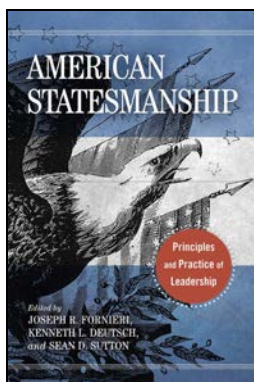

The Glory and the Burden: The American Presidency from the New Deal to the Present is a timely examination of the state of the American presidency and the forces that have shaped it since 1933, with an emphasis on the dramatic changes that have taken place within the institution and to the individuals occupying the Oval Office. A new chapter and other elements have been added to the book, which originally appeared in the fall of 2019. This expanded, updated edition probes the election of Joe Biden in 2020, the transition of the White House from Donald Trump to Biden, and Biden's first several months in office.

Robert Schmuhl traces the evolution of the modern presidency back to the terms of Franklin Roosevelt, maintaining that FDR's White House years had a profound impact on the office, resulting in significant changes to the job and to those who've served since then. Specifically, the Twenty-Second Amendment to the Constitution, limiting a president to two terms, has largely redefined each administration's agenda. News sources and social media have also grown exponentially, exercising influence over the conduct of presidents and affecting the consequences of their behavior.

Schmuhl examines the presidency as an institution and the presidents as individuals from several different perspectives. *The Glory and the Burden* is an engrossing read for a general audience, particularly those with an interest in politics, American history, and communications.

Contributor Bio

Robert Schmuhl is the Walter H. Annenberg-Edmund P. Joyce Professor Emeritus of American Studies and Journalism at the University of Notre Dame, where he has taught since 1980.

American Statesmanship

Principles and Practice of Leadership

Joseph R. Fornieri, Kenneth L. Deutsch, Sean D. Sutton

Summary

This book, much needed in our public discourse, examines some of the most significant political leaders in American history.

With an eye on the elusive qualities of political greatness, this anthology considers the principles and practices of diverse political leaders who influenced the founding and development of the American experiment in self-government. Providing both breadth and depth, this work is a virtual "who's who" from the founding to modern times. From George Washington to Frederick Douglass and Elizabeth Cady Stanton to FDR and Ronald Reagan, the book's twenty-six chapters are thematically organized to include a brief biography of each subject, his or her historical context, and the core principles and policies that led to political success or failure. A final chapter considers the rhetorical legacy of Bill Clinton, George W. Bush, Barack Obama, and Donald Trump.

Religion and Politics Beyond the Culture Wars

New Directions in a Divided America

Darren Dochuk

Summary

This volume reframes the narrative that has too often dominated the field of historical study of religion and politics: the culture wars.

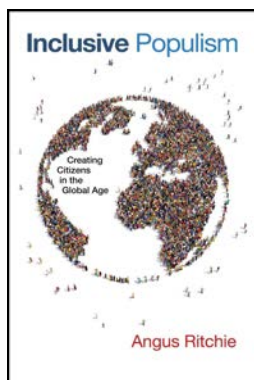

Influenced by culture war theories first introduced in the 1990s, much of the recent history of modern American religion and politics is written in a mode that takes for granted the enduring partisan divides that can blind us to the complex and dynamic intersections of faith and politics. The contributors to *Religion and Politics Beyond the Culture Wars* argue that such narratives do not tell the whole story of religion and politics in the modern age.

This collection of essays, authored by leading scholars in American religious and political history, challenges readers to look past familiar clashes over social issues to appreciate the ways in which faith has fueled twentieth-century U.S. politics beyond predictable partisan divides and across a spectrum of debates ranging from environment to labor, immigration to civil rights, domestic legislation to foreign policy. Offering fresh illustrations drawn from a range of innovative primary sources, theories, and methods, these essays emphasize that our rendering of religion and politics in the twentieth century must appreciate the intersectionality of identities, interests, and motivations that transpire and exist outside an unbending dualistic paradigm.

Contributors: Darren Dochuk, Janine Giordano Drake, Joseph Kip Kosek, Josef Sorett, Patrick Q. Mason, Wendy L. Wall, Mark Brilliant, Andrew Preston, Matthew Avery Sutton, Kathleen Sprows Cummings, Benjamin Francis-Fallon, Michelle Nickerson, Keith Makoto Woodhouse, Kate Bowler, and James T. Kloppenberg.

Inclusive Populism

Creating Citizens in the Global Age

Angus Ritchie

Summary

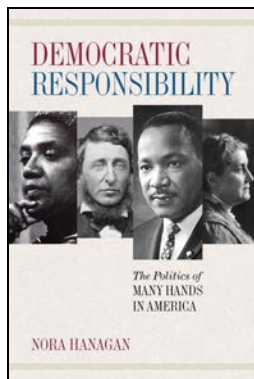

In this first volume in the Contending Modernities series, *Inclusive Populism: Creating Citizens in the Global Age*, Angus Ritchie claims that our current political upheavals, exemplified by the far-right populism of billionaire Donald Trump, reveal fundamental flaws in secular liberalism. Ritchie maintains that both liberalism and this “fake populism” resign citizens to an essentially passive role in public life.

Ritchie argues instead for an “inclusive populism,” in which religious and nonreligious identities and institutions are fully represented in the public square, engaging the diverse communities brought together by global migration to build and lead a common life. Drawing on twenty years of experience in action and reflection in East London, Ritchie posits that the practice of community organizing exemplifies a truly inclusive populism, and that it is also reflected in the teaching of Pope Francis.

Speaking to our political crisis and mapping out a way forward, *Inclusive Populism* will appeal to thoughtful readers and active citizens interested in politics, community organizing, and religion.

Contributor Bio

Angus Ritchie heads the Centre for Theology and Community in London. He is a Church of England priest and the author of *From Morality to Metaphysics: The Theistic Implications of Our Ethical Commitments*.

Democratic Responsibility

The Politics of Many Hands in America

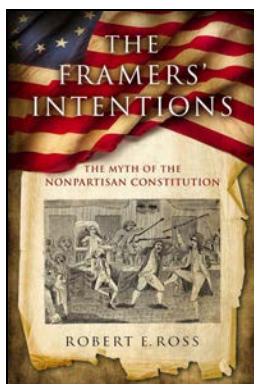

Nora Hanagan

Summary

American society is often described as one that celebrates self-reliance and personal responsibility. However, abolitionists, progressive reformers, civil rights activists, and numerous others often held their fellow citizens responsible for shared problems such as economic exploitation and white supremacy. Moreover, they viewed recognizing and responding to shared problems as essential to achieving democratic ideals. In *Democratic Responsibility*, Nora Hanagan examines American thinkers and activists who offered an alternative to individualistic conceptions of responsibility and puts them in dialogue with contemporary philosophers who write about shared responsibility. Drawing on the political theory and practice of Henry David Thoreau, Jane Addams, Martin Luther King Jr., and Audre Lorde, Hanagan develops a distinctly democratic approach to shared responsibility. Cooperative democracy is especially relevant in an age of globalization and hyperconnectivity, where societies are continually threatened with harms—such as climate change, global sweatshop labor, and structural racism—that result from the combined interactions of multiple individuals and institutions, and which therefore cannot be resolved without collective action. *Democratic Responsibility* offers insight into how political actors might confront seemingly intractable problems, and challenges conventional understandings of what commitment to democratic ideals entails. This book will be of interest to scholars and students of political science, especially those who look to the history of political thought for resources that might promote social justice in the present.

Contributor Bio

Nora Hanagan is teaching assistant professor at the University of North Carolina at Chapel Hill.

The Framers' Intentions

The Myth of the Nonpartisan Constitution

Robert E. Ross

Summary

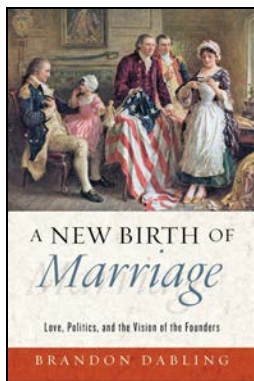

Robert Ross addresses a fascinating and unresolved constitutional question: why did political parties emerge so quickly after the framers designed the Constitution to prevent them? The text of the Constitution is silent on this question. Most scholars of the subject have taken that silence to be a hostile one, arguing that the adoption of the two-party system was a significant break from a long history of antiparty sentiments and institutional design aimed to circumscribe party politics.

The constitutional question of parties addresses the very nature of representation, democracy, and majority rule. Political parties have become a vital institution of representation by linking the governed with the government. Efforts to uphold political parties have struggled to come to terms with the apparent antiparty sentiments of the founders and the perception that the Constitution was intended to work against parties.

The Framers' Intentions connects political parties and the two-party system with the Constitution in a way that no previous account has, thereby providing a foundation for parties and a party system within American constitutionalism. This book will appeal to readers interested in political parties, constitutional theory, and constitutional development.

Contributor Bio

Robert Ross is assistant professor of political science at Utah State University and a contributor to *Hatred of America's Presidents*.

A New Birth of Marriage

Love, Politics, and the Vision of the Founders

Brandon Dabbling

Summary

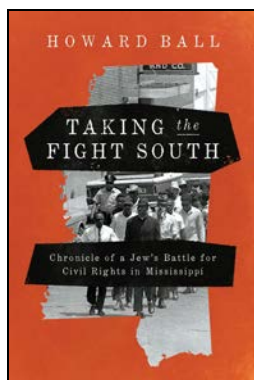

***A New Birth of Marriage* provides a history of the changes to marriage throughout the American experience and a theoretical argument for the goodness of the traditional American family in fostering private happiness and the public good.**

A New Birth of Marriage argues that the American Founders placed marriage as the cornerstone of republican liberty. The Founders' vision of marriage relied on a liberalized form of marital unity that honored human equality, rights, and the beauty of intimate marital love. This vision of marriage remained largely healthy in the culture until the Progressive Era and persisted in law until the 1960s. *A New Birth of Marriage* vindicates the Founders' understanding of marriage and argues that a prudential return toward this understanding is vital to America's political health and Americans' private happiness.

Brandon Dabbling argues that Founders at the state and national level shaped marriage law to reflect five vital components of marital unity: the equality and complementarity of the sexes, consent and permanence in marriage, exclusivity in marriage, marital love, and a union oriented toward procreation and childrearing. Devoting a chapter to each of these principles, *A New Birth of Marriage* gives a thorough account of how each tenet has been challenged and stands now vindicated in American political thought. The book provides a philosophical and political case for the beauty and vitality of each of these components to the nature of marriage and will appeal to students and scholars of marriage, family, the American founding, democracy, and liberalism.

Contributor Bio

Brandon Dabbling is an independent researcher. He has written many articles on American marriage law.

Taking the Fight South

Chronicle of a Jew's Battle for Civil Rights in Mississippi

Howard Ball

Summary

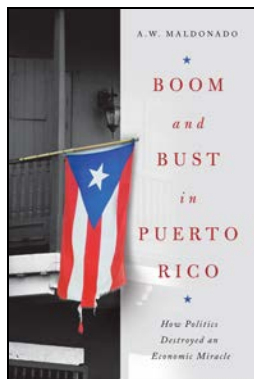

***Taking the Fight South* provides a timely and telling reminder of the vigilance democracy requires if racial justice is to be fully realized.**

Distinguished historian and civil rights activist Howard Ball has written dozens of books during his career, including the landmark biography of Thurgood Marshall, *A Defiant Life*, and the critically acclaimed *Murder in Mississippi*, chronicling the Mississippi Burning killings. In *Taking the Fight South*, arguably his most personal book, Ball focuses on six years, from 1976 to 1982, when, against the advice of friends and colleagues in New York, he and his Jewish family moved from the Bronx to Starkville, Mississippi, where he received a tenured position in the political science department at Mississippi State University. For Ball, his wife, Carol, and their three young daughters, the move represented a leap of faith, ultimately illustrating their deep commitment toward racial justice.

Ball, with breathtaking historical authority, narrates the experience of his family as Jewish outsiders in Mississippi, an unfamiliar and dangerous landscape contending with the aftermath of the civil rights struggle. Signs and natives greeted them with a humiliating and frightening message: "No Jews, Negroes, etc., or dogs welcome." From refereeing football games, coaching soccer, and helping young black girls integrate the segregated Girl Scout troops in Starkville, to life-threatening calls from the KKK in the middle of the night, from his work for the ACLU to his arguments in the press and before a congressional committee for the extension of the 1965 Voting Rights Act, Ball takes the reader to a precarious time and place in the history of the South. Ball's story is one of an imitable advocate who didn't just observe as a passive spectator but interrupted injustice.

Contributor Bio

Howard Ball is professor emeritus of political science at the University of Vermont. He specializes in civil liberties, civil rights, constitutional law, and American government.

Boom and Bust in Puerto Rico

How Politics Destroyed an Economic Miracle

A. W. Maldonado

Summary

Who is to blame for the economic and political crisis in Puerto Rico—the United States or Puerto Rico? This book provides a fascinating historical perspective on the problem and an unequivocal answer on who is to blame.

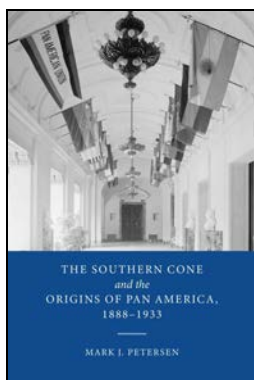

In this engaging and approachable book, journalist A. W. Maldonado charts the rise and fall of the Puerto Rican economy and explains how a litany of bad political and fiscal policy decisions in Washington and Puerto Rico destroyed an economic miracle.

Under Operation Bootstrap in the 1950s and '60s, the rapid transformation and industrialization of the Puerto Rican economy was considered a "wonder of human history," a far cry from the economic "death spiral" the island's governor described in 2015. *Boom and Bust in Puerto Rico* is the story of how the demise of an obscure tax policy that encouraged investment and economic growth led to escalating budget deficits and the government's shocking default of its \$70 billion debt. Maldonado also discusses the extent of the devastation from Hurricane Maria in 2017, the massive street protests during 2019, and the catastrophic earthquakes in January 2020.

After illuminating the century of misunderstanding between Puerto Rico and the United States—the root cause of the economic crisis and the island's gridlocked debates about its political status—Maldonado concludes with projections about the future of the relationship. He argues that, in the end, the economic, fiscal, and political crises are the result of the breakdown and failure of Puerto Rican self-government.

Contributor Bio

A. W. Maldonado is a retired journalist who spent more than fifty years covering Puerto Rico's politics and economy as reporter and columnist for the *San Juan Star* and editor of *El Mundo* and *El Reportero*.

The Southern Cone and the Origins of Pan America, 1888-1933

Mark J. Petersen

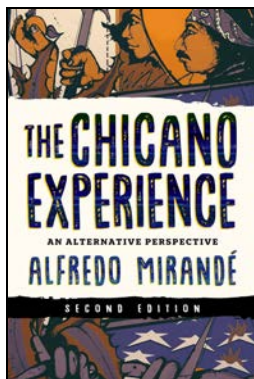

Summary

This book traces the history of Argentine and Chilean pan-Americanism and asks why pan-Americanism came to define inter-American relations in the twentieth century.

The Southern Cone and the Origins of Pan America, 1888-1933 offers new perspectives on the origins of the inter-American system and the history of international cooperation in the Americas. Mark J. Petersen chronicles the story of pan-Americanism, a form of regionalism launched by the United States in the 1880s and long associated with U.S. imperial pretensions in the Western hemisphere. The story begins and ends in the Río de la Plata, with Southern Cone actors and Southern Cone agendas at the fore. Incorporating multiple strands of pan-American history, Petersen draws inspiration from interdisciplinary analysis of recent regionalisms and weaves together research from archives in Argentina, Chile, the United States, and Uruguay. The result is a nuanced and comprehensive account of how Southern Cone policy makers used pan-American cooperation as a vehicle for various agendas—personal, national, regional, hemispheric, and global—transforming pan-Americanism from a tool of U.S. interests to a framework for multilateral cooperation that persists to this day. Petersen decenters the story of pan-Americanism and orients the conversation on pan-Americanism toward a more complete understanding of hemispheric cooperation. The book will appeal to students and scholars of inter-American relations, Latin American (especially Chile and Argentina) and U.S. history, Latin American studies, and international relations.

The Chicano Experience (2nd Edition)

An Alternative Perspective

Alfredo Mirandé

Summary

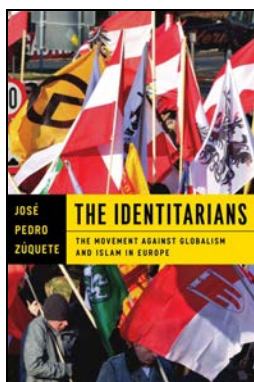

This revised, second edition of *The Chicano Experience* offers a new interpretation of the social, cultural, and economic forces that shape the situation of Chicanos today.

For more than thirty years, and now in its ninth printing, Alfredo Mirandé's *The Chicano Experience* has captivated readers with its groundbreaking analysis of Chicanos in the United States. Although its original context differs markedly from the current demographic landscape, it remains no less relevant today—Latinos have emerged as the largest minority population in the United States. With updated chapters revised in light of contemporary scholarship, this second edition speaks to the Chicano of today, in addition to puertorriqueños, Central Americans, and other groups who share common experiences of colonization, racialization, and, especially in the last decade, demonization.

In this foundational text, Mirandé develops a comprehensive framework for Chicano sociology that, in attending closely to Chicano experience, aims to correct the biases and misconceptions that have prevailed in the field. He demonstrates how the conventional immigrant group model of society, with its focus on assimilation into mainstream American culture, does not apply to Chicanos. Supporting this constructive proposal are analyses of Chicano social history and culture, with chapters focusing on the economy, the border, law, education, family, gender and machismo, and religion. The book concludes with a case study of community attitudes toward the police in an urban barrio. In many ways, the first edition of *The Chicano Experience* anticipated the sensitivity to the experiences of the underrepresented in American culture. This second edition reaffirms the prescience of Mirandé's work and makes it available to a new generation of students and scholars of Chicano and Latino studies, ethnic and race studies, sociology, and cultural studies.

Contributor Bio

Alfredo Mirandé is professor of sociology and chair of ethnic studies at the University of California, Riverside.

The Identitarians

The Movement against Globalism and Islam in Europe

José Pedro Zúquete

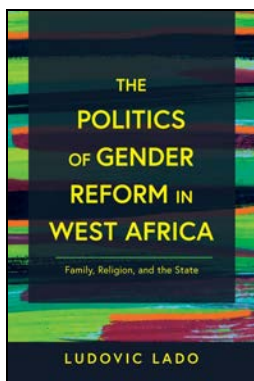

Summary

The Identitarians are a quickly growing ethnocultural transnational movement that, in diverse forms, originated in France and Italy and has spread into southern, central, and northern Europe. This timely and important study presents the first book-length analysis of this anti-globalist and anti-Islamic movement. José Pedro Zúquete, one of the leading experts in this field, studies intellectuals, social movements, young activists, and broader trends to demonstrate the growing strength and alliances among these once disparate groups fighting against perceived Islamic encroachment and rising immigration. The Identitarian intellectual and activist uprising has been a source of inspiration beyond Europe, and Zúquete ties the European experience to the emerging American Alt Right, in the limelight for their support of President Trump and recent public protests on university campuses across the United States.

Zúquete presents the multifaceted Identitarian movement on its own terms. He delves deep into the Identitarian literature and social media, covering different geographic contexts and drawing from countless primary sources in different European languages, while simultaneously including many firsthand accounts, testimonies, and interviews with theorists, sympathizers, and activists. *The Identitarians* investigates a phenomenon that will become increasingly visible on both sides of the Atlantic as European societies become more multicultural and multiethnic, and as immigration from predominantly Muslim nations continues to grow. The book will be of interest to Europeanists, political scientists, sociologists, and general readers interested in political extremism and contemporary challenges to liberal democracies.

Contributor Bio

José Pedro Zúquete is a research fellow at the Institute of Social Sciences at the University of Lisbon. He is the editor of the *Routledge International Handbook of Charisma* and co-author of *The Struggle for the World*.

The Politics of Gender Reform in West Africa

Family, Religion, and the State

Ludovic Lado

Summary

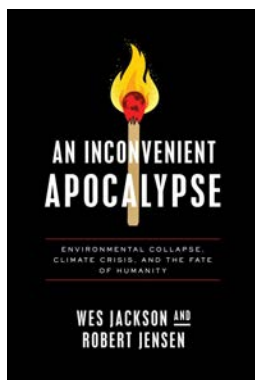

This anthropological study offers a crucial contribution to scholarly debates about the making of African modernity by considering the implementation and reception of gender reform in the West African context.

Historically, attempts at implementing gender reform in West Africa have been met with suspicion. Beyond the perception that such reforms subvert traditional structures of authority and community, many worry that these efforts are inextricably connected to Western imperialism and colonialism. Ludovic Lado's *The Politics of Gender Reform in West Africa* examines the politics of a legislative process entirely driven by the state and meant to narrow the gender gap in Ivorian society.

Lado discusses the legislative processes by which states have sought to reduce the gender gap between men and women, probes the potential impact of this reform on the condition of women by exploring the practice of civil marriage in Abidjan, and assesses the reception of the reform among Catholics and Muslims in Côte d'Ivoire. Throughout this readable and engaging study, Lado examines how the relationship between secular powers and religious authorities has determined the direction gender reforms have taken. Although the predominant focus in this text remains on gender reforms in Côte d'Ivoire, Lado also discusses their correlates in Niger, Senegal, and Mali. He shows that the success or failure of gender reforms in West Africa has relied on the interaction of various power relationships that structure the international, national, local, religious, and domestic arenas within which West Africans go about their lives. The book concludes with an informed reflection on the relationship among religions, the state, and gender reforms that highlights some of the issues at stake in the domestication of hegemonic modernity in Africa.

Contributor Bio

Ludovic Lado holds a doctorate in social anthropology from Oxford University and is director of the Jesuit Center for Studies and Training for Development (CEFOD) in N'Djamena, Chad.

An Inconvenient Apocalypse

Environmental Collapse, Climate Crisis, and the Fate of Humanity

Wes Jackson, Robert Jensen

Summary

Confronting harsh ecological realities and the multiple cascading crises facing our world today, *An Inconvenient Apocalypse* argues that humanity's future will be defined not by expansion but by contraction.

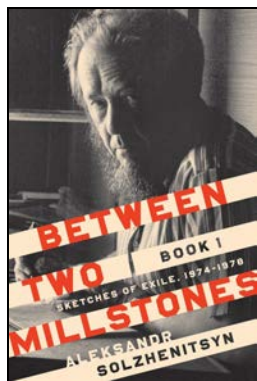

For decades, our world has understood that we are on the brink of an apocalypse—and yet the only implemented solutions have been small and convenient, feel-good initiatives that avoid unpleasant truths about the root causes of our impending disaster. Wes Jackson and Robert Jensen argue that we must reconsider the origins of the consumption crisis and the challenges we face in creating a survivable future. Longstanding assumptions about economic growth and technological progress—the dream of a future of endless bounty—are no longer tenable. The climate crisis has already progressed beyond simple or nondisruptive solutions. The end result will be apocalyptic; the only question now is how bad it will be.

Jackson and Jensen examine how geographic determinism shaped our past and led to today's social injustice, consumerist culture, and high-energy/high-technology dystopias. The solution requires addressing today's systemic failures and confronting human nature by recognizing the limits of our ability to predict how those failures will play out over time. Though these massive challenges can feel overwhelming, Jackson and Jensen weave a secular reading of theological concepts—the prophetic, the apocalyptic, a saving remnant, and grace—to chart a collective, realistic path for humanity not only to survive our apocalypse but also to emerge on the other side with a renewed appreciation of the larger living world.

Contributor Bio

Wes Jackson is cofounder and president emeritus of The Land Institute in Salina, Kansas.

Robert Jensen is professor emeritus in the School of Journalism at the University of Texas at Austin.

Between Two Millstones, Book 1

Sketches of Exile, 1974–1978

Aleksandr Solzhenitsyn, Peter Constantine, Daniel J. Mahoney

Summary

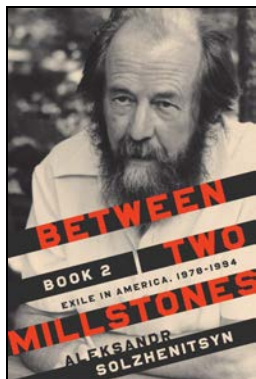

Between Two Millstones, Book 1 begins on February 13, 1974, when Solzhenitsyn found himself forcibly expelled to Frankfurt, West Germany, as a result of the publication in the West of *The Gulag Archipelago*. Solzhenitsyn moved to Zurich, Switzerland, for a time and was considered the most famous man in the world, hounded by journalists and reporters.

Between Two Millstones contains vivid descriptions of Solzhenitsyn's journeys to various European countries and North American locales, where he and his wife Natalia ("Alya") searched for a location to settle their young family. There are fascinating descriptions of one-on-one meetings with prominent individuals, detailed accounts of public speeches such as the 1978 Harvard University commencement, comments on his television appearances, accounts of his struggles with unscrupulous publishers and agents who mishandled the Western editions of his books, and the KGB disinformation efforts to besmirch his name. There are also passages on Solzhenitsyn's family and their property in Cavendish, Vermont, whose forested hillsides and harsh winters evoked his Russian homeland, and where he could finally work undisturbed on his ten-volume dramatized history of the Russian Revolution, *The Red Wheel*. Stories include the efforts made to assure a proper education for the writer's three sons, their desire to return one day to their home in Russia, and descriptions of his extraordinary wife, editor, literary advisor, and director of the Russian Social Fund, Alya, who successfully arranged to smuggle Solzhenitsyn's invaluable archive out of the Soviet Union.

Contributor Bio

Aleksandr Solzhenitsyn (1918–2008), Nobel Prize laureate in literature, was a Soviet political prisoner from 1945 to 1953. His *The Gulag Archipelago* (1973) unmasked Communism and played a critical role in its eventual defeat. Solzhenitsyn was exiled to the West in 1974. He ultimately published dozens of plays, poems, novels, and works of history, nonfiction, and memoir.

Peter Constantine is a literary translator and editor, and the director of the Literary Translation Program at the University of Connecticut.

Between Two Millstones, Book 2

Exile in America, 1978-1994

Aleksandr Solzhenitsyn, Clare Kitson, Melanie Moore, Daniel J. Mahoney

Summary

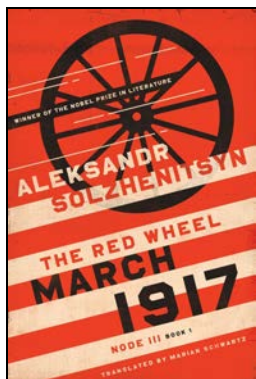

Between Two Millstones, Book 2 picks up the story of Solzhenitsyn's remarkable life after the raucous publicity over his 1978 Harvard Address has died down. The author parries attacks from the Soviet state as well as from recent émigrés who, according to Solzhenitsyn, defame Russian culture, history, and religion. He shares his unvarnished view of several infamous episodes, such as a sabotaged meeting with Ronald Reagan, aborted Senate hearings regarding Radio Liberty, and Gorbachev's protracted refusal to allow *The Gulag Archipelago* to be published back home. There is also a captivating chapter detailing his trips to Japan, Taiwan, and Great Britain, including meetings with Margaret Thatcher and Prince Charles and Princess Diana. Meanwhile, the central themes of *Book 1* course through this volume, too—the immense artistic quandary of fashioning *The Red Wheel*, staunch Western hostility to the historical and future Russia, and the challenges of raising his three sons in the language and spirit of Russia while cut off from the homeland in a remote corner of rural New England. The book concludes in 1994, as Solzhenitsyn bids farewell to the West in a valedictory series of speeches and meetings with world leaders and prepares at last to return home with his beloved wife Natalia, full of misgivings about what use he can be in the first chaotic years of post-Communist Russia, but never wavering in his conviction that, in the long run, his books would speak, influence, and convince.

March 1917

The Red Wheel, Node III, Book 1

Aleksandr Solzhenitsyn, Marian Schwartz

Summary

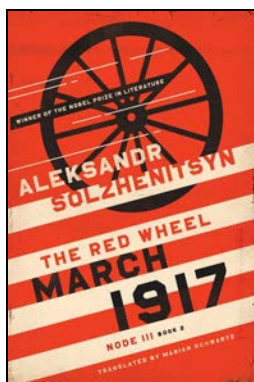

The Red Wheel is Solzhenitsyn's magnum opus about the Russian Revolution. Solzhenitsyn tells this story in the form of a meticulously researched historical novel, supplemented by newspaper headlines of the day, fragments of street action, cinematic screenplay, and historical overview.

March 1917—the third node—tells the story of the Russian Revolution itself, during which not only does the Imperial government melt in the face of the mob, but the leaders of the opposition prove utterly incapable of controlling the course of events. The action of book 1 (of four) of *March 1917* is set during March 8–12. The absorbing narrative tells the stories of more than fifty characters during the days when the Russian Empire begins to crumble. Bread riots in the capital, Petrograd, go unchecked at first, and the police are beaten and killed by mobs. Efforts to put down the violence using the army trigger a mutiny in the numerous reserve regiments housed in the city, who kill their officers and rampage. The anti-Tsarist bourgeois opposition, horrified by the violence, scrambles to declare that it is provisionally taking power, while socialists immediately create a Soviet alternative to undermine it. Meanwhile, Emperor Nikolai II is away at military headquarters and his wife Aleksandra is isolated outside Petrograd, caring for their sick children. Suddenly, the viability of the Russian state itself is called into question.

Contributor Bio

Aleksandr Solzhenitsyn (1918–2008), Nobel Prize laureate in literature, was a Soviet political prisoner from 1945 to 1953. His *The Gulag Archipelago* (1973) unmasked Communism and played a critical role in its eventual defeat. Solzhenitsyn was exiled to the West in 1974. He ultimately published dozens of plays, poems, novels, and works of history, nonfiction, and memoir.

Marian Schwartz is a prizewinning translator of Russian literature. She is the principal translator of the works of Nina Berberova, Mikhail Bulgakov, Ivan Goncharov, and others.

March 1917

The Red Wheel, Node III, Book 2

Aleksandr Solzhenitsyn, Marian Schwartz

Summary

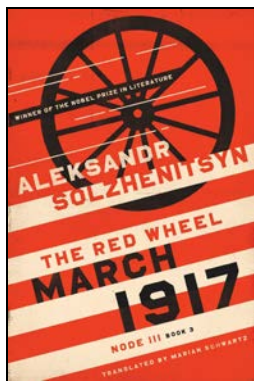

Aleksandr Solzhenitsyn's *March 1917, Book 2*, covers three days of the February Revolution when the nation unraveled, leading to the Bolshevik takeover eight months later.

The action of Book 2 (of four) of *March 1917* is set during March 13–15, 1917, the Russian Revolution's turbulent second week. The revolution has already won inside the capital, Petrograd. News of the revolution flashes across all Russia through the telegraph system of the Ministry of Roads and Railways. But this is wartime, and the real power is with the army. At Emperor Nikolai II's order, the Supreme Command sends troops to suppress the revolution in Petrograd. Meanwhile, victory speeches ring out at Petrograd's Tauride Palace. Inside, two parallel power structures emerge: the Provisional Government and the Executive Committee of the Petrograd Soviet of Workers' and Soldiers' Deputies, which sends out its famous "Order No. 1," presaging the destruction of the army. The troops sent to suppress the Petrograd revolution are halted by the army's own top commanders. The Emperor is detained and abdicates, and his ministers are jailed and sent to the Peter and Paul Fortress. This sweeping, historical novel is a must-read for Solzhenitsyn's many fans, as well as those interested in twentieth-century history, Russian history and literature, and military history.

March 1917

The Red Wheel, Node III, Book 3

Aleksandr Solzhenitsyn, Marian Schwartz

Summary

In *March 1917, Book 3* the forces of revolutionary disintegration spread out from Petrograd all the way to the front lines of World War I, presaging Russia's collapse.

The action of Book 3 (out of four) is set during March 16–22, 1917. In Book 3, the Romanov dynasty ends and the revolution starts to roll out from Petrograd toward Moscow and the Russian provinces. The dethroned Emperor Nikolai II makes his farewell to the Army and is kept under guard with his family. In Petrograd, the Provisional Government and the Soviet of Workers' and Soldiers' Deputies continue to exercise power in parallel. The war hero Lavr Kornilov is appointed military chief of Petrograd. But the Soviet's "Order No. 1" reaches every soldier, undermining the officer corps and shaking the Army to its foundations. Many officers, including the head of the Baltic Fleet, the progressive Admiral Nepenin, are murdered. Black Sea Fleet Admiral Kolchak holds the revolution at bay; meanwhile, Grand Duke Nikolai Nikolaevich, the emperor's uncle, makes his way to military headquarters, naively thinking he will be allowed to take the Supreme Command.
